Mr. M. Christianson, Gen. Supt. of Indian Agencies,
Dominion Public Bldg., Scarth & Victoria, Regina,
Sask.

With reference to your letter of the 14th instant, regarding the vacancy at the James Smith Day School, Bishop Martin has just written to us suggesting the temporary employment of Mrs. L. Ahenakew. He states that she has her Grade Eleven and is a bright, keen young woman and he feels would exert a very good influence with the Indian children. Her temporary appointment has been approved. If a qualified teacher can be obtained at any time Mrs. Ahenakew's services will cease. In any case it is not our intention to employ her longer than to June 30 next.

Dear Bishop Martin:

With reference to your letter of the 30th ultimo, the Department approves the transfer of Mr. L. Ahenakew from the Fort a-la-Corne South School to the James Smith Indian Day School. Salary will be allowed him at the rate of $95.00 a teaching month. This transfer will be effective from September 1, 1945.

In view of your recommendation regarding this transfer, it is presumed that Mrs. Ahenakew gave up duties at the James Smith School on July 1, 1945.

Yours sincerely,

For Deputy Minister.

Memorandum:

REPRESENTATIVE OF THE TREASURY.

Re: James Smith Indian Day School. No. 602.

Please note that Mrs. L. Ahenakew, who has been temporarily in charge of this school, gave up duties on July 1, 1945, and no further payment of salary should be made to her.

It has been decided to transfer Rev. L. Ahenakew from the Fort a-la-Corne South School (#609) to the James Smith School, effective September 1, 1945, at a salary of $95.00 a teaching month.

Please note that Mr. Ahenakew is a Treaty Indian and is teaching on an Indian reserve. Consequently, he is not liable for income tax.

I attach copy of letter approving this transfer.

Genelemen:

Thanks for yours received to-day re Harvey Jacobs, R. R. #3 Thamesville.

Yes, I am aware that the Department is engaging teachers who take charge of Indian day schools. On my trip north a few years ago I happened to call at an Indian school at Fort a la Corne and was greatly pleased to meet the teacher, who was an Indian. From all I could hear round about she was a splendid teacher and was doing good work. I believe her husband, also an Indian, had one room and she had another, it being a two-roomed school if I remember correctly. What I found, however, was that they were badly in need of maps of various kinds, and I promised to send to that particular teacher, whose name I have forgotten, a series of maps. If she is still there you will likely know, and if so I would be glad to send her maps.

Yours faithfully,

Dear Mr. MacNicol:

In reply to your letter of the 20th instant, the teacher who was in charge of the Fort-a-la-Corne a few years ago is no longer there. There are two schools at Fort-a-la-Corne, the North and the South. However, both teachers have been replaced, therefore, the teacher you refer to would not receive the maps were you to send any.

It is customary for teachers to send in a requisition to this office for supplies which they may require. This includes maps, books, stationery, etc. I,therefore, feel certain that since your visit these schools have requisitioned and received the material necessary to carry out their duties.

Education

All day schools in this Agency have been open during the period covered by this report, attendance at a few schools has been irregular due to cold weather and the pupils' homes being situated at a distance from their school.

A lunch consisting of a pot of hot cocoa with health biscuits was supplied each pupil at mid-day.

With the advent of spring and warmer weather regular attendance will be insisted upon at all day schools.

Ottawa, June 5, 1946.

Mr. W. J. McLeod, Indian Agent,
Duck Lake, Saskatchewan.

I have just received Inspector Mahood's report regarding his inspection of the James Smith Indian Day School on May 17.

The Inspector states that the supply of books and equipment should be improved. In this connection I may say that we have not yet received the requisition from the teacher for the classroom supplies for the academic year 1946-47. This should have been forwarded some weeks ago in order to give us time to secure the articles that we supply.

The Inspector recommends window blinds, screens and a few pictures, to relieve the monotony of the room. You may arrange for the purchase of these.

It is stated, further, that the walls and ceilings of this classroom should be redecorated. If you consider this necessary, please submit an estimate of the cost.

Mr. Mahood states that the present teacher, Mr. Abenakew, has much to his credit as a teacher. However, the Inspector considers that it would be to the benefit of Mr. Abenakew and the pupils if he were transferred to some other school and a new teacher engaged. Please let me have your comments on this suggestion.

Education

All day schools in this Agency, except Moose Woods Sioux, re-opened on September 3rd for the ensuing academic term. Following the duties at James Smith North Day School.

To date the services of a teacher for Moose Woods Whitecap Sioux Day School has not been found and every effort is being made to locate a suitable teacher. Attendance at all Day Schools now open has shown a marked improvement. Parents of Indian children in attendance at Residential Schools and are insisting that their children attend Day Schools on their Reservations, with the results that the seating accommodation at all Indian Day Schools is taxed to the limit and in a few cases overcrowding has resulted.

Two Indian families of John Smith Band are sending their children to a white day school adjacent to their reservation. The reasons given by the parents are that they do not want their children associating with white children.

Reference is made to your letter dated November 20th., your file No. 109-4-1 (W.T.1.) regarding condition of the Teacher's Residence at North Day School on James Smith Indian Reserve.

With reference to the remarks of Bishop Martin quoted in your letter regarding the condition of teacher's residence being responsible for the resignation of Mr. Dey, I cannot agree with Bishop Martin's views. The teacher's residence is warm and clean, it is definitely not falling apart and furthermore Mr. Day did not intimate to me that the condition of the residence had anything to do with resignation.

True the interior should be repair. Old plaster removed and the interior replastered and furnace repaired or replaced with a new furnace. Cement cistern should be installed, fences repaired and school yard cleaned up, also all buildings painted on the exterior. However, I wish to make it clear that the premises and buildings are definitely not in an unhabitable condition.

The school building admittedly is too small to accomodate the number of Indian children in attendance. All of these matters were discussed by me with Mr. Dey and he is well aware of the fact that due to shortages of materials and skilled labour nothing can be done about the matter at present, especially during the cold weather months. It is my intention to have necessary buildings completed in the future and I have discussed with Mr. Dey future plans for proper buildings to be placed on James Smith Reserve for educational purposes.

Mr. Dey has never indicated to myself that the teacher's residence was entirely unsatisfactory and he is well aware of the fact that during the war years we were unable to carry out a building program.

I realize the difficulty Bishop Martin is confronted with in regards to securing the service of satisfactory Indian Day School teachers, in fact a shortage of qualified teachers is prevalent throughout this Province. However to lay the blame on our Department buildings is definitely not the solution to his problem and I can assure Bishop Martin a large number of outside teachers are living in hovels at so called teacherages in white settlements in comparison with the teacherage at the North James Smith Reserve School.

I am definitely of the opinion that Bishop Martin is not aware of the reasons for Mr. Dey leaving and on my next visit to Prince Albert I will call and discuss the matter with him personally.

In the meantime I do not feel that it is wise to recommend any further expenditures in connection with the teacherage and School class room, as I am definitely of the opinion the only proper solution is to erect new buildings as and when materials and skilled labour become available.

No doubt equipping all Day School teacher's residence with proper furniture and kitchen equipment would be an inducement to qualified teachers assuming the duties, however I hesitate to recommend such expenditures as it would mean a large outlay not only now but in future years.

In conclusion a low me to state that the only solution to the problem, as I see it, in regard to securing the services of qualified teachers is to have all Indian day school teachers under the Civil Service Commission free from missionary services and hired directly by the officials of our Department. This method coupled with an upward revision of salaries would produce results.

The following sums have been expended in decorating and cleaning the North Day School and Teacher's Residence during the month of August 1946.

	Labour	50.00
Teachers Residende	Materials	50.00

Dear Bishop Martin:-

We have just received a letter from Mr. Indian Agent McLeod in which he states as follows:

"During the past week I contacted Mrs. Burbridge by telephone at her home at Ridgedale, Sask. She advises that due to severe winter weather and bad condition of all roads she will be unable to assume the duties at the North School on James Smith Reserve until the commencement of the Easter term on April 8th, next. Also the fact that she is now residing on a farm where a number of livestock are kept she will require time in order to wind up their affairs before moving to the school residence on James Smith Reserve.

Duck Lake, Sask.

In your letter of February 3rd, 1947, you stated that Mrs. Burbridge would begin duties at the James Smith North Indian Day School on April 6th.

We have now received a staff questionnaire from her in which she states that she commenced duties on March 31st.

Please let me know if the latter date is correct so that we can place her name on the pay list.

Ottawa, October 1, 1947.

Dear Mr. Day:

I have for answer your letter of September 22. I was pleased to hear that you are still interested in our Indian schools. I feel sure that there will be vacancies in British Columbia which might interest you. I have written today to Major D. M. MacKay, Indian Commissioner for British Columbia, P.O. Box 70, Vancouver, B.C., and have asked him to let you know of any vacancies. I attach a copy of one of our new application forms which I suggest you have completed and sent to Major MacKay as soon as possible, so that he will be fully aware of your qualifications. If there are no vacancies which interest you, we will have two new day schools opening near Edmonton, Alberta, in November or December. If you will let me hear from you later, in the event you are not settled in B. C., then I will give you the details concerning these Alberta [redacted].

Indian Day School Teacher

We have received a letter from Mr. Frank C. Day, who formerly taught at the Fort-a-la-Corne North Indian Day School in Saskatchewan. Mr. Day is 43 years of age and served in the Army for 6 years. He has an English teaching certificate and a Saskatchewan certificate. He taught for some 9½ years in provincial schools and 13½ in Indian day schools. He is anxious to obtain an Indian school in British Columbia. As he is an Anglicem, I thought you might be able to use his services. His address is 10 Beckman Block, Kamloops, B. C. I am writing to Mr. Day also, telling him that he will probably hear from you in the near future.

We now operate two Indian Day Schools on the James Smith Reserve and on checking over the enclosed form listing potential school population, it would appear that the solution to providing additional class room facilities would be as follows:

1. Erect a new combined teachers residence and class room in a suitable location approximately five miles distance from our present day school buildings.

2. Repair the South Day School and teachers residence and continue to operate this particular school where it is now located.

3. Repair and erect an addition to the North Day School, by extending the building approximately 16' to 20' in length.

Re: James Smith North Day School (608)

Provisions are being made in our 1950-51 estimates for finances to cover costs of enlarging class room accomodation at this school.

Two day schools are now on this particular Indian Reserve, one located near the north end of the Reserve and close to Department farm buildings, the other located seven miles south and towards the south end of James Smith Reserve. The Indian homes located on this particular Reserve are scattered over an area of approximately sixty square miles, with the highest number adjacent to the area served by the north day school with the results that the class room at this particular day school is overcrowded. Whereas, an increased attendance could be accomodated at the south day school, however, this is doubtful as 29 pupils are now available.

The following shows the number of school age pupils and under school age children of James Smith Band:

School Age	Under School Age
Area North School - 42	68
Area South School - 29	65
71	133

To overcome the difficulty here on James Smith Reserve in connection with providing additional accomodation is a problem that requires careful thought with an eye towards the future.

The farming area of James Smith Reserve all lies towards the southern part of the Reservation, however, at present the wooded area from which supplies of fuel wood is available to our Indians there lies towards the north, with the results that I believe our Indians will reside in greater numbers in the future towards the wooded area.

In view of the foregoing I believe we should increase class room accomodation at the north day school and move the south day school and teacher's residence approximately one mile west and one mile north from its present location moving the south day school will provide for an increase slightly in attendance and possibly absorb a few children of school age now in attendance at the north school. This move will also place the buildings in a more central part of the south end of the Reserve, and at the same time place the buildings adjacent to good water supplies. I might add here that water supplies are not available at the present site of the south school and water for use of teacher and school is being hauled a distance of approximately two miles.

I therefore recommend that consideration be given to enlarging the class room at the north day school by additions to the present building or by erection of a new two room day school at this location. I might add that the present school building at the north is old and will require considerable repairing in the near future. It is of log construction and sheated outside and inside.

Ottawa, August 5, 1932.

Sir:

I have to inform you that His Lordship the Bishop of Saskatchewan has nominated the services of Mrs. Amy MacFarlane as teacher of the James Smith Indian Day School to succeed Rev. E. V. Bird. Mrs. MacFarlane has a second class professional certificate for the Province of Manitoba and has had previous teaching experience. The Department is approving of her appointment, with salary at the rate of $90 per teaching month, less 10 percent for the current fiscal year. She is to begin duties when the school reopens after the present summer holidays, on September 1st, next. I have to request that you will give Mrs. MacFarlane every assistance you can in the work and also in encouraging a regular attendance of the Indian children.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Ottawa,
December 15, 1944.

Mr. N. J. McLeod, Acting Indian Agent, Duck Lake, Saskatchewan.

I am advised by Bishop Martin that Mrs. Ida McLeod, teacher of the James Smith Day School, finds it necessary to give up her duties at the end of the current month. We are advising Bishop Martin that her resignation is accepted.

Owing to the difficulty in obtaining a qualified teacher, we have decided to accept the Bishop's recommendation regarding the temporary employment of Mrs. L. Ahenakew. In this connection I enclose, for your information, a copy of our letter to Bishop Martin. I enclose the necessary forms which you should have Mrs. Ahenakew complete and return. It is understood that her employment will be effective from January 1, 1945.

REPRESENTATIVE OF THE TREASURY.

Re: James Smith Indian Day School, No. 608.

Please note that Mrs. L. Ahenakew, who has been temporarily in charge of this school, gave up duties on July 1, 1945, and no further payment of salary should be made to her.

It has been decided to transfer Rev. L. Ahenakew from the Fort a-la-Corne South School (#609) to the James Smith School, effective September 1, 1945, at a salary of $95.00 a teaching month.

Please note that Mr. Ahenakew is a Treaty Indian and is teaching on an Indian reserve. Consequently, he is not liable for income tax.

I attach copy of letter approving this transfer.

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN

DEPARTMENT OF EDUCATION

Prince Albert, April 15th, 1935.

J.T.Tomlinson
Inspector of Schools

Mr.C.P.Schmidt,
Indian Agent,
Duck Lake.

Dear Mr Smith;-

In conversation with Miss Jean McKay, Prince Albert, the other day her correspondence with you, with regard to our promotion tests, was referred to. I suggested to her that, since I was more familiar with the situation leading up to this correspondence, it might be well for me to write to you in the matter in order that any misunderstanding might the more readily be smoothed out.

May I refer to the organization under whose guidance our promotiontests are arranged? Three inspectorates combine in the scheme; namely, Kinistino, Shell Lake, and Prince Albert. Our Examination Board consists of; the three inspectors, a representative from each of the three Inspectoral Teacher's Associations, and one from the city schools of Prince Albert. Miss Jean McKay is the secretary of this board. As I have intimated, the test papers are prepared under the direction of this board. A test paper for each subject is provided to each pupil in a school. For this service each school board contributes the sum of $2.00 for each room in the school. I must point out that the tremendous burden of work that this involves can be carried only if the trustees cooperate freely, as the practice in the past, and that the burden is carried as the service to teachers and pupils is of most inclacu-

Some of the Indian schools have been receiving this mainly these schools in the Shell Lake inspectorate. The is followed there for our secretary to send an invoice in ue, I think, to the Agent on the basis of $2.00 per room, for roval. We inspectors ########## and that this was the regular course to pursue and suggested secretary advise each Agent accordingly for these schools a good-sized enrolment in the middle and upper grades. the Indian school teachers have been themselves purchasing a pers, that is, one copy of each test in each subject for all This has cost them $1.00. Some of these teachers have been the papers from neighboring rural schools, but this is not factory, as perhaps the main value of the papers is the in- they give of the curriculum as a guide to the teacher year. I should think that one set of the papers would be for such a school as that on the John Smith Reserve, as few pupils above # primary grades. I know that Mr Waite the uch like to have this service.

I hope that this explanation will make the situation t we may look forward to your cooperation in the the schools under your jurisdiction.

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN

DEPARTMENT OF EDUCATION

Prince Albert, April 15th, 1935.

J.T.Tomlinson
Inspector of Schools

Mr.C.P.Schmidt,
Indian Agent,
Duck Lake.

Dear Mr Smith;-

In conversation with Miss Jean McKay, Prince Albert, the other day her correspondence with you, with regard to our promotion tests, was referred to. I suggested to her that, since I was more familiar with the situation leading up to this correspondence, it might be well for me to write to you in the matter in order that any misunderstanding might the more readily be smoothed out.

May I refer to the organization under whose guidance our promotion tests are arranged? Three inspectorates combine in the scheme; namely, Kinistino, Shell Lake, and Prince Albert. Our Examination Board consists of; the three inspectors, a representative from each of the three Inspectoral Teacher's Associations, and one from the city schools of Prince Albert. Miss Jean McKay is the secretary of this board. As I have intimated, the test papers are prepared under the direction of this board. A test paper for each subject is provided to each pupil in a school. For this service each school board contributes the sum of $2.00 for each room in the school. I need not point out that the tremendous burden of work that this scheme involves can be carried only if the trustees cooperate freely, as has been the practice in the past, and that the burden is carried only because the service to teachers and pupils is of amost inclaculable value.

Some of the Indian schools have been receiving this service, mainly these schools in the Shell Lake inspectorate. The practice is followed there for our secretary to send an invoice in triplicate, I think, to the Agent on the basis of $2.00 per room, for his approval. We inspectors understood that this was the regular course to pursue and suggested that our secretary advise each Agent accordingly for these schools that have a good-sized enrolment in the middle and upper grades. Some of the Indian school teachers have been themselves purchasing a set of papers, that is, one copy of each test in each subject for all grades. This has cost them $1.00. Some of these teachers have been borrowing the papers from neighboring rural schools, but this is not very satisfactory, as perhaps the main value of the papers is the interpretation they give of the curriculum as a guide to the teacher during the year. I should think that one set of the papers would be sufficient for such a school as that on the John Smith Reserve, as there are so few pupils above # primary grades. I know that Mr Wait the would very much like to have this service.

I hope that this explanation will make the situation clear and that we may look forward to your cooperation in the interests of the schools under your jurisdiction.

Signed. J.T.Tomlinson.

Sir:

I beg to acknowledge receipt of your letter of the 17th instant, enclosing voucher No. 8579 covering the cost of examination papers supplied to the James Smith Indian Day School. This account is being paid, but I would point out that such expenditure should not be incurred unless the authority of the Department has been obtained.

The Department doubts the necessity of using these examination papers in an Indian day school. Before such expenditure is incurred in future, the Department should be written fully and the necessary authority obtained.

Ottawa, September 14, 1935.

Sir:

The Department has received the enclosed accounts in connection with work done at the Fort a la Corne South and James Smith's Indian Day Schools.

Apparently you have paid this man fifty cents an hour for his work, which seems to be a reasonable amount to allow, and for this reason the Department cannot understand why you submitted vouchers for his meals. The vouchers for the work cover so many hours, and it is impossible from the information given on them to know how many days the man was employed. As a result, we do not know whether one meal a day was supplied to him or more than one.

I may say that this a new method of engaging labour, viz., so much an hour, plus meals, and, due to present regulations, it is impossible for the Department to consider payment of the accounts in the manner in which they have been presented. They are, therefore, being returned, in order that you may give full explanations regarding the reasons forauthorizing work in the manner in which it has been done.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir;-

I have the honour to acknowledge receipt of Departmental letter #109-4-5 dated the 14th instant re accounts in connection with work done at the Fort-a-la-Corne South, and James Smith's Indian Day Schools and asking me to give full explanations regarding the reason why I submitted vouchers for labour and meals seperately.

In reply I beg to state that the arrangement I made with Bear was that he was to provide his own transportation from his home on John Smith's Reserve to and from James Smith's Reserve and I would allow him 50¢ per hour and meals or 55¢ without meals for his labour, also, that he could work as many hours as he was able each day as he was anxious to return home for harvest and I was anxious to have the work finished by September 1st.

I am now forwarding vouchers #8879-8880 for labour at 55¢ per hour and I will pay Mrs.E.S.Jones and Mrs.J.P.Sanderson for the meals supplied Bear from his account when the cheque has been placed to his credit.

DEPARTMENT OF EDUCATION

INSPECTOR OF SCHOOLS

value of these papers is in setting standards and in interpreting our Curriculum, for which purposes a frequent reference to papers of previous years is essential.

We have also been supplying a set of the papers consisting of one copy of each test for $1. Where the teacher has purchased the material himself, I think it has been in this form. It would seem to me that one set of the papers would be sufficient for the Indian day schools in the Prince Albert inspectorate, since there are so few pupils above primary grades in these schools. I cannot, of course, speak for the schools in the other two inspectorates.

As an inspector with schools under his supervision the tests are of almost invaluable service as they provide a standard check of progress and of ground covered. The pupils' answer papers are kept in the school until the next visit of the inspector, when he checks them over and discusses the situation with the teacher.

I shall be glad to know your disposition of this matter for our instruction and that of the Indian Agents concerned. I should appreciate a reply at your early convenience, as the papers are mailed out by the first of June.

Yours respectfully,

J. P. Thompson.

Dear Sir,

Re: Inspectoral Promotion Tests In Indian Schools

For two or three years past some, I think, most of the Indian day schools in the Prince Albert, Ministino, and Shell Lake inspectorates have made use of the promotion tests prepared for these three inspectorates. In some instances there appears to have been some difficulty in getting the requisition approved for their payment. I would refer to the letter of your Department under date of April 29, 1935, to Mr. C.P. Schmidt, Indian Agent, Duck Lake, Sask., a copy of which was forwarded to me.

Two or three of the teachers of Indian Day Schools in this vicinity have again expressed their desire to have the promotion tests this year. I, therefore, thought best to lay the whole situation before you, as suggested by the examination board, in the hope that the matter might be cleared up once for all.

May I refer to the organization under whose direction and guidance our promotion tests are arranged? Three inspectorates, viz, Prince Albert, Ministino, and Shell Lake, combine in the scheme. Our examination board consists of: the three inspectors, the president of each of the three Inspectoral Teachers' Associations, and one from the Principals' Association of the city of Prince Albert. The preparation of these papers, as you will appreciate, involves a tremendous amount of labour, which is done gratis. Expense is involved in printing the question papers and in clerical work in their distribution. The service to schools consists in supplying each pupil with a separate paper for each subject, that is for pupils above Grade III, and for about half of the subjects in Grades II and III. For this service a charge of $2 per school or room has been found to balance our books satisfactorily.

As I have indicated some of the Indian schools have been receiving and appreciating this service. I think some of the teachers have been paying for the material themselves. Some have been borrowing it from a neighboring public school, giving the tests on days following the dates on our time-table. I would point that this last plan is not very satisfactory, as perhaps the main

Ottawa, May 21st, 1936.

Dear Sir:

The Department is in receipt of a letter from Inspector Tomlinson with regard to supplying Inspectoral Promotion Tests for the day schools in the Duck Lake Agency. You will remember that the Department wrote you regarding this matter in official letter of April 29th, 1935.

You should consult the teachers of the day schools in your Agency and arrange for providing them with the test papers which you consider are absolutely necessary. Payment for these will be made on receipt from you of a properly certified voucher, in triplicate. It is understood, of course, that you will keep the expense as low as possible.

Yours truly,

T. R. L. MacInnes,
Acting Secretary.

INSPECTOR OF SCHOOLS

Prince Albert, Sask., June 8, 1936.

The Superintendent of Indian Affairs,
Ottawa.

Dear Sir,

I wish to thank you for your letter of May 21 in acknowledgement of mine of earlier date with reference to supplying the Indian day schools in this vicinity with our Inspectoral Promotion Tests. I am sorry to ask your further consideration of this matter.

Mr. Schmidt, Indian Agent, Duck Lake, Sask., to whom your letter referred, has been good enough to approve of these tests for the Indian day schools in his agency. You will note, however, that my letter refers to "Indian Agents". I am sorry that I did not make it specific that some of the schools referred to lie in the Leask or Battleford Agency. (I am not sure of the name) Mr. Davis being the agent. Some teachers in his agency have again approached me to write you that they may have the same privilege as the schools in the Duck Lake Agency. Three schools in Mr. Davis' agency have approached me, viz., Ahpahkakoops, Wm. Watts, or Sturgeon Lake, and Little Red.

Acting on the intimation of your letter may I suggest that you refer this matter to Mr. Davis, Agent, Leask.

Yours faithfully,

J. T. Tomlinson.

Sir;-

Reference Departmental Letter 109-4-5 May 21st/36

Inspectoral Promotion Test for Day Schools.

I beg to advise that I am in receipt of a letter from Jean McKay, Secretary Treasurer, Examination Committee Prince Albert, enclosing an account for June examination papers for the Fort a la Corne South Day School, applied for by Mrs E.M. Siddons, Teacher, amounting to $2.00.

I find that this organization supplied examination papers to the John Smith's Day School for June examinations last June.

I recommend that these forms be provided for the fore mentioned Day Schools, also for the Fort a la Corne North Day School, and request authority to do so.

I have the honour to be
Sir
Your obedient servant.

Dear Sir,-

With reference to your letter of the 12th instant, you should consult the teachers of the day schools in your agency and, if they require them, you may arrange for providing the test papers which you consider are absolutely necessary. The total amount expended last year in providing these test papers was $3.00 and this amount should not be exceeded this year.

Yours truly,

Dear Sir,-

The Department is in receipt of your letter of the 2nd instant, with reference to painting required at the James Smith Indian Day School.

In our appropriation for the current fiscal year, it was found possible to provide only $150 for this purpose. You may, therefore, arrange for whatever painting can be done for this amount. It is understood, of course, that $150 will include both the material and the labour.

The garden at this School was very poor this year. The potatoes grown therein were very small and in order to avoid any waste they are not peeled before cooking.

The Department may now be in receipt of a copy of a list of Mid-Day Meal requirements submitted with my letter No.2916-15MM, dated the 12th ultimo, to Doctor T. Robertson, Inspector. On this list it will be noted that 3 bushels of potatoes are shown as required for this School. This is an error in that the total yield of potatoes in the School garden was 3 bushels, and this figure was shown instead of the 8 bushels more that will be required.

Duck Lake, Sask. December 13th.1937.

R

Dear Sir;-

I beg to advise that owing to smoke escaping from a chimney fire in the teacher's residence of Fort-a-la-Corne North Day School, the kitchen walls and ceiling are blackened therefrom.

The chimney fire was apparently caused through the chimney having a faulty draft which creates creosote to accumulate and then catch on fire.

While I was visiting this reserve on the 7th, instance, I instructed Mr. Jones, Farming Instructor, to have the chimney repaired.

Departmental letter # 109-4-5 October 6/37 authorizes an expenditure of $66.00 to repair the furnace in this building. It is expected that there will be a small surplus left which would be sufficient to cover the cost of the minor repair to the chimney. I beg to request authority to use it for that purpose.

I recommend that authority be grabted to purchase 3 packets of kalsomine and one kalsomine brush for the purpose of kalsomining the kitchen mentioned, at a cost not exceeding $4.00.

Yours very truly.

S.H.Simpson.

Dear Sir:-

EX'D.

With reference to your letter of December 13th, the Department approves your repairing the chimney at the Fort-a-la-Corne North Day School. It is noted that you can have this work done from an amount that was unexpended when arranging repairs to the furnace.

Authority is also granted for the purchase of three packages of kalsomine and one brush at a cost not exceeding $4.00.

Yours truly,

Dear Sir:

I beg to advise that the interior of the following Indian Day schools at the Duck Lake agency are badly in need of redecorating:-

x x x

XX

James Smith's north Day School:- requires the same also repairs to the plaster work on the ceiling. The floors of the children's dining room is in places almost worn through, many of the boards being badly splintered making it difficult to scrub.

XX

(Re uir s to have all plaster work brushed and kalsomined and the floors and woodwork requ!re painting.)

PLEASE QUOTE
FILE 1477-15-100N

Duck Lake, Saskatchewan,
February 20, 1939 ...

Dear Sir:

I beg to advise that Mr. W. A. Richford, Teacher at the Fort a la Corne North Day School, has requested to be supplied with the items as listed on the attached form No. 37, in triplicate.

The lock on the children's dining room is broken beyond repair. Four inside-door-locks in the Teacher's residence are broken off and the doors cannot be kept closed. These locks were broken off a number of years ago.

The water and refuse pail is required to replace those that have been in use in the children's dining room and are now worn out.

The water fountain in the shcool is rusted through and is of no further use. A stoneware crock could be used to replace it at less cost than a new fountain.

I recommend that the items requested be supplied.

Yours very truly,

S. H. Simpson

Dear Sir:

The Fort a la Corne North Indian Day School Teacher's Residence and the School House are badly in need of exterior painting, also the interior of the School Children's Dining Room. The fencing around these grounds is down in many places and requires to be rebuilt. The old covering of the school well is rotting and a new one is required.

Form No. 37 in duplicate is enclosed, listing thereon the materials required and an estimate of the cost of labor to complete this work.

I recommend that this work be done and that Indians be employed to do it.

Your obedient servant,

S. H. Simpson

Ottawa,
August 8, 1939.

Dear Sir:

I desire to acknowledge the receipt of your letter of the 22nd ultimo with reference to painting and repairs at the Fort a la Corne North Indian day school.

In the current year's appropriation it was only found possible to include the amount of $300.00 for repairs, improvements and new equipment at the schools in the Duck Lake Agency. We have already authorized expenditures of approximately $172.00. This leaves a balance of $128.00 still available.

If all the work requested for the Fort a la Corne North school were done the amount available would be considerably exceeded. Owing to the present setup of our appropriation this is not possible to [illegible].

You may purchase the 6 screen windows and arrange for the repairs to the fence at a total cost for material and labour of $19.15.

With regard to the painting it is considered that owing to lack of funds you should only do the interior painting this year. In view of the fact that this work will have to be done at once in order to have it ready before the school re-opens after the summer holidays you may arrange for local purchase, from firms on the approved list, the quantity of paint required for the interior painting of the school and teacher's residence if you consider that this is necessary. It is understood from your letter that Indian labour only will be employed to do this painting.

Yours truly,

S. H. Simpson, Esq.,

MAR 26 1940

Dear Sir:

Re: Estimates 1940-41.

I beg to enclose herewith Form No. 37 in triplicate listing materials required for repairing the Fort a la Corne North Day School buildings.

School Class Room:

The interior of this room is badly in need of being re-painted and kalsomined. Authority was granted by Departmental letter #109-4-5, dated August 8th. 1939 to have this work done if it was possible to arrange to do so before the school re-opened after the summer holidays. Owing to the only Indians capable of doing this work being otherwise employed it was not possible to have it done.

Children's Dining Room:

The interior of this room was kalsomined and painted last fall. A screen door is required to the outside entrance, also an outside door, which has been damaged and repaired from time to time to the extent that it cannot be made to fit properly. The outside steps to this entrance also requires repairing.

Indian labour is to be employed in connection with the proposed work on the school class room.

I recommend that the repair work outlined be done and that the paint and varnish required for the interior of the teacher's residence be supplied.

MAY 22 1940
REGISTERED

INSPECTOR OF SCHOOLS

Prince Albert, Sask., May 18, 1940.

The Superintendent of Indian Affairs,
Ottawa.

Dear Sir,

I am writing your office again after an interval of four years in the matter of providing Promotion Guide material for the Indian schools in this area. In this connection I would refer to your letter to me under date of May 21, 1936, and of June 13, 1936. I would also request that my letter to your Department of May 16, 1936, be read in considering this matter.

In the intervening years some misunderstanding has arisen in the case of some schools. I think ~~with~~ the change of teachers in some schools has been the main cause. It is possible, too, that the agents of the Department, concerned, have either forgotten your Department's instruction of four years ago or interpreted your instructions to apply ~~to~~ only to the one year, 1936.

The school inspectors (now superintendents) concerned in conference recently expressed themselves strongly as to the value of this material in their supervisory services to the schools, concerning which I wrote on May 16, 1936. As president of the organization for the preparation of this material I was requested to write your office and petition for your approval to the Indian agents for its purchase. It seems to me that as to whether it is really needed in a particular school is one that should concern the individual teacher and the superintendent. The enrolment varies and it is evident that with pupils in Grades I and II only this service is not so vital. Might I respectfully suggest that your office write the two agents concerned instructing them to approve the purchase of this material should the teacher request it. Perhaps it is too much to suggest that your instructions be so worded that we need not have to approach your Department in the matter again.

Dear Sir:

I am in receipt of your voucher No. 603 covering the cost of glass and putty supplied for the school and teacher's residence on the James Smith Reserve. Although no authority was given for this expenditure the account is being paid. However, it is noted that 9 panes of glass were broken in the residence and the same number in the school. Please let me have an explanation for the breakage of so much glass. Was it due to any carelessness on the part of the teacher?

Yours truly,

Dear Sir,

I beg to advise that Mr. T.C. Morton, Farming Instructor James Smiths Reserve, advised by telephone on November 13th. that the top cribbing in the well at the Fort a la Corne North Day School had rotted also that the well was almost dry.

There being no other available means of supplying the school and teacher's residence with sufficient water, I instructed Mr. Morton to have the well cleaned out and the rotted cribbing replaced.

Vouchers No. 549 and 550 amounting to $4.00 each in favour of Alex Geoffrey and Abel Bellood the two Indians employed to do this work are enclosed herewith.

The account for the materials required has not yet been submitted and it is estimated that it will amount to approximately $7.00.

Dear Sir:

I am herewith forwarding requisitions from Agent Simpson, Duck Lake Agency, for repairs to Day Schools and Teachers' residences.

In connection with these the Agent has this to say: ".....for spring cleaning of teacher's residences, minor repairs to school buildings and interior decorating of the schools as hereunder listed".

John Smith's teacher's residence and school house.....	$ 98.39
Fort a la Corne North teacher's residence.....	66.30
Fort a la Corne South teacher's residence and school house.....	54.44
Moose Woods Sioux Teacher's residence.....	15.00
Kinistino School teacher's residence.....	50.00

284.13
38.05
322.18
37
359

I have also just received additional requisitions as follows:

Fort a la Corne North Day School:	
Congoleum for children's dining room.....	29.20
Screening teacher's residence.....	8.85

I do not know what your policy is with respect to repairs to schools. If you have all the money that is being asked all well and good but I am of the opinion that if we are going to cut down on the Agencies we should also cut down on schools. Therefore if you want to make a saving on repairs, just return the requisitions to me and state what savings you wish to make and I will cut them down accordingly.

Yours truly,

M. Christianson,
General Superintendent of Indian Agencies.

Dear Sir:

I have your letter of the 8th instant, with reference to repairs required at the day schools and teachers' residences in the Duck Lake Agency. In order that our files may be complete it will require several letters. In the individual instances the expenditure is not heavy and consequently communications are being forwarded direct to Indian Agent Simpson.

For your information, I may add that the total amount mentioned in your letter was approximately $369.00. We are allowing a total expenditure of approximately $215.00 at the four schools.

Yours truly,

Re: Schools, Repairs Buildings and Works
Page 76691 and 76693 Estimates 1944-45.

I beg to enclose herewith Form No. 37 with extra copy for your office, listing materials and work required in this connection as follows:

x x x

Fort a la Corne North Day School - School House - $86.00

The interior of this building requires re-doracting. labour is available to do the work.

xx xx xx

If there are any funds available for outside repairs to school buildings provisions should be made to do all buildings at the Fort a la Corne North School which are very badly in need of re-painting. The buildings at the South School also should be done, but at present are in better condition than those at the other school. Both these items are listed in the estimates.

Regina, April 21st, 1944.

Indian Affairs Branch, Department of Mines & Resources, Ottawa.

In the 1944-45 Estimates, Duck Lake Agency, a request was made for interior decorations of the teachers' residence, at John Smith's Reserve, Moose Woods Sioux Reserve, James Smith Reserve, and Kinistino Reserve.

I would recommend that these be approved of and granted. Mr. Simpson, the Agency, states that with respect to the interior decorations at the John Smith Day School and floors in the dining room and hall way are badly worn and in the first place there is only a one-ply lumber. There is sufficient experienced Indian labour on the reserve to do the work.

The Agent also request that if funds are available outside repairs be made to the Fort a La Corne North Indian Day School. This building is in bad need of re-painting. I also notice that the South School on the same reserve could do with a re-painting but at the present time it is in better shape than the school north of it.

Mr. M. J. McLeod, Acting Indian Agent, Duck Lake, Sask.

I have your letter of the 29th ultimo, with reference to the damage to the James Smith Indian Day School. It is noted that you estimate the cost of repairs at $150.00. If the materials needed cost more than $50.00, you should forward a requisition to this office, so that the purchase may be made through our Purchasing Branch. You will have plenty of time to repair this school before it re-opens on September 1.

With reference to 1945-46 Estimates Vote 76-02-221, sheet 76221; Provisions and supplies for Day School Mid Day meals amount $260.00.

As Family Allowances are now payable to Indians I believe the mid-day meals can be dispensed with and as a substitute a hot drink of cocoa supplied during the cold weather months only. However, before requesting for authority to make any expenditures for mid-day meals I would appreciate having your ruling as to what is considered the proper procedure to follow.

Since the opening of day schools on September, 2nd I have visited all Day Schools in this Agency and have requested the day school teachers to have a meeting of the Indian women and discuss this problem with them and at the same time prepare a sample lunch as a demonstration for their future guidance in preparing lunches for their children's mid-day meal while attending day school.

Ottawa, 18th September, 1945.

Mr. N.J. McLeod, Acting Indian Agent, Duck Lake, Sask.

I have your letter of the 12th instant with reference to mid-day meals supplied at Day Schools in the Duck Lake Agency. As you state, the Department feels that in view of the payment of Family Allowances, it can reasonably be expected that Indian children should receive better meals and the parents should be able to provide them with better lunches than in the past.

We have no intention of totally refusing some assistance towards the mid-day lunch at some schools but we feel in future our assistance should be confined to serving a hot drink plus the special biscuit which has been prepared under the direction of the Medical Services. We have already ordered the following quantity of biscuits for schools in your agency and it is expected they will arrive shortly:

James Smith Day School	450 lbs.
John Smith " "	800 lbs.
Fort a la Corne "	400 lbs.
Kinistino Day School	600 lbs.

If you consider it necessary you can shift the quantity of biscuits in any way you consider advisable.

Authority is granted for the purchase of cocoa and milk required to serve a hot drink during the winter months at the four schools in your agency.

Chief, Training Division.

Education

All Day Schools in this Agency are open and under the charge of competent teachers with the exception of James Smith South Day School. Miss M. Hitchcock assumed the teaching duties on September 1st, 1945, and according to the Public School Inspectors report she is not in possession of a teachers certificate.

Attendance at all Day Schools is satisfactory and shows a marked improvement over previous years. This is due to Family Allowance regulations.

A lunch consisting of a hot drink, cocoa, and health biscuits is supplied to the pupils at mid-day during the cold winter months.

At Kinistino Reserve the children are conveyed to and from the school each day by an Indian who is paid a small sum for his services from Family Allowance income by the parents of the children in attendance.

109-4-5 (W.T.1)

Ottawa, 28 October 1946.

Mr. N.J. McLeod, Indian Agent,
DUCK LAKE, Sask.

The Department finds it necessary to return the enclosed voucher No. 501. A separate voucher should be submitted for each school to which biscuits have been supplied.

As you are aware, a separate file is kept in this office for each school and we require a copy of all vouchers for the file to which they pertain.

END.

Ottawa, Ontario.

Kindly be referred to letter No. 116-21 dated January 17, 1947 from this office referring to Departmental authorization to build cisterns at James Smith Day School residence and Kinistino Indian Day School residence, Dept letter No. 109-6-5 (W.T.1).

Our letter recommended that the expenditure for these cisterns should be cancelled and authorization be made at a later date.

I would kindly request that authorization of these cisterns now be given so that materials can be purchased as soon as possible. I would estimate that the cost of each of these cisterns will be around $150.00.

Mr. N.J. McLeod,
Superintendent,
Indian Agency,
Duck Lake, Sask.

We have your voucher No. 863 covering the cost of vitamized biscuits supplied to the James Smith Day School.

There is no freight receipt attached to the voucher and as all previous accounts that we have received from the Company have had freight receipts attached, we are under the impression that you may have forgotten to attach this receipt to your voucher.

If you did not receive the freight receipt from the Company, I would appreciate it if you would write to them and arrange to have it forwarded to us. The number of their invoice is 22862.

EXTRACT FROM INSPECTOR'S REPORT ON FORT A LA CORNE NORTH DAY SCHOOL DATED JUNE 15, 1949. ORIGINAL ON FILE 109-4-6A (608-6)

The condition of the North School appears to be generally fair with a few exceptions. The blackboards and floor are poor; the furnace needs repairs. It is also felt that the room will be greatly overcrowded next year, at any rate, within the next few years. The purchase of the new single chair-type desks is to be highly commended but some of them need minor repairs before they are greatly damaged.

Enclosed herewith please find Survey of Potential School Population on the James Smith Indian Reserve #100.

We now operate two Indian Day Schools on the James Smith Reserve and on checking over the enclosed form listing potential school population, it would appear that the solution to providing additional class room facilities would be as follows:

1. Erect a new combined teachers residence and class room in a suitable location approximately five miles distance from our present day school buildings.

2. Repair the South Day School and teachers residence and continue to operate this particular school where it is now located.

3. Repair and erect an addition to the North Day School, by extending the building approximately 16' to 20' in length.

In this manner we will have provided three day schools located on the James Smith Indian reserve in areas adjacent to Indian settlements thereon.

The building site for a new day school would be selected in an area where suitable water supplies can be assured.

BUILDINGS AND PREMISES

Building — Frame — Satisfactory repair.
Schoolroom - 24'x16'x11' - 6 windows - 6 (two rear and 4 at pupils' left). Body of light comes from south. There are no blinds. On sunshiny days conditions are well nigh unbearable. Translucent blinds should be provided. Heating and ventilation seem satisfactory.
Floor - Clean at time of visit. Recently scrubbed. Provision made for scrubbing only once in 3 months. Progressive school boards in other schools think that the health and education of their children demand that school be scrubbed at least every 2 weeks. The Indian school should be scrubbed at least third of the

Closets - Both unscreened - Girls' in satisfactory condition. Boys' neat and unsatisfactory. A galvanized trough leading to closet pit in which to urinate should be installed.

Should have flag and flag staff like other schools (We should have no dividing lines)

GENERAL REMARKS

(Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.)

1. Grading under "Inspector's Examination", unsatisfactory. Pupils are young and diffident. Percentages given, are an uncertain determination of standing. An open statement from inspector as to how school is functioning in preparing Indians for living would be more to the point, would be more stimulating to the teacher, call for more from the inspector and yield truer information to the Department. Why not use the regular report forms of the provinces sending "Trustees Report" to Indian Agent.
2. Management of work is generally satisfactory. Reading and language both oral and written should receive most prominent attention. The library should be better supplied with reading matter suitable to these children. I have to commend the efforts to train to habits of neatness and cleanliness also the interest taken in household science generally. This I take it should be an important part of the work. The great function of this school should be the setting up of those ideals, the establishing of those attitudes and the forming of those habits that make for success in life. These are the abiding things woven into the texture of the ~~contract of the~~ individual that "stick" and influence long after information may be forgotten. There also are the things that come only with the good teacher and are not to be measured with a yard stick and definitely reported in percentages. Your teacher I think is well endowed by nature to give such training.
3. Salary of teacher is too low to hold the good man. It is a little better than half the average salary in this province.

Ernest Brandram Goodman — Provincial certificate, Regina, Sask. — $750 per annum salary, — 26 years age — Doing a very fair type of work. Has never had any professional training in teaching. Is fitted very well by nature for the work. — Industrious; conscientious; sympathetic; good perception; good intuition; a good mind. Is really interested. Control and management very good.

Would suggest that if there are many teachers of Indian schools who have not had professional training a summer session of two months be arranged for and these teachers be required to attend. Their expenses while attending should be paid by Dominion Government.

Teacher should be instructed to attend and take part in School Fairs, Teachers Conventions and Teachers' Institutes.

Sir :-

I enclose herewith a report of an inspection of the Fort ala Corne Indian Day School, made by Mr.J.F.Hutchison, Provincial School Inspector, and would say that this is a good boarding school and there is no reason why they should not be supplied with blinds. This is a trifling matter, and I am sure if blinds had been requisitioned for they would have been supplied.

With regard to the scrubbing of the floors, it would appear that the teacher had instructions that provision should only be made for scrubbing the school one in three months, this is an order I have heard nothing of, and the school should be scrubbed once a week or at the least once every two weeks. Other recommendations with regard to closets could be carried out.

THE TEACHER

Salary $750.00 per annum.

Qualifications Provisional, Saskatchewan.Natural endowment,good.Patient,persistent. Kindly yet firm.Good intuition.Methods very fair but would be improved by training.

Health Good.

Success Doing well.Has confidence of class.Keeps grounds and schoolroom neat and tidy.

Suggestions See last report re training of teacher.
If you have a well trained and successful teacher in any of your Indian schools would advise that you send Mr.Goodman to visit him for at least a week.
A suitable library would help the teaching.A supply of books suitable to these children should be at once provided.Would suggest that the teacher make his own selection.He knows the pupils intimately and knows what will interest them.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

Attendance very irregular and unpunctual.No school can do its best work under such circumstances.Considering this the school has made fairly satisfactory progress.Eight of the pupils have been legitimately advanced a grade since last visit.The real improvement is noted in the tone,the more general brightness,the wider interest and the greater responsiveness and power of expression.While the advance is not great it is real and in the right direction and indicates a force at work and the inertia overcome.Standing of grades is not generally on a par with that of corresponding grades of public schools of my inspectorate. This I think cannot be expected.The average intelligence is probably lower.Standing in reading only fair;writing and spelling above average; language,written and spoken,poor;arithmetic,fair.Reading and language should be stressed and should be based on material that appeals to interest of child.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

General management of school very good. Grounds are kept neat and tidy. A clean orderly tidy environment is highly important.

Reading and language both oral and written should receive most prominent attention. See remarks re library. The teacher must keep ever before him that he is fitting these children for living, that he is to widen their environment and interests, raise their ideals and brighten their mental machinery and weave into them those habits that make for success in life. Your present teacher has a good appreciation of this.

Sir: -

I am enclosing herewith a report on the ~~Fort a la Corne Day~~ School situated on the James Smith's Reserve in the Duck Lake Agency.

The report on the whole is not very satisfactory, the teacher is not qualified, the attendance is poor and they have not made very great strides during the year, if any. While the management of the school is considered good and the grounds kept neat and tidy I doubt very much if the Indians are getting the education they should at this school.

I notice that the Inspector in speaking of the standing of the grades states that they are not on a par with corresponding grades at the public schools of his inspectorate and he goes on to say "I think this cannot be expected". I do not agree with the Inspector, my experience has been with the average Indian child that put alongside a white child in a class room he can hold his own every time. I think foreign children receiving training such as the Indian children receive at this school would show perhaps to the same disadvantage.

There is nothing in particular with regard to the report on schools that requires attention. Mr. Marison is not here at the present time, but I will question him with regard to the movin[illegible] of the north end Day School to a more central point. He will be able to tell me whether this is profitable or not.

FORT A LA CORNE NORTH DAY SCHOOL

See file 109-4-1 re turning 1 school with

This school is situated on the north end of the James Smiths reserve. The school room is a modern building with a basement and is heated with hot air. The teacher's residence is a well built frame house with a dining room for the children attached. The buildings are both in a good state of repair and I found both the school and teacher's residence in a clean and tidy condition. There are three boys and six girls enrolled. The average attendance being about 50% of the enrollment. It was 40° below zero on the day of my visit and as a consequence only two pupils turned up and these were sent home. Mr. E.B. Goodman is in charge as teacher. He appears to be intelligent and interested in his work. His wife is Field Matron for the reserve; she has had many years experience in the Indian work and I should judge is very capable. Practically all the older children are now attending boarding school, consequently the pupilage available for the day school are all very young.

Qualifications Provisional, Saskatchewan.

Health Good.

Success Very fair. Should have training.

Suggestions See previous reports regarding training of teacher. The Ontario Education Department had a pamphlet "How to teach English to the French". If you could provide your teacher with a copy of this it should be an advantage.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

Very few pupils in attendance. Grade I. are beginners. They have but little understanding of English. Method in this work might be improved. Grade III. have improved since last visit. Writing and spelling, very fair. Language, fair. They need much oral work to cultivate ear and tongue and secure right habits of speech. Pupils read with considerable freedom They are finding interest in stories and are reading books from library. I notice an improvement in mental alertness of ~~school~~ pupils.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

A much better attendance than at last visit. Pupils much improved in alertness and enthusiasm. They talked much more freely and showed more interest in what was going on than at previous visits. This, I think, is a very telling, a very vital improvement. The school is making progress. Pupils are attentive and orderly and show a willingness and a desire to do well that is encouraging. The senior class can do much independent reading. I believe considerable use is made of library. Language while improving requires much attention. The teacher gives much time to oral work. This is wise. Spelling and writing, generally satisfactory Handwork receives due attention.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

General management satisfactory.

Teacher is interested and has a fairly clear conception of the objectives of the work and his responsibilities.

Pupils are clean. Teacher is particular in this.

Pupils are encouraged in games such as baseball and football.

Teacher plays with pupils. In this he makes use of his opportunity to improve language and mould character.

The library should contain more professional reading for the teacher. See books recommended elsewhere in this report.

Situated on James Smith Reserve, Province of Sask 24 1927

Date of Inspection September 21, 1927. Number of pupils present 8 Boys 8 Girls.

Number of children of School age on the Reserve Teacher does not know. Boys Girls. Number of children claimed by teacher to be of his own Faith all Number of children that should attend this school 17 Number of children enrolled 16, being 8 23 per cent of those that should attend. Average Attendance for 3 months, being 70.5% of those enrolled. What Church, if any, supervise the school activity Anglican Was the Inspector accompanied by the Indian Agent or other official No.

N.B.—The inspector is specially requested to answer all the above questions.

C. I. 182.

THE TEACHER

Name Katherine Sophia Skynner Bird Age 42

Salary $900.00 per annum.

Qualifications 2nd Interim, Saskatchewan No. 267-13. Trained in England.

Health Good.

Success A very short time in charge. Cannot judge of results. Her teaching and manner lead me to conclude she will be successful.

Suggestions That teacher continue to stress handwork, reading, writing, spelling, drawing, singing, games. Independent reading should be arrived at. To this end there should be plenty of reading matter, well illustrated and well adapted in vocabulary, style and matter to these children. Teacher should continue to train children to hygienic habits. A clean, comfortable and tidy environment should always be secured.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

While pupils are still very diffident they are improving in confidence and power to express themselves in English. Grade V did very good written work in language. Pupils are orderly and attentive and seem quite happy. A good feeling seems to exist between teacher and pupils. The two pupils who were in Grade IV at my last visit are now advanced to Grade V.

Suggestions

Much attention should be given to training of ear and tongue. Right habits of speech both as to construction and pronunciation should be aimed at. The habit of self-criticism should be carefully cultivated

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

Primary work in reading has much improved. There was better response and more enthusiasm than ever noted before in this school. The teacher is doing this work well. Pupils are improving in standing. Progress is slow as compared with white schools. This, I think, is to be expected. Satisfactory attention is given to habits of children. Handwork receives much attention.

The cross light is bad. I would suggest that the windows in the rear be closed and opened on the west.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

On the day of my visit the temperature was quite low. The fire had just been lit, were early. Many children present. The building was cold and remained so until nearly noon. Such conditions should not exist. When the children arrive the building should be warm and comfortable. Many are not warmly clad and to sit in cold seats shivering is bound to produce illness.

During my visit the children were constantly reminded that conduct, forming lines, marching were in preparation for the visit of some archdeacon. I feel that the basis should be the public school course as outlined and that the conduct and objectives the same as for the public schools of this province.

Sir:-

I beg to forward herewith Provincial School Inspector Piercy's report on the Fort-a-la-Corne North Indian Day School on the James Smith's Reserve in the Duck Lake Agency.

It is noted in connection with the classroom work that the Grade I pupils show marked progress in language, Grade II is above average, Grade III below average, and Grade IV quite up to average. I may say that I met Mrs. McFarlane, the Teacher, at Onion Lake where she had charge of a public school and where the white parents of the children spoke very highly regarding her ability as a teacher and her devotion to her work.

The Inspector comments on the cross light in the school being bad. This matter might be adjusted by changing the windows as he suggests at comparatively small expense. I will look into this matter when I next visit that Reserve.

It is also noted that the school building was cold until nearly noon on the day of the Inspector's visit and that many of the children are not warmly clad. I am writing the Indian Agent today asking him for a report regarding this condition.

I beg to forward herewith Provincial School Inspector Piercy's report of an inspection which he made on October 30th last of the North Fort-a-la-Corne Indian Day School on the James Smith's Reserve in the Duck Lake Agency.

This report indicates a very satisfactory condition of affairs at this school and is a marked contrast to the last report submitted by this Inspector and fully justifies the opinion I formed regarding the ability of the teacher, Mrs. McFarlane, as expressed in my report to the Department dated the 23rd March, 1933.

The inspectoratal sets of examinations were used. The reults were quite satisfactory. In many instances the pupils measured up to the standard set. I feel that during the past year there has been a marked improvement in achievement. I note that Health Education is stressed and I felt that desirable habits and attitudes are being developed and fixed through practice.

I would suggest ~~xxxx~~ that the set of examination papers be again supplied.

Sir:-

I beg to forward herewith Provincial School Inspector C. H. Piercy's report on the North Indian Day School on the James Smith's Reserve in the Duck Lake Agency.

This is a very satisfactory report and indicates that Mrs. McFarlane is an excellent teacher. This is the opinion which I formed of her when I visited the school.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

Irregularity, caused by weddings, functions and funerals observed and attended by parents.

Language offers a problem with beginners. Lessons in grade one were of the conversational type. Oral language should form an int.egral part of all lessons.

On the whole I feel that there is a more sympathetic attitude on the part of the teacher. She is making definite attempts to develop desirable habits and attitudes without coercion. The senior pupils show a desirable attitude in their pride in workmanship.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

I would suggest that intelligence tests be given. The place of each child on the normal distribution curve of intelligence should be known as well as his learning rate.

If the indian is on the lower end of the curve then a program of handwork, home economics, sewing, cooking etc. should be instuted. I feel that practical work for the boys & girls according to their varied interests and needs or at least 2h. of the school day and academic for the bal. would be a step in education of the indian. Such a program too would create interest and go a long way toward solving the attendance problem.

General comment:

Primary equipment, charts and workbooks in line with the readers, additional diagnostic and remedial workbooks in language and mathematics, children's magazines, standardized tests as well as tests of mental ability are needed. As a guide in understanding the child the I.Q.s should be taken and the probable learning rates and Mental Ages determined.

Language is the main problem in the school. These pupils hesitate to speak out. I would suggest that care be taken to develop desirable attitudes especially in pride in workmanship. That is greater care in neatness in writing, care of books etc.

I felt that results of the effort put forth by the teacher are showing in the increased attendance and enrolment. Further the community service rendered in the organization of the various clubs and the help given to the men in manual training and to the women in practical sewing and cooking is to be commended. I feel that such work is more in line with the abilities and interests of the individual type as in this community and such should be extended.

Mr. Richford is to be commended on his work in this direction. Previously he had taught in a school of fast learners to whom he gave an enriched curriculum. Care should be taken to speak slowly and unhurredlyand to guage the rateand power of each individual to absorb.

The report on Mr. Richford is not very satisfactory. The attendance is poor and I am communicating with the Agent, Mr. Simpson, pointing out the fact of the poor attendance and that an endeavour should be made to have it improved.

General comment:

The attendance shows a definite improvement since last visit. Records are kept of time of arrival of pupils and a definite attempt is made to improve the regularity and punctuality. Lessons observed in plan of attack were traditional. Was not following the outline as suggested in the new course of studies, nor the procedure. In particular mental hygiene, with the question of proper adjustments, and the development of habits, attitudes and interest was overlooked. desirable I fe l that she means wedl but a rough discipline, constantokecking creates confusion when unheeded. In the skills in Maths. inSpelling in neatness of work I feel that much will be achieved. Teachers must be trained to recognize and to properly guide slow learners such as one finds in this school. This school has never had a teacher of this type, skill and outlook.

Books in line with the curriculum are needed.

General comment:

The attendance for October was somewhat irregular but shows an improvement for November. The pupils were generally quite well clad.

The reticence of the pupils is being overcome. I feel that young teachers have a definite appeal to the children. I note that the techniques are in line with the modern trend. Oral language is stressed but much work in this direction yet remains to be done. Tests show that there is a wide range in the learning abilities of the pupils and these range from idiocy in one case to quite average mental ability. Such calls for a very diversified program and equipment. Additional reference books and texts, a more extensive program should be carried out in the upper grades.

Schools in this territory use the Work and Play Series for the junior grades. This series is by Gates, MacMillan Co. Toronto. The full series, including workbooks, headers and supplementary unit readers should be provided.

General comment:

In the lessons observed in reading the technique used, drill word recognition, word repetition were satisfactory. The pupils show an improvement in speaking out. Additional work is necessary in Oral language.

The attendance shows a marked improvement since an attendance officer was appointed.

Books. I would suggest that all orders for books for the Indian pupils are handled through the Inspector. In Grade VIII [illegible] are not getting enough [illegible]. There are few reference books in Central Schools. In this Superintendency The Work and Play series by Gates is used in addition to the Highroads Readers. General Comment:

I. The School Plant:

The schoolroom has just been redecorated and is neat and tidy. Two window panes have still to be replaced. There is a dearth of library and textbooks which reflects seriously upon the progress of the students. These students are mostly in the Junior grades and require elementary texts which they could read. Most of the books in the library and some of the texts used are too difficult for them.

II. Work of the School:

Mr. Ahenakew is a forceful teacher, well-acquainted with classroom procedures. He is giving effective leadership in face of such difficulties as irregular attendance and lack of equipment. Reading is the subject to be stressed before one could expect much progress along other lines. There should be provided for this school an abundance of reading material on the Grade One, Two, and Three levels. New-type readers which are carefully prepared in regard to their vocabulary load should be provided. The Work-Play Series by Gates and Others, The Easy Growth in Reading Series by Gildreth and Others, would be very useful. Books are needed in other subjects as well, but care must be taken that they are not difficult to read.

Mr. Ahenakew and Mrs. Ahenakew are to be complimented on their real interest in the welfare of the students. Mr. Ahenakew is supplying some instruction in Manual Training, while Mrs. Ahenakew instructs the girls in sewing, knitting, and embroidering. This type of instruction is going to be of real practical value to the students and should be encouraged and expanded through adequate supply of materials and equipment.

General Comment:

The supply of books and equipment at this school has not noticeably improved since my last visit a year ago. The classroom library is practically non-existent and the small number of books which are available for the teacher are not sufficient in number to allow each pupil copies. The room lacks a clock, a globe, maps, construction material, a musical instrument of any kind (piano, radio, gramophone). If instruction is to be improved equipment of this kind will have to be provided. Four new desks have been installed but the larger part of the desk equipment is of the old double type. The walls and floor of the classroom are moderately clean and show evidence of care on the part of those responsible for the upkeep of the building. However, window blinds, screens, and a few pictures to relieve the monotony of the room would be of great value in improving the room. Walls and ceiling of the classroom should be redecorated this summer. The suggestion that a new floor be laid is a good one; failing this, the present floor should be painted.

Premises are neat and clean. The playground swings need repair and new ropes. The exterior of both school and teacherage could stand painting in the near future.

Instruction at the school could be considerably improved by securing the books and equipment already listed. It is felt that greater progress in reading would be brought about if reading workbooks of good type were provided and if the teacher in charge made use of more progressive procedures. Oral reading of the pupils should be of more purposeful nature and should be combined with an effort to make the reading materials more meaningful and more interesting t o the pupils. In the handling of the children, also, more attention should be given to making the classroom an interesting and enjoyable place in which democracy is practised and in which children are encouraged to develop initiative and independence. A wiser handling of the children in the classroom should be combined with playground supervision so that through organized games and athletic activities a better pupil-teacher relationship will be established. A health and cleanliness program might be instituted in which the children are encouraged towards greater cleanliness and towards the practice of bet ter health habits.

The present teacher, Mr. Ahenakew, has much to his credit as a teacher. However, I believe it advisable at this time, that Mr. Ahenakew be transferred from this school. After a certain period of time in one locality there is a tendency to slip into an instructional "rut." It would probably be of benefit to Mr. Ahenakew and to the pupils of this school were another teacher to be secured for this position. In considering a replacement, I would emphasize that instruction in Indian schools cannotbe improved to great extent unless superior teachers with good training are secured. In order to secure such teachers, I believe that it is essential to increase the salary paid for this work.

Yours faithfully,

General comment: The interior of the school is neat, clean and kept tidy. Floors are swept daily, but at present there is no dustbane on hand. This should be obtained and used daily. The floors are scrubbed once a month, but they are badly in need of paint. The toilets are kept clean by the pupils. All the buildings afe in need of paint on the exterior. Windows should be repaired and broken panes replaced. The classroom is poorly lighted, with windows at the left and rear. It is however quite comfortable from the heating standpoint.

The classroom is extremely overcrowded, 34 pupils "crammed" into a space that would adequately seat approximately 10 children. [redacted] A new school building is an urgent necessity with room for work table, sandtable, radio, and a projector. A shop room and Home Economics room adjoining the classroom would be an asset in cultivating the natural skill that is native to these children.

Playground equipment should be provided: Swings, teeters, and a football; none of these are on hand with the exception of old swing-poles without ropes. These are unsafe and should be replaced.

The teacher is very progressive, resourceful, and imaginative, but cannot be expected to stay unless his working conditions are improved. He is doing good work and an attempt should be made to keep him.

General comment: Mrs. Burbridge is a fine woman of unusually good scholastic background. She holds a certificate as an Associate in Arts from the University of Oxford. She has taught 11 years in English Schools prior to her arrival to Canada. I feel that she is giving satisfactory service in the school. She maintains a rather fresh viewpoint with respect to teaching.

It was very pleasing to note that new individual chair-type desks have been placed in the school. The interior has been redecorated. The floor is slivered and needs two or three good coats of floor enamel. The janitor work is satisfactory.

Swings, teeters, football, softball equipment is needed to provide recreation for the children.

There is a great shortage of books in the library. I would recommend the purchasing of Cadmus books for the school. Crayons, scissors, tempera paint and brushes, large sheets of drawing paper or a roll of kraft wrapping paper, modelling clay, are needed for Art. Tonnettes and "Fun with Music" (RJ Staples--available: Sask Book Bureau) should be placed in the schools to provide enjoyment in music for the children.

General comment: The condition of the North school appears to be generally fair with a few exceptions. The blackboards and floor are poor; the furnace needs repairs. It is also felt that the room will be greatly overcrowded next year, at any rate, within the next few years. The purchase of the new, single chair-type desks is to be highly commended but some of them need minor repairs before they are greatly damaged.

Supplies are adequate in the line of notebooks, pencils, and paper, but more and varied Art supplies is recommended. Plasticine, modelling clay, paints, construction and weaving material are recommended.

The library is very poor. The cases in which they are kept are unattractive and there is a lack of good reading material. It is recommended that approximately $25 per year be invested in good children's books for the next few years. The Cadmus books would be very satisfactory for library additions.

The work of the school is progressing satisfactorily. Mrs. Burbridge is giving her best both as teacher and as a social worker. Her age and illness however, handicap her to some extent. There has been some trouble in discipline but I believe that the matter has now been settled and things are running smoothly. In this school also, I feel that a greater portion of the time could be devoted to Arts and Handicrafts; Indian children in other schools seem to do very good work and I feel that these should be stressed in both of the day schools. Music and physical education need to be made a part of their school lives. Practical Health Education is very essential in the lives of the pupils and perhaps this could be stressed.

General Remarks:

This school is one of the new schools to be put in operation this term. It should be made one of the most attractive schools in operation with reasonable care and interest on the part of the teacher, and by landscaping of the school grounds.

The time of my inspection on a Friday afternoon was devoted mainly with an interview with the teacher, Mrs Burbridge, concerning her proposed transfer to The Little Red River Indian Day School at the end of December. However, the pupils were busily engaged in clearing up their weekly assignments. An examination of their exercise books revealed that good work was being done in their classroom. Good use was being made of the school library. At recess the pupils were provided with several varieties of indoor games.

It may be necessary to supply more heat to the basement during the cold weather, either by an additional pipe from the furnace, or by a small heater. The full basement can be put to good use for many school activities.

General Comment:

The present school grounds are hardly large enough to provide good play space. It is definitely not large enough for a good softball diamond. When the new school is completed care should be taken to clear and level a good sized yard for this purpose.

It appears that children living on the reserve are only entered in the register if they attend school. I feel that a record should be kept of all children whether they attend or not; perhaps they could be listed in some other portion of the register. I also feel that a revision of the registers in Indian schools is needed. No provision is made for the age of a child or for the number of days he attended in each grade. When a child is promoted during the course of the year the date of such promotion should be recorded. At present this is not done.

A good assortment of library books has been received during the year. I am happy to be able to say that the condition of the library is showing improvement. The teacher has a set of the World Book Encyclopedia (1922 Edition) in the school. While the set is a good one, it is nevertheless too old to be of much value. I feel that a basic reference library is essential and a good set of reference books be provided without having to deduct the books from the library quota.

Supplementary readers are needed so that when the children finish their basic readers they can continue the reading program without "going over the reader again". You will realise, I am sure, that it is hard to maintain reading interest by repeating. Supplementary readers are needed for all grades from 1 to 4, one copy for each child. The new Work-Play series is recommended.(MacMillan Publishing Co.)

Progress in Grade 1 appears to be slow. The teacher states that it generally takes 2 years in this school for a child to complete grade one. Grade 2 shows fairly good progress. Other grades are doing average work. I feel that Mrs. Burbridge is giving fairly satisfactory service at the present time.

It is recommended that a school radio be provided. The school broadcasts are becoming increasingly better and more stimulating. I have seen wonders in Art and Music by using the radio in the classroom.

General Comment:

The outstanding feature about this school is that it is very overcrowded. This, together with the fact that ventilation is practically non-existant except for opening the door, makes conditions rather unhealthy. It is urgently recommended that a new school be built either on this or on another location to take care of the needs of the children on this reserve.

The supplies appear to be adequate with the exception of Art and Handicraft materials. I am given to understand that ½ lb of plasticine or modelling clay is supplied to pupils in Grade 1. I suggest that this is of no value whatever. Any quantity less than 1 lb. per pupil is ridiculous. I also suggest that the supply be not restricted to grade 1, but be supplied to the primary grades. I would also suggest that tempera paint be supplied to grades below Gr. 5. Creative Art should be developed from the time the child starts school, and I do not believe that it is wise to restrict the lower grades to the use wax crayons alone. They should be permitted to use tempera at an early age, and they should have large brushes, large sheets of paper, and an adequate supply of tempera powder. Four assorted colors, (four 1 lb cartons, I assume) will not last during the year if used to the extent that they should be used.

Mrs. Burbridge has taken a summer school class this year, which is very commendable. I believe she has skill as a teacher but there is slackness in some respects. The bell is not rung punctually at all times. Assignments are not corrected promptly. There is a general weakness in language in all grades, but especially in the lower grades. In some instances parent-teacher relationship is not very good. One boy has been out of school for a year as a result of a problem in discipline and a lack of understanding between parent and teacher.

Arithmetic in the upper grades is good. From any observations I have made it would appear that the average Indian child can progress as well in school as the average white child if given the same opportunity and healthful, stimulating environment. It would seem, however, that the Indian schools are not able to secure the best teachers. Something should be done to make the Indian schools attractive enough for teachers to be happy in their surroundings. This would, I am sure, result in better Education for the Indian.

GENERAL REMARKS:

The heavy enrolment of pupils in Grade 1 puts an extra teaching load on Reverend Gray. It is suggested that another classroom be opened in the old school building with the second teacher handling the work of Grades III, IV, V, VI and VII.

The erection of another school on the Reserve to take care of the increasing school population, should be given consideration.

HEALTH: The pupils have been in regular attendance, forty-one out of the forty-two enrolled being present on the day of my inspection. The pupils appeared quite healthy, and were well-dressed and clean.

THE SCHOOL PLANT:

There is a noticeable difference in the general cleanliness and tidiness of the school since Reverend Gray's appointment as teacher. This is one of the new schools being put into operation in November, 1951. Even with the heavy enrolment, the floors of the class-room and hall was in excellent condition. The strip of cocoanut matting in the hall helps to prevent wear and tear on the floor. The basement can be fitted up as a lunch room, playroom and project room with little difficulty.

SUPPLIES:

Additional supplies of primary seat work material, texts, supplementary reading and sports equipment are needed. It is understood that a special requisition is being submitted for these items.

REMARKS RELATIVE TO METHODS EMPLOYED BY TEACHER:

Classes in reading and singing were observed. The reading results were quite good. It is suggested, that, in the music period, the children should learn songs more suited to their ages and capacities. There are many good school songs available in the song books recommended by the Department of Education, which children enjoy singing.

Reverend Gray is energetic in his teaching and demands a high standard of work from the pupils. He feels that he will be unable to continue

General Comment:

I feel that you have, in Mrs. Belke, a good teacher. It appears that she works hard, she checks the work very carefully and thoroughly, and obtains good results. Writing in this room is very good in all grades. I saw splendid examples of art work in tempera and crayon; it is suggested that modelling, basket weaving, and other forms of craft be introduced. I believe that Indian children excell in this and they should be given every opportunity to develop their talents.

Music is perhaps not stressed as much as it should be. It is strongly urged that a battery be provided for the Radio-record player and a supply of gramophone records be given to the schools. These are not luxury items but an essential part of classroom activity. We frequently deplore the fact that more money is spent on Tobacco and alcohol than on Education and try to educate the people of the province so that they will feel more has to be spent on Education; I feel that here is an opportunity for our Federal Government to set a good example by providing these teaching aids.

It is suggested that Reading, Writing, Language, Arithmetic, and Handicrafts be stressed. Social Studies, Healthful living, Science, (Nature Science) and Music, however, should be given a proper share of the time table.

Mrs. Belke performs many duties in the community outside of the school: Church Activities, practical nurse, Junior Homemakers' activities and so forth, and it is felt that she is a decided asset to the community.

SCHOOLS. APR 21 1904

Sir,-

I beg to acknowledge receipt of your letter of the 9th of February last, and would suggest that the "Cumberland" School in the Duck Lake Agency be called South Fort La Corne, and that the School now known as James Smith be hereafter called North Fort La Corne. The St. Peter's Reserve Schools are known as North, South, and East, and it leads to no confusion.

Sir,

In reply to your letter of the 16th instant suggesting that the Cumberland school in the Duck Lake Agency be called South Port à la Corne, and that the school known as James Smith's be hereafter called North Port à la Corne, I beg to say that the Department approves of this change as regards the Cumberland school, but as the one known as James Smith's is a very old school, it considers that it should be allowed to retain its original name.

The Department agrees with your note on the Agent's monthly report on this school, that unless there are some good reasons to the contrary, children should be required to attend the school nearest their homes.

Madam,-

The Department has noted with much pleasure your successful management of the Fort a la Corne Indian day school, and as a recognition of your services it has been decided to increase your salary to $400.00 per annum from the 1st prox.

The Department would be glad to have a special report from you on your work, not only in the school but also on the reserve. You might deal in a general way with your methods of teaching and state what devices you have used to arouse and maintain the interest of the pupils in their school work.

It is noted that the enrolment at this school is not so large as it should be. The Department would like to know what efforts have been made to secure a better attendance and to have any suggestions that you may be able to make as to means that might be adopted to stir up the interest of the parents, in order that their children may receive the benefits of the practical education placed so easily within their reach.

In the year 1908 my school gained a lift-up (which we use for games or in rainy weather) from the Winning Exhibitors, to a cricket match.

Last fall they entered with their exhibits in the Junior competitions at the Provincial Agricultural Fair, and my school was awarded eleven dozen bags of seed.

This year a great competition must be shown, as it means work for every pupil in order to stand as a chance of winning.

Madam,-

The report on the methods employed by you in conducting the South Fort a la Corne Indian day school has been received and the Department wishes to thank you for the careful manner in which you have dealt with the subject.

It fully appreciates the difficulties you have to contend with and will do all in its power to assist in carrying on your good work.

The Department will supply you with necessary Kindergarten material, drawing books and Kindergarten songs upon requisition. The Kindergarten outfit should be simple and inexpensive and you should state the name of the publisher of the song book, if possible.

It is most gratifying to learn that your pupils have been so successful in competition with other school children at the different annual fairs held in the West, and as an incentive for further efforts the Department will be prepared to provide prizes for the most deserving pupils or furnish means for a Christmas tree; whichever you think more suitable.

To further encourage the pupils in their efforts at gardening you may purchase a small supply of seeds and send in the account through the Agent for payment.

The Department approves of furnishing a mid-day meal and it will give aid for this purpose. The Agent will be instructed to furnish you with certain plain provisions for use in this connection.

The Department concurs in your suggestion that accommodation should be provided for children when their parents are absent on hunting trips and it would like to know about how many children would have to be accommodated. The Agent is also being communicated with on this subject.

The Department regrets that it cannot entertain your proposal to pay parents for sending their children regularly to school, but it does approve of the suggestion to provide means of conveying the children to school in certain seasons of the year, and it would like you to give the name of a person who would be willing to undertake this service and to state upon what terms.

Your work in the homes of the Indians is highly appreciated and the Department will, as a recognition of this service, make provision for an annual increment in your salary until the maximum, which cannot be definitely stated at present, is reached.

Sir,-

The Department having received very satisfactory reports regarding the South Fort a la Corne day school, it has, as you are aware, been decided to increase the salary of the teacher to $400 per annum and also to assist her in carrying on her good work.

The pupils having evinced a fondness for gardening, the teacher has been authorized to purchase a small supply of seeds and to send in the account through you.

As an incentive to regular attendance, the Department has told the teacher that you will be instructed to furnish certain plain provisions for a mid-day meal. These should be limited to a supply of rice, salt, tea, soup meat, bacon and beans, in addition to the usual biscuits. These articles are to be purchased by you and furnished as required on the teacher's requisition, and separate vouchers should be forwarded to the Department for payment, as they should not be provided out of the provisions for relief.

The teacher has suggested that accommodation should be provided for children when their parents are absent on hunting trips, and,as this suggestion is in line with the Department's policy in regard to schools, it would like you to consult with the teacher and let the Department know what the probable cost of a building suitable for the purpose would amount to. A plain, inexpensive structure is all that would be required, as it would only be used at intervals, and you should state what seasons of the year the parents are absent from the reserve and for how long.

Even while the parents are at home some of the children are prevented from regularly attending the school in the early spring and late fall, owing to the bad condition of the roads. To overcome this difficulty provision might be made for conveying them to school, and the Department would like you to see if you could arrange with a person who would be willing to undertake this service and upon what terms.

No 25334I/I I have the honour to inform you that when at the James Smiths reserve on 24th May last I consulted with Mrs Godfrey regarding a building to accommodate the children of her school during the periods that there parents are absent hunting, and we agreed that a building about I8 +24 two stories in height with a leanto kitchen I2 + I8 would give sufficient accommodation. I afterwards found that Icould get sufficient logs on the reserve from the Indians, of a size 20 + 22, which would give the same accommodation, and the building could be erected by the Indians of the reserve under the supervision of Farmer Macloy. It is a little difficult for me to give exact figure of the cost of such a building, butfeel certain that it would not cost over $800,oo and probably less. This estimate does not include inside plastering which I do not consider necessary. It includes the necessary divisions up stairs, and down stairs, made of lumber. The building would require to be attached to Mrs Godfreys dwelling, andthat building belongs to the English Church. If the Dept wishes to have the building clear of this property, then a building large enough to accommodate Mrs Godfrey would require to be built, at an additional cost of say $400,oo. I may be

Ottawa, June 16th., 1909.

Sir,-

In reply to your letter of the 4th instant (No. 104) I beg to say that you may make some arrangement to convey the children of South Fort a la Corne to school during the season of the year when the roads are bad. Would you kindly consider whether this system of increasing the attendance could be applied to other Day Schools in your Agency. The Department desires to increase the usefulness of these Day Schools and is prepared to assist and encourage in every way possible. It is noted that in your letter you made no positive recommendation as to the erection of the building under discussion. It is the wish to proceed slowly in erecting buildings until the Department is sure that they are required and that they will be a useful adjunct to the present system. Would you kindly consider this whole question.

On one or two other Reserves in Saskatchewan the plan of a semi-boarding attachment to day schools has been tried and found to work well. It was carried out in the first instance through the initiative of those interested in the schools and no demand was made upon the Department for board of the children or for the erection of buildings, but in districts where it is thought that the idea might be applied with advantage the Department is willing to assist to a considerable degree. Kindly give this matter your earnest consideration.

Sir,-

Referring to your letter of the 16th, instant

No. 253341 / I. I have the honour to inform you that I did not make any positive recommendation as to the erect-ion of the building under discussion, because it opens up a wide subject. For instance, there are about twice the number of children on the roll of the La Corne North School as on that of the South School, you cannot very well erect a building, and board the children of the one School without doing the same for the other, and so on. My seven years as Agent leads me to say that according to my observation the money spent by the Department on Day Schools, is money largly wasted. Mrs Godfrey's School being a pleasing exception. If the Department desires to increase the usefulness of the Day Schools why not begin at the foundation? You must know that with a few exceptions the Teachers of Indian Day Schools are a poor useless lot. In the past 4 years there have been 4 different teachers in charge of the John Smith's School, and the same number in the La Corne North School, only one of the lot being good. If course you know that a salary of three hundred a year will not command a capable person. I am entirely in favour of the children been kept on their Reserves, educated there, in touch with their parents.

children of the other two day schools on this Agency, to school, I could not with the present teachers recommend that it be done. In charge of the John Smith's School is Robert Bear, a Treaty Indian. He is a useless lazy fellow, that in Winter does not get his school opened until II a,m,
At present the La Corne North School is in charge of Miss Trail, a young girl, all right in every way but that she has had no experience, and I do not think that she intends to stay long at the work. Both of these Schools are important, showing a school roll of about 30 pupils each. Pay the salary required, and secure teachers of the Mrs Godfrey class, give the midday meal, have the children in winter conveyed to school, and the result would be that you would double the attendance: the Schools instead of been dead as they have been for the past five years, would become live and prosperous Institutions.

The Deputy Supt. Genl.
Department of Indian Affairs

Dear Sir,

1) I have been informed, unofficially, & as a rumour only, that the Dept. is meditating raising Mrs Godfrey's School at Big Head's Reserve, Fort à la Corne, to the Improved Day School standard, or in that direction. Also 2) I see that it is entered in your last Blue Book Report as "Undenominational".

1) I am of course glad that you have recognized Mrs Godfrey's excellent work & character. But I think that as we had not put that on our list for "Improved Day-Schools", & as I am corresponding with you as to the elder & larger School at La Corne (Jas. Smith's), I might at least have been notified if you are so moving. I beg to ask your intentions.

2) I consider that "undenominational" does not describe her School. The Church of England has always looked after that School, engaged Mrs Godfrey, receives her reports, & aids her in little ways. I am not disposed to allow that school to be taken off our list, one of our most successful schools as it is. I beg to hear from you on the subject,

& I remain

Yrs faithfully.

Ottawa, July 31st., 1909.

Right Rev. Sir,-

In reply to your letter of the 26th instant I beg to say that the Department desires to improve all the Day Schools in the Duck Lake Agency, and to increase their efficiency if possible. On the 26th. of July the ~~Department wrote~~ you on the subject of improving the teaching staff. Mrs. Godfrey's efficient work has been recognized, to some extent, by an increase of salary to $400.00, and the Department has been in correspondence with its Agent on methods which might be adopted to increase the attendance. The school has always been shown in the records as an un-denominational one but there would be no objection, in the future, to including it amongst the Church of England Schools; and this will be done.

The Department has been in correspondence with Archdeacon McKay looking toward the engagement of a competent teacher for John Smith's Reserve, and it has pledged itself to pay to the Rev. R. F. McDougall a salary of $900.00 for his services and those of his wife who is a trained nurse. At present the buildings on the Reserve are not sufficient for the accomodation of Mr. McDougall, and the Department is in correspondence with Mr. Macarthur regarding the erection of a convenient residence, specially designed for the work. Mr. Macarthur will report in the near future on the needs of the educational work at all three points, and the Department would be glad to receive Your Lordship's co-operation in any suggestions you may care to make either ~~following~~ on the letter of July 26th or the present communication.

Sir,

Referring to previous correspondence had with you on the subject of the improvement of day schools in your agency I beg to say that this whole question so far as at present considered has been laid before Mr. Inspector Chisholm for an expression of his views. He has been asked to confer with you.

The Department has already had an expression of opinion from you on the different problems before it, but it is possible that during the payment of the annuities you were able to gather further information of practical importance.

The Department will await Mr. Chisholm's report, which will be the result of your joint deliberations on this subject; one of paramount importance at the present time and requiring the exercise of the utmost discretion and careful consideration, which the Department is convinced it will receive at your hands.

Dear Sir:-

I enclose letter received from Mrs. Godfrey. I send for your perusal as it conveys a better idea of Mrs. Godfrey's position than I can give in an official letter. It was in part an oversight of mine not telling Mrs. Godfrey to engage the neccessary assistance, but I was every day expecting to hear from the Department regarding the arrangement for the mid-day meals for the other two schools.

Sir,

The Department is in receipt of a letter from Mr. Inspector Chisholm in which he recommends that the large porch at the Fort a la Corne (South) Day School be fitted up for use as a pupils' kitchen and dining room this coming winter.

This would appear to be a good proposal, and I have to ask you to be good enough to have it carried out, unless you are aware of any objections. It will be necessary to finish it with dressed lumber using tar-paper between and to put in another floor, said in old one A small cooking stove, a table, some benches and a small cupboard should be provided.

The Department will expect you to see that the work is done in a satisfactory manner and as economically as possible.

In your letter of June 4th, last, you stated that arrangements could be made to convey the children at a distance to school for $1.00 a day, and this arrangement may be carried out ~~during the late fall, winter and early spring when the roads are bad.~~ until the Allotment is fully tested this means of measuring Attendance. *No*25334I/I., I have the honour to report that the girl required to assist Mrs. Godfrey has been engaged at the wages of $5.00 per month and her dinner. The work required of the girl being to cook the mid-day meal and clean up afterwards, for the children of the LaCorne south school. This work, Mrs. Godfrey herself has done for the past five months, but could not continue to do, as her health gave way. I have also further to report that as no provision so far has been made for a dining room and kitchen , I arranged with Mrs. Godfrey that for the winter the mid-day meal will be cooked in her(Mrs.Godfrey's) kitchen, but this necessitated me purchasing a stove, the one of Mrs.Godfrey's in use being too small. I visited the school on the I2th. instant; the day was cold and stormy. The day before my visit, Mrs.Godfrey considering that the w weather was such as would prevent the younger children getting to school if not carried there, began the winter arrangement of sending a team for them. On both the IIth. and I2th. all the children of school age were at school, and I have no doubt that an excellent average will be shown all winter.

I had a talk with Mrs.Godfreyregarding the paragraph

Sask.

December 27. I909.

Dear Sir,- I wish to tender you the resignation of my duties as teacher at the South Fort a la Corne School,which I ask you to kindly forward to the Indian Department at headquarters , as I desire to give the required three months notice ,dating from Dec.3I. I909,to leave on March 3I. I9I0. I have two streng reasons for wishing to leave. The chief is, that I think the Indian Department is not treating me quite fairly as compared with their attitude towards the teacher of Fort a la Corne school. In the first place my salary is very much smaller than hers,although I have previously given five of the best years of my life to the interests of the Indians here,and to the Indian Department, on a very little wage,viz $300.00 ,barely enough to keep body and soul together,considering the isolation of the place and the fact that for a long time we had to pay out so much of it to the Indians in order to get them to do the slightest thing for us . We even had to pay them a dollar ($I.00) freightage on every sack of fleur we asked them to bring up for us from our nearest town. I tell you this to bear out my statement as to its being a starvation wage. You, yourself, Mr.Macarthur,will quite bear me out that my work here has been very strenuous,too strenuous to bear,had it not been for the fact,that through it all I could see ~~XXXX~~ nothing but good resulting from my labors. I will ask you to compare the Bighead Indians of I903 and of the present time. Their improvement has been the one main reason for the continuance of my work. During the past few months great changes have been commenced in the two Indian schools here; changes which have been brought about as the result of my success here and which were suggested to the Indian Department by Mr. Godfrey and myself;but it seems to me, we have only placed the "plums in the pie" for other people to pick out. Do not think I am writing this in any jealous spirit,for nothing would be

be farther from the truth. Knowing from experience how hard IXX Indian School teaching is,I maintain that Miss Hawley is, no doubt worth all the money she gets,and no one could be more glad than I that the La Corne Indians have get a promising teacher at last. But the point I wish to bring forward is ,that if she is worth it ,then surely so am I , especially considering the advantages she has in regard to nearness and help of Farm Instructor,and which I have had to do without. In what respect she is more worthy than I, I fail to see. Certainly as regards my work as school teacher my worth is shown by results. Disregarding all Government Examination reports, I can shew for the six years I have served here,Two Diplomas and One Silver Medal gained by my school. These will stand as a monument for all time as to the efficacy of my teaching among the Indian scholars (at South Fort a la Corne School. And this from children,who, when I first came here knew so little English,that they did not know that a cat bore the name of cat in English; they only knew its Cree name . Next,as regards my nursing and dispensing work. The fact(which you yourself can verify) that only a very small proportion of times in all the years I have been here,have the Department been called upon to pay special docter's fees for the Indians of this end of the reserve,speaks for itself. When I mention the fact the we very rarely see the docter here,it bears out still more forcibly the amount of work I have neccessarily had to do in this line. The last time Dr. Hawke visited South Fort a la Corne officially,to my knowledge,was on Sep.3. I spoke to him then, and asked him to look at the eyes of a child who was going blind,and whose mother was already blind . He said that he would be down again on the IOth. of the month, and he would look at the child then . If he made a visit on that date, it was not to this end of the reserve;and I saw nothing of him from Sep.3. until Dec.I3. when he found himself accidently here, having lost his way to Fort a la Corne. Mr.Godfrey asked him to look at the foot of an Indian,who, presumably was suffering from Tuberculosis of the bone,and whose foot was in a very bad way. "He could not stop" he said, to do that , or anything else;

and that is about all the good the doctor is to us. The work all falls upon me. I think this will serve to shew how much I do both as teacher and nurse. Then as regards her nearness to the Farm Instructor, you can but grant this lessens her labour considerably.

Who you consider the fact that we are 9 or IO miles from Fort a la Corne where the Farm Instructor is living, and the we (myself husband and family) are I2 to I4 miles from the nearest store, you will recall how isolated we are, and how neccessarily a vast amount of work has fallen to me that I ought not to have had to do ,or else it was left for my husband to do, who has received no pay nor no recognition. Miss Hawley's responsibility ends with her teaching and nursing; but my responsiblity is endless, as the Indians here have no one else to depend upon. They come to me to help them in all their difficulties. In other words I have to be farm instructor, teacher, nurse, minister, gardener, sempstress, blacksmith, cook, and general arbitrater and justice of the Peace at all times.

I am just now preparing to have my Christmas tree at the school. It is dated for Dec. 29th. It is rather late ,but unavoidably so, as I did not get your letter until Dec. 2Ist, to say that it was even settled that we were to have a Christmas tree here. Considering that the Christmas trees at both schools were given on the Success of Bighead School in the various exhibitions, we thought it hardly fair that theirs should be settled in good time to purchase suitable goods for same. Mine was thrown so late that I had very little choice of toys; as I had to take the fag-end of everybody's leavings. The farm instructor will bear me out that this was so, as he was at the store when I purchased them .

I think I have now shewn enough of my grievances to shew you the reason for my resignation; grievances which I thought it more strait forward to tell you than to say nothing .

In closing, I would like to suggest , first in the interests of the Indian department for the better maintainment of their affairs, and in the interests of the Bighead Indians , that, when we give up office here, a farm instructor should be stationed

stationed at South Fort a la Corne. Because, no single woman could manage here alone without a resident farm instructer's help, and even if they appoint a married woman, it does not stand for granted that her husband will do all that Mr. Godfrey has done for nothing.

Sir,-

In reply to your letter of January 3rd with enclosure from Mrs. Ada Godfrey, I have to say that the Department regrets that Mrs. Godfrey has felt compelled to resign her position and it is hoped that on giving further consideration to the circumstances she may be led to reconsider her resignation and to look forward to a continued term of usefulness in the Indian service. Until a short time ago the minimum salary that could be paid the teacher of an Indian school was $300.00 but after the maximum salary was raised Mrs. Godfrey was the first to receive recognition as the Department had known of her work favorably for some time. In addition to the increment of salary a greater interest was manifested in her efforts and as soon as it was represented that an assistant was needed one was supplied, and of late anything that appeared necessary in order to make the work of the school more effective has been done.. The Department did not intend to discontinue this interest in Mrs. Godfrey's work or to make it appear that her services had been finally and adequately paid for and that no further financial assistance should be given to her school. In the Government service increases of salary are made gradually, but when they are given they are of course permanent subject to continued efficient service. Mrs. Godfrey may look forward therefore at an early date to receiving additional remuneration, and the Department does not think that in the conditions on the James Smiths' Reserve there should be anything so distasteful to Mrs. Godfrey as to render necessary her

resignation. If she still finds that it would be impossible to work there it might be advisable to have her transferred to some other Reserve. It is to be regretted that there was any delay in informing Mrs. Godfrey with reference to the Christmas tree, but I trust you will be able to explain that no discrimination occurred.

Have the kindness to communicate this letter to Mrs. Godfrey at an early date and assure her of the Department's interest in her school and express the hope that she will reconsider her resignation.

This puts her practically on the same footing in so far as salary is concerned as Miss Hawley, who receives $500.00 and has her board and lodging provided.

In connection with the enclosed school returns, I have the honour to draw your attention to the average attendance at each school for this quarter, as this quarter was one in which the mid-day meal was given and the children conveyed to school. During the six years that the LaCorne south school has been in operation, the past average attendance for this quarter was 9½, and that too with Mrs.Godfrey as teacher, this quarter it is 15. While the LaCorne north school for the past ten years shews an average attendance for this quarter of 8, this quarter it shews 18 29/32.

Ottawa, April 22, 1910.

Sir,

I have to acknowledge the receipt of your letter of the 6th instant enclosing the returns from the two schools on the James Smiths Reserve for the March quarter.

In reply I beg to say that the Department is very much pleased to see the pronounced improvement in the attendance at these schools and that the experiment of providing a mid-day meal and conveying the children to school has produced such beneficial results.

A reply to official letter of the 24th ultimo in reference to the continuance of Mrs. Godfrey's services as teacher of the South Fort a la Corne school is anxiously awaited.

Sir,--

Referring to your letter of 24th. ultimo,

No. 25334I/I- I have the honour to inform you that in a letter received by me to-day from Mrs.Godfry she intimates that for the present she will remain as teacher of the LaCorne South School.

She asks that a well be dug for the use of the school. A well should have been dug there when the school was opened, as the only other water available is slough water. The cost of digging a well will be about $I.25 per foot, but as there are no wells in the neighborhood, I do not know at what depth water would be found; 25 to 30 feet is a common depth.

Dear Mr. Macarthur

You will be pleased to hear that I am home again on the Reserve with every promise of renewed health and strength, & that our little son is a strong healthy boy.

(D.T.) I shall hope to open school again on Sept 1st

I have just received my quarterly return for quarter ending June 30th. But the amount of salary is incorrect, so the cheque is only made out for $100.00 per annum instead of getting for the Past year.

According to the Promise of the Dept. I was to receive from the 1st of April $500.00 per annum, instead of $400.00; and that increased rate was stated in my quarterly returns for June qr.

I will you kindly write to the Dept and acquaint them with this error, that the deficiency may be remitted to me.

I am enclosing the notice that came with the cheque.

exactly how I stand with the Dept; as
the Church authorities are under the

Sir,

I have to acknowledge the receipt of a letter dated August 11th and addressed to you by Mrs. Godfrey, teacher of the South Fort a la Corne school.

In this communication Mrs. Godfrey asks to be supplied with rations. This the Department is not prepared to do, but in view of the most excellent services being rendered by her both in the school-room and in the homes of the Indians in the southern part of the reserve it has been decided to grant her an additional $100.00 in salary. This additional $100.00 will be in recognition of the latter mentioned services. This increase will take effect from the 1st of April, last, and you will be good enough to notify Mrs. Godfrey accordingly.

I beg to confirm the following telegram sent you yesterday:- "Department wishes to retain Miss Hawley's services and will pay at the rate of five hundred for school and two hundred for hospital work. Notify her at once. Writing."

In view of the excellent work being performed by Miss Hawley both in the school-room and on the reserve at this point the Department feels justified in granting her the salary asked, viz.- $700.00 per annum from the 1st of October.

As the Department is now bearing the whole of the expense of the management of this and the South Port a la Corne school they are ~~to be known in future as non-denominational schools and~~ under the immediate control of the Department. Right Reverend Sir,

I have to acknowledge the receipt of your letter of the 2nd instant, and in reply I beg to say that the Department regrets to learn that Your Lordship thinks it will be impossible for Mr. and Mrs. Hutchinson to go to Sturgeon Lake temporarily until such time as a building can be erected at Ahtahkakoops. I may say that the Department is quite anxious to rush this work, but I would remind Your Lordship that plans and specifications in detail have to be obtained and then tenders have to be called for. Some considerable time must, therefore, elapse before any contract for this work can be awarded. For this reason it is impossible to have the building ready for occupation early in May or even in June. The Department has several other buildings that it is proposed to erect in this northern country and in order that the best prices may be obtained it is desired to call for tenders for all about the same time.

With regard to the South Fort a la Corne school I may say that the Department has granted Mrs. Godfrey three month's leave of absence from May 10th, next, and it is proposed to leave the school closed until her return.

In regard to Your Lordship's query I may say that the Department has no proposal to make in regard to the Sturgeon Lake school. If Your Lordship is not in a position

Sir,

I have to acknowledge the receipt of your letter of the 18th ultimo, and in reply I beg to say that the Department will grant Mrs Godfrey the extension of leave asked for.

I may say that the Department called for tenders for the Sturgeon Lake building and was not successful in obtaining a suitable one. For this reason building operations have not yet been started. It is hoped, however, still to proceed with the erection of the building at an early date and when once started the work will be rushed to completion with as little delay as possible. Pending the completion of the building Mrs. Godfrey should take up her work at the Fort a la Corne South school immediately upon her return.

Sirs

I beg to acknowledge the receipt of your letter of the 1st inst, and wish to thank you for extended leave of absence.
Mr Godfrey will take up her work at Fort la Corne. South while awaiting the completion of buildings at Sturgeon Lake.
I should like to point out the inconvenience we shall be put to by going back to Fort la Corne South.
When leaving there, & upon the understanding we should not be returning, we sold our home also animal & vehicles (which are a necessity to people living so isolated) to save the expense of removal to Sturgeon Lake, as we considered it would be to our advantage as well as to that of the Dept to take new material into a new building.
If the Dept could give me some definite idea when the buildings at Sturgeon Lake would be ready, it would help me in knowing what to purchase for our convenience at Fort la Corne South.

My anxiety on this point is, that living twelve miles from Post Office, eleven miles from Railway Depot, and ten miles from Farm Instructor, we must have a team & vehicle, or be at the mercy of the Indians charges; as example is the best of teaching for the Indians we believe it best to set them the example of independence.
If our removal is only a matter of a few months this would hardly be worth while, so I should esteem any information upon this point as a favor
I have this day booked passages on the "Bay of Georgia" which leaves Bristol September 6th

Sir,-

I have to acknowledge receipt of your letter of the 14th. instant and in reply I beg to say that the Department regrets that the Sturgeon Lake School building will not be completed for some time yet although it is now in progress by day labour. For this reason it will be necessary to resume work at the Fort a la Corne South School for a time. The Department proposes, however, to begin the new arrangement at that point, that is, for you to take up the school work and Mrs. Godfrey the field matron work upon the Reserve. You will be paid a salary at the rate of $400.00 per annum and Mrs. Godfrey a salary of $300.00. Should this proposal however be not satisfactory, Mrs. Godfrey may continue with her work at this school on the old terms. Upon your arrival at the Reserve if you will communicate with Mr. Thos. Borthwick, Indian Agent, Mistawasis, he will be able to give you full information as to when the building at Sturgeon Lake may be ready for occupation. Right Reverend Sir,

It is expected that the Sturgeon Lake School residence will be ready for occupation in the course of a few weeks and as soon as completed it is the intention of the Department to ask Mr. and Mrs. Godfrey to take up their work there, as already arranged for.

I have to ask Your Lordship to be good enough to state whether you have any nominee in view for the South Fort a la Corne School. I would remind Your Lordship of the application received in March, last, from Mr. F. M. Gentleman of Melfort, Sask. Mr. and Mrs. Gentleman are prepared to take up the work in connection with an Indian school, the former as teacher and the latter as field matron. Mr. Gentleman has already received Your Lordship's recommendation and the Department will be pleased to appoint him and Mrs. Gentleman to the South Fort a la Corne School, should this meet with Your Lordship's wishes. The salary asked was $600.00 with house and fuel. As Your Lordship is aware the lodging accommodation at this school is very inferior, but itmay be that the Department will be in a position to provide a suitable residence next year. The Department does not supply fuel. In this case it would be willing to increase the salary sufficiamtly to compensate for this and would offer $550.00 to Mr. Gentleman and $300.00 to his wife. I shall be glad to hear from Your Lordship at an early date.

Dear Mr Scott,

I am very anxious to know whether you think there is any chance of a vacancy for Principal of Boarding School or of Improved Day school soon. Mr J. Marshall, now teaching at Battleford Industrial School, would like to stay in Indian work, if he can get such a position: otherwise he may return to the Public Schools of the Province. I should like to keep him. His heart seems in his work. He is an Englishman of good education, has taught for some years in our Public Schools, where he made a good reputation & commanded a good salary. He consented to come & help us at Battleford, & would continue in the work if he can be reasonably assured of fair prospects. But Battleford school is decreasing, & will be closed before very long: & he must look for an English school soon if he can get reasonable prospects of a Principalship. The only possible places seem to me the following, & I don't know what the Dept is going to do. (1) An improved Day school at Red Pheasants when the Battleford School closes (2) Ditto at Sturgeon Lake – if the Govt says don't take it (3) Ditto at Big Head's (James Smith's, Lac la Corne) if the Govt says go to Sturgeon Lake (4) Boarding School at The Pas, (when will that be?) – I can recommend Mr Marshall. Please let me know what you think of any of these.

Yrs Sincerely,

Right Rev. Sir,-

I have your letter of the 2nd instant, addressed to the Superintendent of Indian Education with reference to the possibility of continuing to employ Mr. J. Marshall in the work of Indian education. I suppose as no final decision has been arrived at with reference to the closing of the Battleford School etc., as such final decision depends altogether on the financial aspects of the case, it would be possible to retain Mr. Marshall at the Battleford School for a time at least. The Department is hopeful of establishing a day school at Red Pheasant Reserve next season and he might be available for the position, or at James Smith's Reserve as it is the intention to transfer Mr. and Mrs. Godfrey to Sturgeon Lake. The house accommodation at James Smith's Reserve is very poor. You did not state whether Mr. Marshall is a married man. If he is not, he could be accommodated at James Smith's Reserve in the present house, but if he has a family it is somewhat doubtful whether he would

Dear Sir,

In reply to yours, I suppose that you have notified Mr Cruickshank to move to Sandy Lake, which I hope is ready for him, & that Mr & Mrs Godfrey have returned from Sept ?, & have notified you when they will return. I have not heard from either of these. I have no fresh remarks for the Sandy Lake School. I would certainly be pleased if you appointed Mr & Mrs Gentleman, of Dreeport, Sask., on the terms you mention. When you are ready will you write a report Mr Gentleman of his appointment, & instruct him as to his taking up the work. I will send him a line now, asking him to report to you.

P.S. In original note. I am not sure whether I informed you that on receiving a letter from Mr Borthwick, Ind. Agent, I instructed Mr Louis Thomaskeew, to beg a faithful teacher at Sandy Lake, to take up the work of teacher at the Big River Reserve near Sandy Lake. There is no teacher there now. Mr Borthwick seemed content with his appointment & I should like the approval, & acceptance of this appointment by the Dept. In view of the long service of Mr Thomaskeew, & the position & influence he has at Big River, I should be pleased if you could give him $400, not $300

Yours truly, J. Saskatchewan

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's communication of the 6th instant, and in reply I beg to say that the Department has arranged that Mr. Northwick, Indian Agent, Carlton Agency, shall advise Mr. and Mrs. Hutchinson when the residence on the Ahtahkakoops Reserve is ready for occupation and it is presumed that they will then make arrangements for their removal from Sturgeon Lake.

With regard to the engagement of Mr. and Mrs. Gentleman of Melfort, Sask., I beg to say that the Department is prepared to consider their appointment to the South Fort a la Corne School so soon as Mr. and Mrs. Godfrey go to Sturgeon Lake, but no action will be taken until the Department hears further from Your Lordship in regard to the appointment of Mr. Marshall.

That portion of your letterin which you deal with the appointment of Mr. Ahenakew will be dealt with in another communication.

Dear Sir

I have received a communication from Bishop Newham of P. Albert. who states your dept may require me to go to S. York La Corne soon, asking if we can go at short notice

To save delay I wish to inform you of my present circumstances. My present school closes on the 17th of this month. The house I am living in rented, and quite unfit for winter use.

I was about to make plans to return to my brothers homestead but as I surmise from the Bishops letter that something is going to be done I am holding up my arrangements for a few days

I am anxious to save the expense of moving twice so should be glad if the dept could give me an idea of a ... and let me know if possible by return mail ...

I have replied to the Bishop stating that I am prepared to undertake the work & thanking him for present intention.

Sir,

I have to acknowledge the receipt of your letter of the 12th instant in reference to your appointment as teacher of the Indian school at South Fort a la Corne.

In reply I beg to say that it is expected that Mr. and Mrs. Godfrey will leave for Sturgeon Lake on or about the 15th of December. The Department will be pleased to have you appointed to this position, but I have to state that it will be necessary for you to procure the endorsement of His Lordship the Bishop of Saskatchewan, as another name besides your own has been placed before the Department. The present living accommodation at South Fort a la Corne is, the Department regrets to say, very poor indeed, but it is hoped that a suitable residence may be erected in the near future. ~~His Lordship the Bishop of~~ Ven. Dear Sir.

Please find enclosed a letter from Bishop 399960
Prince Albert who writes in reference to Fort La Corne
Indian School.

The Bishop wrote me last week asking if we could
so to the Fort & I have written to the Secretary of
Indian department, as I was not aware that the
Educational section came under separate Supervision.

I surmise that the Secretary has placed the matter
in your hands and I wish to say that if the
Department could give me an idea of the
time that my services are required I could make
my arrangements accordingly.

I have just finished with a Summers school
near Lac and was about to join my brother on
the homestead but would be prepared to wait until
Jan 15th 1912 should the dept. be making a change
with the new year.

I would like to give you briefly details of my past

England + Wales & Canada, & for six months under the Indian
Dept at Fairford in 1905-6 The calling I had to
throw up on account of the small salary & high
cost of living $25 a month without any accomodation
I was saving to get married at the time. & the cost
of reaching his place & living there left me out of
pocket.

Latterly I have been turning my attention to the
farm for I find there is nothing to look forward
to in the teaching profession that is under
the present Provincial administration. Teaching
is a mere stepping stone to other professions.

At the same time I am very fond of children and
the schoolroom. I keep a fair roll in the pupils
and always get on well with them and I am
both to give up the school especially as I find
the heavy work of the farm beyond my strength

From my experience at Fairford together with the
salary recommended the Dept. now offer I feel
believe the position would be permanent, all things
being satisfactory. & I believe I could do good
work

Of course I am in details of what work is
required and ordinary school work would not be
altogether satisfactory in an Indian School. I am however
an enthusiast of practical work, and would endeavour
to have the boys cultivate plots of vegetables in

Of Course I understand that the Department could not undertake any expenditure in this way.

My wife also is well pleased with regards attending the girls sewing + cooking &c &c.

Should upon consider my application satisfactory I would wish to remain, I found for some time, my brothers are working the farm and would be some distance away.

I trust upon will give me your kindest consideration, and which of course I would like to go to the Fort as soon as possible, would be happy to ward the Department's pleasure, if they could give me some idea of the date that I would be required

Dear Sir,

I have your note of the 20th instant and before this you will have received official letter of the 22nd. You were quite right in addressing the Secretary of the Department, as that is our usage, but I am glad to have your personal letter. The letter of Bishop Newnahm's which you enclosed was an endorsation of your application so that I think there should be no difficulty in arranging that you take up the work at South Fort a la Corne.

You make reference to the accommodation being very poor indeed. There is only a log house there just now and it is pretty old, but I fancy it can be kept warm in the winter. The school-house is a few hundred yards away and the grounds are surrounded by a fence, if I remember rightly. We may be able to erect a better house there before long, but of course we cannot make any promises as regardsthat.

I duly sent a la Corne School.

Your letter Stop Thanks respecting the above, for which Thank you.

In reply I beg to say that I understood from his Lordship Bishop Newnham & Fr Alberti that I had his recommendation and I believe he mentions this in a note I received from him a week ago in which he suggested that I should write to Hon. D. Scott, which I did enclosing his note

If I recollect correctly, I believe his Lordship sent me a letter of recommendation in the Spring of this year, that I sent to the Dept. when the matter was postponed.

I surmise however that you have replied to my letter before receiving his Lordships letter of Endorsement for in a note I have from him dated the 8th he says that "he had heard from the Indian Dept" "would I be prepared to go" & he. I am reply by return". No doubt he has communicated with you by now.

I am writing him however, but I believe he is about to start on a trip to Europe if not already gone

Dear Sir

I received your letter dated Nov 13th on Nov 18th. On the 22nd Farm Instructor J McKay drove out with me to Kinistino to enable me to board the train for Prince Albert on the 23rd. The train was about five hours late, so I did not reach P.A. early enough to go out that evening this was fortunate as McScott & his men reached Prince Albert that evening from Sturgeon Lake The work having been closed down by McKnox so McScott informed me, until the Spring Inspector Bkisholm not being home I concluded the best idea was to come back here and so save further expense to the Dept

I was glad I had not attempted to move McGodfrey and family out there, but had thought it best to go through & help the work out myself. as I know the old building at Sturgeon Lake is not fit for a family of seven

I will forward my account for this trip for your approval as soon as it is ready

I am sorry I could not wholly comply with the request in your letters of Nov 13th, which was to move my family and effects into the building vacated by Mr Hutchinson, but I endeavoured to meet your request, by going in alone to cater for the men employed on the Building; it seemed useless to proceed further than Prince Albert, after I had ascertained that there was only one man left on the Stanley Lake Building & he was finishing the lathing
In answer to a letter of mine inquiring about this building, The Indian Dept advised me to return to "Big Heads" and await information from Mr Th. Borthwick as to when "the building would be ready for occupation"
This was Aug. 28th & we were then in England.
If you can send three teams here as soon as the "new Building is ready for occupation", we shall be ready & willing to start, but not into the old building

Sir,—

I have been advised of your appointment as teacher to the Sturgeon Lake Day School of this Agency, and have to inform you that through family circumstances, Mr. Hutchinson is compelled to move from Sturgeon Lake to Sandy Lake this week. I would be pleased if you could move to Sturgeon Lake at once, for the reason that we have had to rely on Mr. Hutchinson for the boarding of the Mechanics employed upon the dwelling, which you are to occupy, and the completion of the building would be greatly facilitated if you can continue this service for the plasterers still employed upon it. About $4.50 per week was re-tained for Mr. Hutchinson from each mechanic who board-ed with him.

The idea is that you move into the building which Mr. Hutchinson has been occupying until your own is completed, and I think it will be best for you to load your effects on to teams at Fort a la Corne to come right through to Sturgeon Lake. The Department will pay all reasonable charges, and if you load the teams carefully there, (weighs I presume) your effects will suffer less than if unloaded on to the cars at your nearest station, and again removed and reloaded on to fresh teams at Prince Albert. Those employed could be paid by voucher, the cheques going through the Duck Lake Agent, or if you pay them yourself, the cheque in re-embursement would go direct from the Department to you at Sturgeon Lake. Be careful to take receipts in duplicate for all disbursements in connection with your transfer.

Hoping that you will arrive safely, and will be pleased with your new field,

Sir

The enclosed letter from Indian Agent Mr J. Borthwick. dated November 13th. was received by me upon Saturday Nov 18th After fully considering its contents, I decided, that it was inadvisable to move Mr Godfrey and our family into such limited accommodation as the old building at Sturgeon Lake Lay School, but that it would be the right thing to go to Sturgeon Lake myself to cater for the men employed there and so help on the completion of the Building.

On Nov 22nd Farmer J. McCloy of Fort a la Corne drove out with me to Kinistino to enable me to board the train for Prince Albert leaving Kinistino Nov 23rd.

This train was over five hours late owing to a severe snowstorm on the 22nd, and it was after four P.M. when I reached Prince Albert, too late to make the trip of 25 miles from P.A. to Sturgeon Lake that day, considering the heavy fall of snow.

On the morning of Nov 24th I met in Prince

Albert M^cF^l Scott who had been employed on the Building at Sturgeon Lake.
He informed me that all the men, excepting one, had been sent in from the Building by Works' Inspector W^m Knox, whom he said had also stopped the rest of the work until Spring.
I then endeavoured to see Inspector of Indian Agencies M^r Chisholm, but was informed, he was at Mistawasis, and although he would be leaving Mistawasis that day, he was not expected to arrive in Prince Albert until the 26th or 27th
I then telephoned Indian Agent W^m J Macarthur Duck Lake and received reply that he had gone to Fort a la Corne.
I thereupon returned to Kinistino where I met M^r J Macarthur who had just arrived there from La Corne. His solution of the difficulty was the same as my own, to come back to South la Corne and await further instructions
Whilst in Kinistino Nov 24th I wrote a letter explaining my conduct to Indian Agent W^m J Borthwick, a copy of which letter I enclose

Sir,

Mr. W. Godfrey, who has been appointed teacher at the Sturgeon Lake School, has written to the Department enclosing copies of your communications to him on the 13th and 28th of November and stating finally that he is waiting the completion of the building before he takes steps to move his family.

The Department regrets very much that Mr. Godfrey did not see his way clear to carry out your request, which would appear to be quite reasonable and the fulfilment of which would have expedited the finishing of the building. It is to be hoped that satisfactory progress is being made and that Mr. Godfrey will be able to move up at least during the Christmas holidays, as the Department has arranged for a successor to take charge of the Fort a la Corne South school, his duties to commence on the re-opening of the classes in January.

It is hoped, therefore, that the Sturgeon Lake building will be completed so that you can move up there between now and ~~and~~ the end of the month and so that it may not be necessary to make any change in the present arrangements.

With regard to your expenses for transport I would say that if your account for the expenses of your trip to Prince Albert is submitted before that for your transport for the whole distance you may send it through the office of the Duck Lake Agency. It would be better, however, to include it with your final account for expenses, which should be forwarded through Mr. Borthwick's office as soon as possible after your arrival at Sturgeon Lake.

Your engagement as teacher with the Department will commence as soon as you take up the work at Sturgeon Lake, but no allowance can be made for the time spent on your h journey from Fort a la Corne to Sturgeon Lake. DEPARTMENT OF INDIAN AFFAIRS
JAN 15 1912
CANADA

Sir

402671

Your letter of Dec 20th came to hand Dec 30th

The contents thereof were a great surprise to me because I have received a letter from Mr Inspector Chisholm informing me that I had done well in returning to Fort la Corne, also that the new building at Sturgeon Lake would not be ready until Spring

On receiving your letter, it seemed to me the best plan would be to have an interview with Mr Chisholm, or some other official who would be in a position to report the true state of affairs to the Dept

To do this, on Jan 2nd I hired an Indian to drive into Kinistino with me, where I telegraphed to Mr Chisholm to ascertain if he was at home at Prince Albert,

While awaiting an answer (which was four hours in coming) I received information that Mr Gentleman was in Kinistino and was about to engage a livery team to drive me to South Fort la Corne direct, to take charge

After a mutual introduction and exchange of letters Mr Gentleman decided to accompany me to Prince Albert if the expected reply was favourable. At last the message came "Will be out of town tomorrow and rest of week. home on Monday"
Message received Jan 2nd time 16.30 O'Clock
This meant that we must reach Prince Albert before 7 O'Clock on the 3rd
The next passenger train did not leave Kinistino until about 8 O'Clock on the 3rd. A livery team for a drive of forty miles in the winter with the temp. -35 below was out of the question. The only way was to wait around in the cold, in the hope of getting through to Prince Albert on a freight train due about 2 AM at Kinistino This freight train reached Kinistino at 5 AM and our illegal ride in the caboose cost us 2 Dollars each (minus a receipt) but we reached Prince Albert just in time to meet Mr Chisholm.
Indian Agent Mr Borthwick was in Prince Albert so that we were able to hold a consultation
The earliest date Mr Borthwick could give us to when the new Building at Sturgeon will be ready is Feb 1st
I took no receipts of expenses on this journey

as I was not under orders, and I walked home from Kinistino; (three hours hard walking) as I could not afford a livery team being already 7 Dollars out of pocket, plus two days without pay.
It is not my duty to censure Officials but I trust the Dept will understand that I am not in a position to spend time and money running round the country simply because some one (who is being paid) has been misinforming the Dept as to the real state of affairs at Sturgeon Lake

I remain

FEB 12 1912

Dear Sir,

Your favour of the 13th, ultimo to hand for which I thank you,& in reply wish to inform you that we reached the reserve on the 31th., of Jan. & were able to start work in the schoolhouse yesterday. I am glad to say that I find the house in very good order, and the accommodation much better than I expected.

There are however one or two matters that require attention, with reference to the well that Mr.Godfrey commenced,it is important that this should be completed as soon as possible, I find that the burial ground and the school houses and the stables, being on a steep incline, drain into the slough that has been used for water during the summer which is not atall satisfactory, also some cribbing must be done before the thaw comes,otherwise it will cave in if left as at present.

I should be pleased to receive instructions with regards the teaching of sewing,the materials used,etc, when and how provided? Also, I find that there are not sufficent slates in the school, & if these are provided about 1½ doz. are required.

Mr.McCloy has given us his assistance in obtaining wood, etc, and particulars as to how the work has been carried on, and I shall endevour to continue on the same lines at present. If, however the Department are thinking of making alterations in any matter the present time would be an excellent opportunity.

Awaiting your instructions,

Yours Faithfully,

Sir,

I have to acknowledge the receipt of your letter of the 2nd instant, and in reply I beg to say that the Department is pleased to learn that you have taken up your work at the South Fort a la Corne School and found conditions fairly satisfactory.

The Acting Indian Agent will be communicated with in respect to the well and he will be authorized to provide you with a limited quantity of material for the purpose of teaching sewing to the girls and also to buy some slates. You will be good enough to let him have a list of the supplies that you consider necessary. I should be glad to have short reports from you at intervals on your work at this school and Mrs. Gentleman will be required to furnish a report each month through the office of Indian Agent showing the work performed by her as field matron.

Sir,

The Department is in receipt of a communication from Mr. Gentleman who has taken up the work of teaching at the South Fort a la Corne School.

Mr. Gentleman calls attention to the necessity for having the well completed. This should be attended to at once! He has also been instructed to submit a list of the articles that are required for the teaching of sewing to the girls and when this comes to hand you will be good enough to make the purchase. You may also purchase for the school eighteen slates and have them delivered.

Very Reverend Sir,-

Mr. F. H. Gentleman, who has for some months been in charge of the South Fort a la Corne School, has been appointed clerk to the Indian Agent at Duck Lake. It will, therefore, be necessary to appoint a successor to take charge of the Fort a la Corne School at least after the summer holidays and the Department hopes that you will be able to nominate somebody competent to take up this work. If possible a married teacher whose wife will undertake the field matron work should be obtained and under such conditions the Department will allow a fair salary.

Dear Sir,

I thank you for your letter respecting trees for plantation and wish to imform you that two large bundles have arrived from Indian Head. Under the present circumstances I am handing these over to Mr.MaCloy to plant round the new buildings at the North end. I made this request before I knew of the vanegcy at Duck Lake, and it would be useless to plant them here with no one to give them attention.

I also wish to say that it is entirely on account of the school attendance that I allowed my name to be submitted for the vacency at Duck Lake... There are a large number of children at this end of the reserve, either past school age, or too young, and it will be a couple of years before there will be a good attendance, and I wish for more work. I also find that my wife could not undertake her work without help, had there been a large attendance.

I think the Dept. would do well in closing the school here for a year.

The Rev. Archdeacon MaKay of Battleford also Mr Macarthur have visited us,and expressed satisfaction of the work being done.

I submit a report of the work done in school, and trust that I will be able to undertake the new work at Duck Lake to the Dept. satisfact

The Superintendent of Indian Education.
Ottawa.

Sir,

I beg to submit a short account of the work done at this school during the past three months.

I have devoted the time mainly to Arithmetic and Reading, the elder boys now being able to work the first four rules using Kirklands Arithmetic as far as exercise 29. The girls having mastered addition and subtraction; as well as the Multiplication and addition tables, I have used every possible way to get them to count quickly and correctly, and with the exception of the two youngest,they have made progress.

I have spent considerable time in teaching the children common everyday words, I have used large coloured posters, taking up the entire side of one wall, and have made execllent progress, one very successfull one being a huge poster by Hassel of three children riding on donkeys, and they have all been able to learn to spell, and write over a hundred words from this poster, I have also given them dictation, and they can compose their own answers to questions set about the posters.

I have also given them a good deal of nature study and I find this appeals to them, and they are quick to learn any word connected with an animal.

I have used the "First Victorian Reader" with the boys, and the Ontario Primer" with the younger children, but have paid more attention to getting them to read sentences from the board that they can more easily understand, for I find they are inclined to read from the book in a very dull dismal voice which seems to be time wasted. I notice however they are beginning to read from their readers of their own accord, especially the animal stories.

I have used daily the text book on Calisthenics which they enjoy, the also can sing very well, better than white schools that I have had experiense with.

I have also given the boys some lessons in woodwork, and taught them to use the tools, and had we been staying I would have had them at work in the garden.

I have read, and explained parts of Scripture to them, and they can say the LORDS PRAYER and Grace before the midday meal

The number on the register is twelve, and the average attendance eigh but this is including three girls who are now past school age, and since the snow went away the attendanse is very poor

Yours truly,

F.A. Gentleman.

Sir,—

In connection with your letter of the 10th, ins No262008 intimating that Mr Gentleman had been appointed clerk at this Agency I have the honour to inform you that with the going of Mrs Godfrey the pupils of the South la Corne school to a large extent left school. Some of them were above school a age,two of the younger children went to the north end,so that the attendence dropped down as low as 4 . There are not many c children all told at this end of the reserve,and their parents during the summer months are much off the reserve,I therefor do not think that an attendence could be got during the summer months that would make it worth while keeping the school open, and would therefor suggest that it be not reopened before the 1st,of October.

104 I have to acknowledge the receipt of your letter of the 16th instant in reference to the appointment of a teacher for the South Fort a la Corne School.

In reply I beg to say that your suggestion that the school be not re-opened till October is approved. In the meantime, in view of the fact that the number of children of school age at the south end of the reserve is small, the Department would like to have your views with reference to conveying these children to the school at the north end of the reserve and providing an assistant to Miss Hawley in case there would be sufficient accommodation in the new building erected last year for the average attendance that might be secured. If the South Fort a la Corne School is to be maintained and a competent married teacher secured a residence will be necessary, but it might be that the conditions are such that the expenditure to provide this accommodation would not be justified, if there are not prospects of obtaining a good attendance.

Sir,—

I have the honour to bring to your notice, that I understand that Mr Gentleman has received intimation of the Departments intention of transferring him to one of the schools at the James Smith's reserve, and while visiting that reserve to count the cattle last week, Farmer McCloy & I went into the matter of the number of children of school age able to attend there. As it is the South school that is vacant I surmise it may be this school that the Department are thinking of opening. The farmer & I enquired of the people at the south end, & I find that there are 15 children who could attend, there being a possible average attendance of 12 at the south end. I also understand that the Indains at that end are anxious to have this school opened again and on account of the good farming land at that end, one or two families who are wishing to go more into their farming operations are moving from the north end, for this purpose, & to be near the school as they have the idea that they could persuade the Department to open the school if there are enough children to attend.

On account of the good land, I think this will be the largest school on that reserve in a few years time, There are several young married families with children growing up in this neighbourhood, most of the ex-pupils that the Department have assisted to make a start having chosen this location.

Having found this out, and having to pass the school buildings on my way, I investigated the state of the buildings. I find the school-house in good repair, but the teachers residence is a difficulty. This is a small log structure belonging to the English Church. It is small about 16 x 20, with a small kitchen. There is

cellar, or cupboards or any place for storage of provisions that would be required to be kept on hand for the childrens mid-day meal. There are one or two windows out, & it would not seem to me from the few minutes that ~~xxxwxxxx~~ were necessary to look it over as being a suitable place to use for the purposes that it has been used for. Also being owned by the Church, I do not know who can be held responsible for its repairs.

Naturally Mr & Mrs Gentleman knowing the place do not take kindly to giving up their present house in exchange for one of this nature, but as the same time as ~~xxxxxx~~ it seems that a successful school could be carried on, & seems to be required the matter will need some attention. I do not like asking anyone to take up the work at this point & having to use the present accomadition, & if the transfer is to be made it would be well if the Department could give this matter very careful attention, & I think that before the school is opened some proper accomadition should be made, or in sending anyone to the present house, it should be on the understanding that an arrangement will be arrived at with the Church authorities to enlarge & fix the present house, or that the Department will provide a small house, at no distant date. Certainly something would have to be done before the present house could be used in the winter, & it would be advisable to consider this early in the year before haying & harvest seasons during which time it is so difficult to obtain satisfactory labour.

Extract from Agent's Report on the Fort A la Corne (South) Indian Day School, for the month of December, 1913.

Original on File 253341-7

If this school is to be kept open all year, provision should be made for the serving of the mid-day meal. This meal is now being served on the school seats which is very inconvenient and dirties same. The teacher's residence is too small to allow the serving of the meal therein, and it being an old log building, it is not wotth repairing or enlarging to make it suitable. At present the meal is prepared at the teacher's house and is carried and served in the school room.

Sir,—

Withbreference to the Fort a la Corne school Returns recently forwarded to you in my letter of the 19th.instant, I have the honour to point out to the Department that unfortunately both the North and South school had necessarily to be closed during the quarter owing to Measles. The South school lost a matter of Twelve days time through this cause, whilst the North school was unavoidably closed for a period of twenty days.

If the Department wish it, the teachers of these schools will reopen these institutions prior to the close of the usual summer holidays, in order to make up for the time lost, though if this was done, it might be difficult to get the children back again before the actual close of their summer vacation. However, pending instructions from you, the matter will be left in abeyance.

I have the honour to be,

Sir,

Your obedient servant,

Ottawa, July 30th, 1917.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd, instant, in which you state that the teachers of the North and South Fort a la Corne schools are willing to open these schools early, in order to make up time that was lost last quarter owing to sickness.

In reply, I beg to say that, as these schools were closed owing to an outbreak of measles, it will not be necessary to reopen the schools at an earlier date than required by the regulations.

These schools should be reopened, however, promptly on the first of September and earnest effort should be made to have all children of school age in attendance on that date.

Extract from letter dated October 23, 1917, from Inspector Crombie in regard to the schools on the James Smiths Reserve. Original on 115088/7.

The Indians are continuing to move from the northern part of the reserve to locations towards the sourthern part of the reserve more suited for farming and the attendance at the south school is better than ever on this account. While the buildings at the south school are very old, as will be noted from photographs submitted, the time is not opportune for the erection of new buildings there. My idea was to carry on at the south school for a time, until all the Indians who are likely to move to the southern part of the reserve get located, after which a more suitable and central location can be slected for the erection of new buildings. By doing this one school might be found to be sufficient to serve for the whole reserve in place of two as at present.

Dear Mr. Scott,-

I have been quite unable until now to write the suggested letters to you as to some of the matters we discussed. I beg now to lay the following requests and comments before you. I shall repeat some points discussed and dropped as impossible at present, because I want to have them on your files, as a reminder of what is desired and what I fully believe is due to your Indian work:

EXTRACT

1. I beg to apply for a substantial grant for the enlargement and improvement of the Lac la Ronge School building. The school is always full. We could obtain many more pupils from Stanley, Pelican Narrows, Montreal Lake, etc, were we enabled to provide accommodation. The school is well managed and efficient, at no extra cost to the I.D., though at the expense of the Church. The inclination of the I.D. is to dispense gradually with Day Schools in favour of Boarding Schools. If the I.D. cannot find the necessary funds, I would ask that it seriously endeavours to obtain them from the rather large Reserve funds of these Lac la Ronge Indians, now in the hand of the I.D. and lying idle.

2. I would make the same suggestion as to funds in the case of necessary improvements to school and teacher's residence at Big Head's Reserve, South la Corne. The I.D. desires me to obtain a teacher for this Reserve. I can not do so until a proper residence is furnished. You yourself know how unfit for habitation is the old house, and you have said that it is not right for me to send a man to such a house. Meanwhile, there are a fine house and a good school at James Smith's Reserve, Fort a la Corne, unused for some time now, as the I.D. closed the school. It seems to me that there are three alternatives: (1) To build a new house for the teacher and repair the school, or, (2) to move the Fort a la Corne school and house to Big Head's, or, (3) to move it to some central place to serve both reserves, and then to renew the old plan of collecting the children daily by a carrier's route. The funds to be found as I have suggested above. If you re-build, a well needs to be dug also.

There an application now filed for 10

3. I would again earnestly press for enlargement of the Onion Lake School. It is doing fine work, see Agent Sibbald's reports, and could get 20 more children, if allowed.* This would relieve to some extent the reproach of there being no school for Thunderchild's and Sweet Grass Reserves, and would also enable us to carry on the school more economically. The funds, could, if necessary, be provided here also from the Band's funds in the hands of the I.D. Pardon me, if I again repeat, that the I.D. in failing to furnish the Indians with proper educational facilities is laying itself open to grave reproach.

INDIAN ACT
386590-1

4. Please let the I.D. remember that I have been for 3 or 4 years begging for a Day School for Thunderchild's Reserve, and a school or a Child-Matron for Sweet Grass. These ought to be supplied or the children otherwise provided for.

5. There is great and pressing need for another Boarding School to accommodate the following Reserves: Mistawasis(Snake Plain), Sandy Lake, Sturgeon Lake and New Reserve, John Smith's, James Smith's, Pig Head's, and perhaps Montreal Lake, - 7 or 8 Reserves. I understand that many of those interested in the Indians believe in increasing the number of Boarding Schools and decreasing that of Day Schools.

6. I have just had a most interesting conference with the Sioux(Dakota) Indians north of Prince Albert, the two bands, Tomma Ainyanke's and Anpetu-wasicuna's, now united in <u>one</u>, viz,the Round Plain. I believe they are not Treaty Indians, and are mainly heathen. They beg most earnestly for a school, and I have promised to do what I can towards getting it. There are some 14 or 15 children of school age, and other younger ones coming on. They say that the farmers round would send children to this school. So perhaps I could get a grant also from the Saskatchewan Provincial Government,and with that and the I.D.grant a school could be maintained. They have a school building and teacher's house which could be made fit for use without great expense. What can you do for them?

7. As to Mr.Graham's suggestion for John Smith's Reserve,to remove the Lows and appoint a married Farm Instructor and a woman teacher, I am writing to him that I greatly deprecate it, at least for the present. It would not be fair to the Lows who have only lately removed there,and are doing good work. I have <u>no other</u> Reserve with a decent house for the teacher. A woman teacher would not do so well there, these children require a man. Mrs.Low can look after mid-day meals, and if necessary the Dispensing,far better than could a Farm Instructor and wife. There is a good house for the Farm Instructor but not near the school. I should strongly suspect any such move as long as Mr.Schmidt remains Indian Agent. It would be contrary to the expressed intention of the I.D. to stop the old scandals of corrupt Indian Agents and Farmers and to give us a better class. I hope you will not sanction it.

While speaking of Mr.Graham,I wish to express my opinion that his methods and acts,while they may(?) be for the benefit of Indian Reserves in the South of this Province,have so far been detrimental to, or careless of, those in the North. We have not had a School Inspector since he carried off Mr.Crombie.

8. I repeat, that you may have it on file, that I find it quite impossible with the present I.C.L. and high wages to procure proper teachers at $600 or even $700. They can get $1,000 or $1,200 for teaching British, Canadian, or Foreign day-schools.

May I ask you to have me supplied in writing with either a list of the salaries attached to each Saskatchewan Day School, or a general statement of salaries and bonus now given to improved Day Schools. Hoping you will not be angry at the length of my letter and my requests and looking for a reply,

I remain.

Yours faithfully,
L. A. Saskatchewan

I have to acknowledge the receipt of your letter of the 15th. instant regarding the educational needs of your diocese. I shall give careful consideration to each item but your Lordship will understand that it may be some time before you will receive definite replies to each of these proposals, as it is necessary in most cases for me to call for reports from our officers.

Dear Mr. Graham,

A short time ago I had the pleasure of a visit from His Lordship the Bishop of Saskatchewan, when we discussed generally educational matters affecting his diocese. I asked him to place his requests and recommendations in writing and he has done so. I wish now to take up with you the question of the school on the south Fort a la Corne reserve. As you know there is no proper accommodation there for a teacher. The Bishop makes three alternative proposals - (1) To build a new house for the teacher and repair the school. (2) to move the Fort a la Corne school and house to Big Head's. (3) to move it to some central place to serve both reserves. and then to renew the old plan of collecting the children daily by a carrier's route.

I am told that it is not practicable to move the school building from the north reserve; we had the matter looked carefully into on a previous occasion. I am not in favour of transporting the children to school; our experience in this respect has been far from satisfactory. It seems to me, therefore, that in order to provide for the education of these children, pending the carrying out of a more extensive system of boarding schools which of necessity cannot be consummated for some time, the only course is to provide a house for the teacher in the most economical way possible. I shall be glad to have your views on the subject.

Dear Mr. Scott,-

I have your letter No. 253341-1 of the 31st ultimo, regarding the matter of re-establishing a day school on James Smith's Reserve. I note the three suggestions made to you by His Lordship the Bishop of Saskatchewan.

Personally I do not think it a wise plan to spend $2000.00 in the erection of a teacher's residence, under present conditions. As you are aware, we have a good school and teacher's residence on this Reserve at the present time, which are not being made use of, and I am not prepared at the present time to say if these buildings could not be utilized, for the purpose for which they were built, even on their present site.

I would ask however that you allow this matter to stand in abeyance until next summer, when I will personally investigate the matter.

It is difficult at this time to come to any definite conclusion as to what should be done. The idea has occurred to me however that we might at some future date, be able to reduce this reserve by selling a portion of it, and if this can be done, the matter of where the school should be situated, can then be considered.

Dear Bishop Newnham,

Referring to your recent communication, with reference among other things to the erection of a teacher's residence on the James Smith reserve, I would state that I am in receipt of a communication from Commissioner Graham in which he suggests that we defer action until next summer. Of course in any event we could not build during the winter season.

Mr. Graham suggests that we might consider a reduction in the area of this reserve at some time in the near future, and for this reason the question of the location of a school and teacher's residence should be very carefully considered.

Memo re vacant schools in Saskatchewan

I took Mr. Graham up with Dept Supt General last November & certain suggestions were made as to repairing [illegible] residences with the Indians' funds. What has been done?

1. Fr à la Corne - Big Head's Reserve - Teachers resignation accepted for [illegible] - The Dept Supt Gen! agreed that it would be cruelty & unthinkable to place a teacher in such a ruin. School is closed - what am I to do? Teacher's residence on the next reserve, James Smith's, has been closed for two or three years.

2. Thunderchild's - Indian has been demanding a school for years.

3. Red Pheasant's School will be vacant after June 30th; teacher leaving. Before I can secure a teacher I ought to know (1) what salary, or a teacher with Normal School Certificate? (2) If married couple go there, is there any further work I can (chaperoning, &c.) for [illegible] not teaching? I have a couple in view, the wife a splendid all round teacher. (3) Would you prefer a single, male or female, teacher?

3. Big River, Carlton Agency, vacant for some time. Both School & house in shocking condition. Salary - [illegible] sufficient to secure a proper teacher -

4. I should like some definite figures as to what salary will be given to a certificated teacher, & what arrangement for living, for all Schools. Under present uncertain conditions, & only $500 or even $700 I can not hope to get a teacher worth having.

Ottawa, April 15, 1920.

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's memorandum of the 31st ultimo regarding various matters in connection with the Indian day schools under your auspices in the Province of Saskatchewan.

In reply, dealing with the case of each school in the order in which they are mentioned in your memorandum, I beg to say, first,- with reference to the Fort a la Corne Day School, as you were informed by letter of January 13th, last, the question of providing educational facilities for the James Smiths Reserve is being considered by Mr. Commissioner Graham. He has asked that this matter stand in abeyance until next summer, when he will personally investigate and advise as to the best plan to provide educational facilities for the children of this reserve. He will consider the erection of a teacher's residence at Fort a la Corne; moving the residence from the James Smith's School; the re-opening of this school, or the removal of these schools to a more central point on the reserve, and report as to which of these schemes he considers to be the most advantageous.

Second,- Thunderchild's Reserve. The question of providing a day school for the children of this reserve cannot be favourably considered at the present time. It is hoped to be able to provide for the education of these children in residential schools.

Third,- Red Pheasants. It is noted that the teacher will be leaving on June 30th, next. The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher with a Normal School Certificate. There is no need for the services of a married couple at this school, as the field matron work has been discontinued and there is no need for a dispenser. It is considered that a single female teacher would best meet the requirements at this school, and the Department will be pleased if you will endeavour to secure the services of a female teacher with a Normal School Certificate in time to take charge upon the re-opening of the school after the summer holidays..

Fourth,- Big River School, Carlton Agency. In November, last, Your Lordship brought to the attention of the Department the question of re-opening this school and appointing a teacher. Mr. Agent Weir was instructed to inform you that a salary at the rate of $600.00 per annum would be provided and to request that you endeavour to obtain a suitable teacher. The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher with a Normal School Certificate.

With reference to the accommodation, the present house is owned by the Church and it is considered that Your Lordship should arrange to have it repaired and made comfortable to provide the necessary accommodation. Mr. Commissioner Graham is being written to regarding school matters on this reserve and requested to advise the Department as to his views in connection with the carrying on of the day school and the repairs necessary to the school building. As he is familiar with the conditions at this point the Department will await his decision regarding the re-opening of the school.

Fifth,- Regarding the salaries the Department is prepared to pay for qualified teachers I beg to say that a salary at the rate of $900.00 per annum will be paid to teachers having Normal School Certificates. The names, qualifications and experience of teachers nominated by you should be submitted for approval in each case.

DLC 11 ...

Gentlemen:-

I have the honour to request that you

give the following letter your consideration.

The School of which I am privileged to
be Teacher of (Fort a la Corne North Day School) has a roll of
a full coming to thirty with an average attendance of twenty-
two, and if the complete school roll was in attendance there would
not be sufficient room in the present school to hold
them, as at the present time of writing I have only one room
desk at my disposal.

I have been considering matters relative
the educational advantages of the children on the James Smith
Reserve and I am given to understand that the South End is not
open and in all probability will not be opened until spring of 1921
and I am further led to understand that the school roll on the
South End School would amount to twenty. Drawing up these
inferences I have come to the following conclusions and trust that
you will take my suggestions in the way in which they are sent
to you.

If the Department deem it advisable I
fail to see any obstacle in the way of having the South End School
transferred to the North End School, in other words that would
make a necessary addition to the North End School which will be
necessary anyway if the entire roll of the children at the North
End are present at school, all the children from both schools
could be under my tuition and thus save the Department a needless
expense. I am further led to understand that there will be
an erection of another building at the South End School, I have
personally looked around the said school and if I may say so I am
of the opinion that a new school is not necessary, and all that
it may be is a little overhauling which could be done at a very
little expense.

Needless to say this idea of mine could
under the Consolidated School System. This system has proved a
great success amongst the public schools and I believe that the
same success would be realised amongst the Indian people here.
It is my opinion that an Indian could be hired to drive a team
for the children from the South End School at a salary of forty
or fifty dollars ($40.00 or $50.00) a month and there are Indians
on this Reserve who have the horses which would suit just for that
purpose

I trust that you will excuse that I am
only just bringing this idea to you from an educational and
financial standpoint. I am very interested in the Indian Work
and since I have been here a number of the young men have asked me
as to whether I would give the school at night as so they could
learn write English tongue and spelling, to say I willingly
agreed to do so and am glad to be able to report that my efforts

[illegible]ve up to the present time been very encouraging and it is because I want every child on this Reserve to have the advantage of an education that I am taking upon myself the liberty of making the suggestion to you.

Apart from this fact may I further state that this would bring the Reserve into a healthier surrounding, because the children from the South End could have all the medical treatment which they required and I would also be more in touch with the physical condition of their parents. I am using every effort which lays at my disposal to place these Indians on more a healthier footing than that they have been accustomed to live in, and I am glad to be able to report that the physical condition of these people are improving but that it will require all the efforts which we on this Reserve can utilize to bring such a thing to pass, for the Indian has apparently no idea whatever as to what they should do to keep morally and mentally clean especially in times of sickness.

Apologizing for any liberty which I have taken in making this suggestion to you,

I have the honour to be,

Sir,

your obedient servant,

Sir,-

I have to acknowledge the receipt of your letter of the 7th instant regarding educational matters on the James Smiths Reserve and stating the enrolment at the school which has recently been re-opened by you on the north end of the reserve.

With reference to your request that the children from the south end of the reserve be transported each day to your school I beg to say that in the past the Department has tried this method on various reserves with unsatisfactory results.

The Department has under consideration the re-opening of the school on the south end of the reserve where, with the addition of a few needed repairs, a building would be available. Mr. Commissioner Graham is considering the best plan for providing educational facilities for the children of this reserve and you might consult him in the matter. At the present time the Department is not disposed to re-open the school on the south end of the reserve nor provide transportation for the children, in order that they could attend the school at the north end.

Dear Sir:

I feel it is a great hardship on the Indians that Fort a la Corne South Day School is not open. It is some years now since it was closed. All to the time of its being closed the attendance was good and regular. It was closed on account of there being no proper house for the Teacher, and the School building not being suitable. I have written several times to the Department, to our Church authorities and through the Indian Agent Mr. Schmidt at Duck Lake but with no result. I did not even get a reply to my last. There are some 25 to 30 children of school age.

I have to acknowledge the receipt of your letter of the 21st instant, with reference to the re-opening of the Fort a la Corne South Indian Day School.

In reply I beg to say that about two years ago the question of re-opening this school was fully considered by the Department. From reports of Mr. Commissioner Graham it was considered inadvisable at that time, owing to their being no teacher's residence, the unsuitableness of the school building, and the probable attendance, to resume teaching operations at this school. However, we note you state that there are some 25 to 30 children of school age at the present time, and we will make further enquiries regarding the conditions existing, and whether it would be possible to provide the necessary facilities to resume the work at this school. As soon as we have full information we will then be in a position to state whether it would be advisable to re-open the school or not.

The above matter will receive due attention by the Department.

Sir: -

Rev. R. McLennan, Fort a la Corne, Sask., has written requesting that the Fort a la Corne South Indian Day School be re-opened. He states that there are some 25 to 30 children of school age who could attend. The question of re-opening this school was considered by the Department some two years ago, but, owing to there being no teacher's residence, the unsuitableness of the school building and the probable attendance, it was not considered advisable to re-open the school.

I have to request that you will make full enquiries as to conditions at this point, and state whether, in your opinion, the necessary expenditure should be undertaken to provide facilities for school purposes. You should state approximately the distance the children would have to travel from their homes to the school. You should report on the present condition of the school building, and state, if the school were re-opened, if it would be possible to obtain living accommodation for a single teacher. We will be pleased to receive as full information as possible regarding the situation at this school, and whether you would recommend that the school be re-opened, and, if so, the probable cost of placing the building in a suitable condition, and, if necessary, the providing of living quarters for a teacher.

Your early attention to the above matter will be appreciated.

In reply to your letter of March 31st No. 109-9-1. as regards Mr Commissioner Graham's report the first two reasons, their being no teachers residence, and the unsuitableness of the school building, belong; I think entirely to the Indian Department.

Irregular attendance. In the public schools attendance was very poor among the lower classes until there was compulsory attendance. I have been 40 years a missionary among the Indians, and know how hard it is for them to give up their mode of life and settle down to farming. Some hunters who have not yet become farmers have to go hunting with their families. At the South End there are a large number who never leave their wood.

IN YOUR REPLY REFER TO
No. 7019-115-1005
(LM)
TO DATE OF THIS LETTER

Sir,

I have the honour to acknowledge receipt of your letter No.109-9-1, dated March 31st last, stating that Rev.R.McLennan of Fort a la Corne, Sask. had written the Department requesting that the Fort a la Corne South School, on James Smiths reserve, be re-opened, and asking me to report on the conditions at this point.

In reply I beg to state that there are 59 children at this end of the reserve, whose names, ages and distance they live from the school site I am giving on the attached list.

With the exception of the stable, which is a frame building erected about six years ago, there are no suitable buildings at this school. A new school room and teachers residence will have to be erected. The present school room, which is a very old log building, lathed and plastered, is badly rotted and cannot be repaired properly, the plaster outside is falling off through age and wear, the bottom logs are rotten and the building is sagging.

The old log building which was used as a teachers residence is not habitable, these buildings should be torn down and the new buildings erected on the same site.

I would recommend that a teachers house and school room, similar to those at the Fort a la Corne North School be built, and that a married couple, who have had western experience, be engaged, he to teach, and she to take up the duties of Field Matron for the South End of the reserve. This would be the same arrangement as was in force when this school was open in the past.

I would not recommend the appointment of a single teacher.

A new well is required at this school as the old well is caved in and cannot be repaired.

The South School is distant, approximately, ten miles from the North School.

I have the honour to be

Sir,

Your obedient servant,

David Ochenais

Reverend Sir:

I have to acknowledge receipt of your letter of the 3rd instant, relative to the proposed re-opening of the Fort a la Corne South Indian Day School. Mr. Indian Agent Schmidt, of Duck Lake, has replied to an official communication and he reports quite favourably concerning the possible attendance at this point. However, he further intimates that it will be necessary to erect a combined classroom and teacher's residence and effect other improvements, before teaching activity can be commenced.

I am pleased to inform you that when our Estimates for the fiscal year 1924-25 are being prepared, this school will not be overlooked, and it may be possible to arrange for a building in time to re-open following the summer of next year.

I have your No. 7019-115-1008 of the 22nd instant, relative to the advisability of re-opening the Fort a la Corne South Indian Day School.

The Department is pleased to have your comprehensive report, and having noted the large number of children who could attend a school activity at this point, an item is being placed in our Estimates for the coming fiscal year to provide a combined classroom and teacher's residence. I have noted that the present school room and teacher's residence are both uninhabitable and that they should be destroyed and new buildings erected on the same site. I have noted, further, that you recommend the appointment of a married man whose wife would perform the duties of field matron. I also understand that a new well is required, in the event of a re-opening. The Department is grateful for your careful report in this connection. The Rev. Mr. Mc Lennan, of Fort a la Corne, is being informed of your recommendation and our wishes.

As promised by the Department Of Indian Affairs in 1923, a School House and Teachers Residence was to have been put in the Estimates this year and everything ready for the opening of the school in 1925. Nothing is being done in the matter and I would be pleased to know whether there is any likelihood of its being done this year.

Ottawa, January 30, 1925.

Sir:

I wish to refer to that portion of your No. 309-9 of the 22nd instant, which relates to the education of the children on the James Smith Reserve. You will remember that it is your intention to discuss with Mr. Inspector Murison the advisability of moving the Fort a la Corne North day school ten miles to the south of the reserve, where there are a large number of our wards of school age.

From reports on file, it appears that there are 26 children of school age living within two miles of the site of the old Fort a la Corne South school. In addition to these, there are 3 children six years of age and 24 still younger in the same area. These facts have been taken from a comprehensive report of Mr. Indian Agent Schmidt dated May 22, 1923. The local Church of England missionary and His Lordship the Bishop of Saskatchewan have on several occasions urged the re-opening of the Fort a la Corne South Indian day school. R.C.M.P. officers who have patrolled the reserve have also drawn our attention to the number of children at the south end.

There are no suitable buildings available, with the exception of the stable; so the provision of a classroom and a teacher's residence would have to be made. In addition, a well is required.

Sometime ago the question of moving the Fort a la Corne North school buildings to the south of the reserve was discussed. After serious consideration, it was decided not to proceed with this undertaking. Today the problem is unchanged, as there has been in the North school an enrolment of 15 during the present academic year. The average attendance was never higher than 12 for any one quarter, but the teacher, Mr. Goodman, who is apparently doing good work, reports that eight additional children will be ready for school this coming summer. However, if the reserve is to be reduced in the immediate future by selling a portion of it, this scheme of moving the buildings might be considered, if the north part of the reserve is to be relinquished.

Please keep these facts in mind during your deliberations, and when you are discussing the question with Mr. Murison, make a recommendation to the Department. At the present writing, there is in the draft of the Estimates for Indian Education 1925-26 an item of $4,000 to build a combined school and teacher's residence at Fort a la Corne South.

On my resent visit to Fort la Corne Indian Mission about ten days ago, a petition was presented to me by the Chief and members of the band, asking why the school at the South End had not been built when it had been promised so often, and when would it be constructed.

I was told there were something over forty children at the end of the reserve who are running wild, without any school facilities whatever, and it would appear as though the claim for a school there was pressing.

to have Mr. Gentleman appointed to the school being reopened at Big Head's in the Fort a la Corne South district. I understand this is now either ready or will be in the near future, and it would be certainly better for Mr. Gentleman on account of the reason of his leaving Grand Rapids, viz: Mrs. Gentleman's state of health.

This reopened school at Big Head's is within easy driving distance of a well equipped up-to-date hospital in Melfort, and is not a great distance from Prince Albert itself. There is no doubt Mr. Gentleman has done well as a teacher in Grand Rapids, and he ought to do equally well in reopening this school at Big Head's, which has been closed for so long.

I would therefore nominate Mr. Gentleman for Big Head's School, but will not write to him until I hear from you in the affirmative, and if you agree that this suggestion is wise, I should be glad if you would cable him to that effect.

I visited this school on November 12th last, and found 9 boys and 7 girls present out of an enrolment of 14 boys and 14 girls. The pupils were healthy looking and warmly clad in what appeared to be largely second hand clothing. The boys' clothing in particular was much too large for them and had evidently been handed down to them. A mid-day meal is served at this school. There is a garden in connection with the school which this year has provided for their requirements in vegetables.

This school was erected two years ago and is in good condition. The classroom has accommodation for 30 pupils and they have that number of single desks installed. It is heated with a large box stove. Inspector Hamilton's Report on Schools in Duck Lake Agency.

Dear Mr. Graham:-

I have the honour to submit the following report on the schools in the Duck Lake Agency inspected between November 4th and 22nd, 1929, while making an inspection of the Agency.

FORT A LA CORNE SOUTH DAY SCHOOL.

This school is in charge of Mrs. Burbridge who is a qualified teacher and has the work well in hand. The roll calls for 27 pupils, and I found an average attendance of 16.25. The boys number 10 and the girls 17. The grades range as follows:-

Grade I	-	10
" II	-	9
" III	-	2
" IV	-	6

I examined the work in the various grades and found that the children had a good grasp of their studies, and fair progress is being made.

The children were tidy and fairly well clothed. They are provided with a noon-day meal, which consists of soup, vegetables and biscuits. The school had a splendid garden this year and will have sufficient vegetables for the winter. I understand Mrs. Burbridge remained home this year during her holidays and gave considerable of her time to the care of the garden.

The children are given instructions in knitting,

knitting, sewing, cooking and gardening, in addition to the classroom work, and I believe good progress is being made.

The school is not well ventilated. None of the windows will come down from the top, and I was unable to get any up. The outside windows are not on hinges. The room is aired by opening the door, but this is not satisfactory.

The new dining room and kitchen provided last year is well equipped. Storm sash were not provided and Mrs. Burbridge claimed the windows frosted badly and that the room was difficult to heat. The supplying of storm sash would entail only a small expense and no doubt these are needed.

Dear Mr. Fraser,

In my husband's absence I am sending on these letters & recommendations from Mrs McFarlane. We have only just returned from the Red Country & I do not know whether you have had any communication about her, but the desire is to place her at Fort à la Corne, South End, Day School, where Mrs Burbridge is teaching. Mrs Burbridge leaves at Christmas - & Mrs McFarlane would commence her duties in January, if appointed.

Ottawa, November 5th, 1930.

Venerable Sir,-

I have to acknowledge the receipt of a communication, dated the 30th ultimo, signed, owing to your absence, by Mrs. Paul and nominating the services of Mrs. Amy M. McFarlane for the position as teacher of the Fort-a-la-Corne South Indian Day School to succeed Mrs. Burbridge, who is retiring from the first of January, next. The testimonials, etc., which were enclosed have been received and noted.

In this connection, I have to say that this is the first intimation the Department has received of the intention of Mrs. Burbridge to give up duties. The Department will be prepared to consider the appointment of Mrs. McFarlane from the first of January next, but it is noted that she possesses a non-professional second class certificate for the province of Manitoba and that it is some twenty-three years since she has had any teaching experience. I shall be pleased if you will advise the Department of her age and whether her husband is living and, if so, if it is intended that he will reside at the school with her. I may add that, if her application for this position is approved, the salary we could allow would be at the rate of $85 a teaching month only, in view of the qualifications she possesses.

I have to further request that you will obtain the written resignation of Mrs. Burbridge and forward same to the Department, together with your recommendation regarding the appointment of Mrs. McFarlane. Any further information that you can furnish regarding Mrs. McFarlane's qualifications and her suitability for the position will be appreciated and, when these are received, a final decision will be made as to whether or not her appointment can be favourably considered. I shall be pleased if you will give this matter your early consideration.

Your obedient servant,

T. R. L. MacInnes.

it thinking that it was an Indian Department School. The vacancy, however, was postponed until Christmas, and on hearing that it was not an Indian Department School Mrs. Burbridge refused to accept it. Meanwhile we were in touch with Mrs. Macfarlane and sent in her name to you as the Bishop's nomination. I have again consulted with the Bishop today and he is of the same opinion still, that a change is wanted at South Fort a la Corne. and asked me to write to you to this effect.

We do not wish Mrs. Burbridge to be out of situation. Another situation was offered her which we thought equally good, but she now refuses to accept it. Have you another school you could offer her, as she wishes to remain under the Department?

At Fort a la Corne the Indians are divided, some siding with Mr. Bird and some with Mr. Burbridge, andthe whole situation must have a bad influence on the Reserve. It is for this reason that we recommend a change.

Yours faithfully,

OTTAWA.

Dear Sir,

I received your letter (109-9-1) of the 3rd. inst. re Mrs. Burbridge and the South Fort a la Corne School. I wish to place the whole matter, before you.

In 1925 the Bishop asked Mrs. Burbridge to take charge of the school at Red Earth. This appointment fell through as the Indian Agent at the Pas did not wish Mr. Burbridge to live on the Reserve with nothing much to do. Accordingly Mrs. Burbridge was appointed to South Fort a la Corne instead. Mr. Burbridge held the Bishop's License as Lay Reader there for about four years. Unfortunately trouble arose between Mr. Burbridge and the Rev. E.V.Bird, the missionary who lives at the North End and has charge of all the missionary work on the Reserve, North and South. Each year at Treaty time a stall of refreshments etc. is held on the Treaty ground in aid of the Mission. In 1930 the weather was bad and much less money was raised than usual. Mr. Burbridge could not understand this and accused Mr. Bird of mishandling the funds. A very stormy meeting was held. Then Mr. Bird started legal proceedings for libel against Mr Burbridge. I went there in February for the Annual Meeting, which was a difficult and unpleasant one, and I had the mortification of listening to the Indians pleading with the two white men to make up the quarrel. I persuaded Mr. Bird to withdraw legal action. Figures were carefully gone into later and found perfectly correct, so that there was no ground for Mr. Burbridge's accusation.

But it was very plain that the two families could not live and work happily on the same Reserve, and I thought Mr. Burbridge in the wrong for making a false accusation against Mr. Bird.

Before the Bishop left for England in May he notified Mr. and Mrs. Burbridge that there would have to be a change. In September last ~~[illegible]~~ it appeared there would be a vacancy at One Arm Lake Day School which is not under the Department. Mrs. Burbridge accepted

Venerable Sir,-

I have your letter of the 9th instant, with reference to the difficulty on the Fort a la Corne Reserve and the suggestion of his Lordship that Mrs. Burbridge be transferred from the South School. While this teacher's services have been satisfactory to the Department, if you believe that it is necessary to make a change, the Department will concur. However, there are no vacancies in Indian School work at the present time and I wish to suggest that you consider transferring her to some other Anglican Indian Day School in the Diocese. Of course, an exchange would not make room for the teacher you nominated to succeed Mrs. Burbridge.

Dear Sir, In sending the qualifications of Mrs. Amy Macfarlane, whom we nominated for South Fort a la Corne (providing the vacancy materialises) a visit was made, as Mrs. Macfarlane only forwarded her first certificate instead of her full professional Certificate. She has now sent this and I am enclosing it to you. She has taken a further course during the last weeks which was arranged for her by the Principal of the Normal School at Winnipeg, so as to bring her methods up to date. If Mrs. Macfarlane receives the appointment, I hope that the salary will be higher than the $850 you mentioned, seeing that she has a professional certificate

The Minister's office has received some correspondence from the office of the Minister of Agriculture concerning Mrs. Burbridge, a teacher at an Indian School on a reserve at or near Kinistino, Saskatchewan. The principal of the school in question is the Rev. Mr. Bird.

Is this institution under the control of the Department or is it conducted by the Anglican Church? If the former, please advise me if Mrs. Burbridge's services as a teacher have been of a satisfactory nature.

Memorandum:

MR. BUSKARD.

I have your memorandum of the 15th instant, concerning Mrs. Mabel Burbridge, teacher of the Fort a la Corne Indian Day School, near Kinistino, Sask. This school is conducted by the Department and the Anglican Church, jointly. The Department has correspondence with Mrs. Burbridge and with the church diocesan office, with reference to difficulties that have arisen between Mrs. Burbridge and the Reverend E. V. Bird, teacher of the James Smith Indian Day School, which is at the north end of the same Indian reserve. Mr. Bird is not responsible for Mrs. Burbridge's teaching activity, but he is the missionary for the whole reserve.

Mrs. Burbridge's services have been satisfactory to the Department and we have suggested to the church authorities that they solve the problem. Both teachers were nominated by the church. I understand that the Bishop is trying to arrange a transfer for Mrs. Burbridge and that she is opposing any move.

Duncan Scott, Esq.,
Deputy Superintendent,
General Office of Indian Affairs,

My dear Duncan Scott:

It is quite evident that Mrs. Burbridge, the teacher at the South School of Fort a la Corne, Indian Reserve with her troublesome husband are evidently intending to range the Indian Department behind themselves against the Bishop of the Diocese. As far as I know there would be no difficulty if Mrs. Burbridge were alone teaching in her school but there is endless trouble created by her husband.

I therefore desire to notify the Department that I entirely withdraw my nomination of Mrs. Burbridge for this school as from Easter holidays and I cannot think of nominating her for any other Indian School in this Diocese.

At the present time it looks very much as though I shall have to close this part of the Mission altogether owing to the trouble caused by this teacher and her husband to the whole Mission.

I am very much afraid that the Roman Catholic Indian Agent, Schmidt is not altogether free from blame in this matter but I have no way of actually showing the connection.

I am very sorry indeed to have to take this action with regard to Mr. and Mrs. Burbridge but if the present condition of things is allowed to go on it will ruin the whole Mission.

With kindest regards,

Believe me to be

Dear Mr Stead

With further reference to your letters about the Rev. E. V. Bird, the Bishop wishes me to say that he has written to Ottawa withdrawing his nomination of Mrs Burbridge as teacher of the South Fort a la Corne School, as from the Easter holiday. When Mr and Mrs Burbridge have left, he will then be able to judge better what is the best thing to be done with regard to Mr Bird. Whilst it is true that some people have written asking for Mr Bird's removal there are others who want him to stay on.

I need hardly tell you that the Bishop will do whatever he judges to be really best for the welfare of the whole Mission

Yours Faithfully

W. E. J. Paul.

Sir

On January 12th I as chief called a meeting of the James Smith band. to talk about our missionary Rev E V Bird who has been making trouble here and acting in a wrong way. We sent a letter to the Bishop asking him to move Mr Bird and I am sending a copy of his letter for you to read.

At first treaty the government promised us schools and teachers They have kept their promise. Now we have the best teacher we have ever had at the South end. She has been here over five years and there has been no trouble with her. She is good and kind and always does her best to help the Indians in every way and given it..."

good advice. I wish the Govern-
ment to keep this teacher and
not to let other people take her
away from us.

I have been chief here for nearly
30 years and I have known six
missionaries. This one the Rev. E.
V. Bird is not a true missionary
and does not give good advice.
He is a trouble maker. He tries
to make trouble between the Indians
and the Government. He has just
compelled about us that we are
to have nothing about it, until
it be settled and Indians also
have. I do not like that as I am
Chief He says he is going to get
rid of our Agent Mr Schmidt too
and I don't like that. I think it
would be better for the whole
Reserve if Mr Bird could be sent
away. [illegible]

The Right Reverend
Lord Bishop of Saskatchewan
~~The Synod Office~~
Prince Albert. Sask.

Right Rev. Sir

The St Stphen's Church congregation and the St Luke's Chuch congregation have called a meeting to ask the Synod Authorities to transfer Rev E.V.Bird from those Parishes, for the reason that he is on disagreeable terms with the Indians in regard to various matters.

The Synod must not give Rev E.V.Bird the credit for what monies have been obtained from the Parishes named; it is the congregation's effort that the funds required by the Synod are available and this also includes what the Registers show for attendance at services.

A few of the actual complaints will show below and the Congregations are asking the Authorities to act in this matter immediately.

As it has now been some time that the matter was to be attended to and nothing has been done yet, it is our desire that we have a Cree Missionary.

Yours faithfully,

Chief James Head

to moved away. Jons men, Jas Burns (sen.), David Clark, Norman Burns & Gilbert Constant, were steady strong on the side of Jas Bird. Jons other men trumped up petty grievances, but did not ask for his removal. The meeting was to decided that I finally took a ballot, explaining that I did this simply to be able to let the Bishop know what the feeling of the people really was. This resulted in 21 votes for Jas Bird, & Six (6) against. The only serious charge against Jas Bird was the old one which the chief put forward that he had mishandled the money taken at a Refreshment booth run in aid of Church funds at the Treaty Point in 1929. This is Jas & Jas Bachiye's old accusation, & having examined the accounts & receipted bills he can find nothing wrong. I enclose a statement to this

effect by Rev. H. Wallace, Secretary-Treasurer of the Diocese. Yet Rev. Mr. Burbridge are still saying that Mr. Bird has mishandled that money, and they are stirring up the Indians against him. I enclose herewith one letter of complaint against him in which the Chief's name is written in Mr. Burbridge's hand-writing, - by which he has put his mark himself. He can neither speak nor write English.

I also enclose a letter from Mr. Burbridge to show that the hand-writing is the same.

It is still my opinion, after further investigation, that there will never be peace - Sordiness on the Reserve until Rev. Mr. Burbridge leave.

Hoping that this will explain the action that the Bishop has taken.

COPY OF TESTIMONIAL.

To Whom it may concern.

I take great pleasure in recommending Mrs. Siddons for a position in any elementary school. She is well qualified for this work and has had a very wide experience in the management of various types of public schools.

For the past four years Mrs. Siddons has had charge of the Lampburg school. I considered it one of the backward schools of this district and Inspectorate. Very little progress had been maintained by the students, and at no time were any pupils in grades above the fifth. The children were shy, diffident, and very hard to approach.

In the four years of Mrs. Siddons' stay at Lampburg a very different spirit has been imparted to the School. The children have become intensely interested in their studies, and marked progress is shown especially in the various branches of English.

The teacher has inspired them with a love of good books.

At the last inspection I found very encouraging signs due to the Teacher's attitude to her work and I know that Mrs. Siddons is actuated by a love of the work as well as a desire to help the children.

Report. During the four years that Mrs. Siddons has had charge of this School, sound progress has been made in all branches of studies.

Realizing how the pupils were handicapped by lack of reading material, the teacher exerted herself to the utmost to provide suitable material, which has resulted in a broader outlook on School studies.

The written work of the students is very good. The books are neat and well written.

Constant supervision by the teacher is an incentive to good work and improvement. The School has participated in School Fair activities and the pupils have taken a good proportion of prizes.

Class environment is very satisfactory.

Room is suitably decorated.

Students in VI and VII are well prepared for VIII.

The marked progress in Junior Grades is very noticeable.

The Honourable Duncan Scott,
Indian Department,
Ottawa, Canada.

Dear Sir -

With further reference to the situation at Fort a la Corne Mr. Ford, the President of the Legion at Kinistino, called this afternoon. He gave me a document of fourteen pages written by Mrs. Burbridge making accusations against the Reverend E.V. and Mrs. Bird. I have positive proof that most of these are false, and we are rather tired of these continual false charges, and I wish to say once again that it seems absolutely necessary for the Burbridges to leave Fort a la Corne. Some of these charges were admittedly gossip coming over the telephone.

The Bishop begs to nominate as teacher at the South Fort a la Corne School Mrs. A.J. Siddons. She was four years at her last School and gave every satisfaction. She has been teaching recently in Alberta and has a Second Class Alberta Certificate, but she took Normal in Saskatoon and has a Second Class Saskatchewan Permit which she hopes to have made permanent by teaching in Saskatchewan. I enclose Testimonials from her Inspector.

Hoping that this nomination will meet with your approval,

Yours faithfully,

April 17th/31

Dear Sir:-

On the above date I called at South School to see Mrs.Burbridge,she told me she would not be leaving the school for a time as yet but she would let me know when she would be doing so that I may take stock of articles and food supplies.

The school is not open##. I will advise you of any further movement.

Dear Sir:- In a recent letter from Archdeacon Paul,he requested me to notify him,when the South End School house was vacant so that he could notify the Teacher appointed to come-as he was desirous the school should be opened without delay,also requesting me to meet the Teacher and help to get the Teacher out.

As Mr Pollock informed me,on my asking him,the present occupants state they are not moving until the new Teacher comes and therefore it was impossible for him to check them out.

Such action naturally delays the arrival of the new Teacher,as until the house is vacant the Teacher cannot move in,and therefore I thought I would write you ere notifying the Archdeacon and Bishop and find out if you will be taking any action in the matter.

Signed. Rev.E.V.Bird

Sir:-

I have the honour to enclose herewith copy of a communication received from Rev.E.V.Bird,teacher at the Fort-a-la-Corne.North Day School and Missionary in charge on James Smith's Reserve,re the appointment of a teacher for the Fort-a-la-Corne South Day School.

On March IIth last while on the reserve,Mrs.M. Burbridge the teacher informed me that she was leaving the school and would probably move out during the Easter Holidays.

I instructed Farmer Pollock to take over all Department property from Mrs.Burbridge when she was leaving and be prepared to hand it over to the new teacher who came.

On April 21st I received a communication from Farmer pollock copy of which I also attach hereto. I have not been advised by the Department that a change of Teacher was being made,and beg to ask for instructions in this matter.

Dear Sir,

I beg to report that I motored Mrs Liddons to Fort à la Corne on Sat. the 16th inst., and Mr. Pollock, the farm instructor, is taking her down to the South end early today, & the horses to fetch the school started today (May 18th). Mrs Bucbridge only vacated the house last week, but I find that the discontinued teaching after March 31st. Mrs Liddons could have come earlier, but I waited till I knew that the school & house would be vacated, before notifying her to come.

Yours faithfully,
W. L. J. Paul.

Sir:

In further reference to official letter of the 24th ultimo regarding the appointment of Mrs. M. Burbridge as teacher of the Fort a la Corne South Indian Day School, I now beg to inform you that His Lordship the Bishop of Saskatchewan has forwarded the official nomination of Mrs. Burbridge. He states regarding her qualifications that she is an Associate in Arts of the University of Oxford, and has had ten years' teaching experience in England and four in Saskatchewan. Her appointment will date from October 5th, last. The salary allowed her will be at the rate of $75 per month for the ten teaching months in the year. As you have already been informed, Mrs. Burbridge's duties will be those of teacher only.

Sir,-

The return forwarded from the Fort a La Corne South Day School for the quarter ended December 31st contained only two names. It appears, however, from the totals carried forward on the top of the form, that there should have been another page containing the names of twenty-seven children. Please arrange with the teacher to have this forwarded to the Department as soon as possible.

I enclose herewith a duplicate copy of the return received here. In connection with the returns from Indian day schools, I would point out that only one copy of the return is required.

Sir:

I have to inform you that the authorities of the Diocese of Saskatchewan have nominated the services of Mrs. A. J. Siddons as teacher of the South Fort a la Corne Indian Day School to succeed Mrs. Burbridge. Mrs. Siddons has a second class Alberta certificate and a second class Saskatchewan permit, and has also had former teaching experience. The Department is approving of her appointment, with salary at the rate of $90 per teaching month. I have to request that you will give her every assistance you can in her work at this school.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Madam,-

In forwarding your December quarter return, it is noted that you request that your cheque be forwarded direct to you. In this connection, I would point out that, under cover of a letter dated June 30th, last, Rev. Henry Wallace, Secretary-Treasurer of the Diocese of Saskatchewan, forwarded to the Department an order signed by you and dated June 27th, 1931, authorizing payment of your salary to the Diocese of Saskatchewan. Until this is revoked, payment of your salary will have to be made as directed in the order mentioned above.

If you desire your salary forwarded direct to yourself, you should communicate with Reverend Mr. Wallace and arrange with him to write to the Department.

Your obedient servant.

Dear Sir:-

I wish to give notice that the South Day School James Smith Res will be closed on Wednesday Oct 31st & part of Thurs Nov 1st- the reason being that the little girl I have working for me has a chronic eye infection- & it is necessary to see an eye Dr at once.

I intend taking her to Dr Eede at Prince Albert. The girl is not old enough to go alone & her parents are too far North from here. As it would be too dark to drive from Kinistino on Wednesday night I will be back as early as possible on Thurs morning.

Trusting this will meet with your approval.

Sir;-

I have the honour to ask for authority to have the well at the Fort a la Corne South Day School cleaned at an approximate cost of $40.00.

The well which is sixty-one feet deep by thirty-seven inches in diameter was bored in 1925, and has not been cleaned out since, there being no well boring machine in the district which could be hired to do the work.

Mr. Norman Thompson, of Kinistino has informed us that he will bring his machine into the district this summer, before harvest, and offers to clean the well on the following terms.

"He is prepared to clean the well for $25.00 plus an additional $2.00, per day to cover board for two men and team of horses.
This will include the taking out of the upper ten feet of curbing, and replacing it with new. The Department to provide the new curbing.
He guarantees to make a good job, providing the curbing in the bottom of the well does not cave in when he bales the water out. In the event of this happening he expects to be paid the same as though the job were completed."

I recommend that this offer be accepted, as when this machine leaves the district it may be several years before it returns, and it is most important that after ten years use of the well it should be properly cleaned.

I have the honour to be

Dear Sir,-

The Department finds it necessary to return your voucher No. 9681, in favour of Norman Thompson, in connection with certain work performed by him at the Fort-a-la-Corne South Indian Day School.

There are two items in this account - one for $25.00 for cleaning well and the other for $2.00 for recribbing part of the well. It will be necessary to show on this account the number of days this man was employed and the rate per day in each case.

Yours truly,

A. F. MacKenzie.

Sir:-

I beg to acknowledge receipt of Departmental letter No. 109-9-5, dated the 19th, ultimo, returning voucher No.9681-$27.00, as the statement of labour submitted by Mr. Norman Thompson, and attached to this voucher did not give the information required by the Department.

I am enclosing herewith, voucher No.9681-$27.00, together with a new statement submitted by Mr. Thompson.

The information contained in this statement is not just what the Department requested. On October the 23rd, I wrote explaining what was required, and the statement received in response was returned as it did not contain the information asked for. I again wrote on the 7th, instant, and in response received the statement attached to the enclosed voucher, and hope it will meet requirements.

DEPARTMENT OF INDIAN AFFAIRS
ANAIA

1976-15-1008.

Duck Lake, Sask.

January 15th., 1937.

Sir;-

I beg to enclose herewith, a requisition for supplies for the Fort a- la- Corne, South Indian Day School.

I beg to report that when visiting this Reserve with Mr. E.S.Jones, Farming Instructor, last November, we called at this school and in questioning Mr. Jones as to the water supply in the well at the school, I was informed that it could not be used by the children, but was alright for livestock.

At that time Mrs Siddons and her husband drew my attention to the fact that the rope being used in this well was too short. This I also referred to Mr. Jones and was given to understand that this well was being used principally by Mr. and Mrs Siddons to water their driving horse, and I feel sure that the rope listed on the attached requisition is for this purpose.

I have the honour to be
Sir
Your obedient servant.

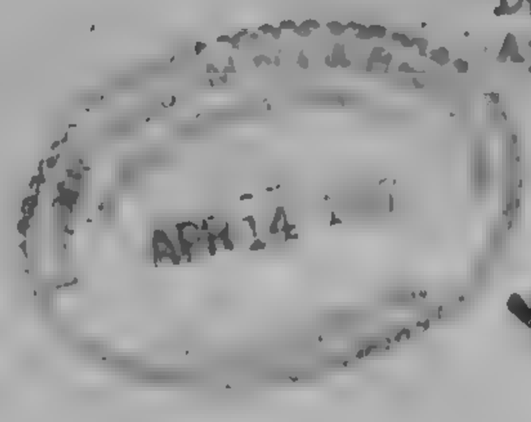
2269-15-1003.

Duck Lake, Sask.
April 12th, 1937.



Sir;-

I beg to enclose herewith requisition for supplies for the Fort a la Corne South Indian Day School.

Mrs E.M.Siddons advises me that there is no wheel barrow at this school and one is required to haul away the rubbish which collects around the school yard. In this I agree.

She also advises that the rope which was not allowed in view of the report in my letter to the Department, dated January 15th, last under file 1976-15-100 S, is required on account of the supply of water being hauled for the use of the school is in adequate for the use of the school and the teachers residence. Also that the rope in use at present is so short that it is dangerous to use.

Mail service to this point is at present very uncertain owing to the condition of the roads. It is also liable to be a matter of weeks before I will have occassion to visit this point and be able to find out if all the items requisitined for are required. I would therefore request authority to purchase the items listed if, and when the necessity of doing so arises.

I have the honour to be

Sir;

Attached hereto please find Agency Voucher No. 407 amounting to $ 1.76, in favor of W.J.Kirkham of Fort a la Corne, Sask.

This account represents the cost of material supplied to crib the well at the Fort a la Corne South Indian Day School. This well is used to procure drinking water for the children of this School, and it had to be deepened. The labor was performed by the Farming Instructor and this item is the only cost in this connection. No authority has been received but this work was essential.

I recommend payment of the attached account.

Regina,Sask., April 9th, 1938.

Dear Sir:

I beg to advise that the interior of the following Indian Day schools at the Duck Lake agency are badly in need of redecorating:-

x x x

James Smith's south Day school:- requires to have all plaster work brushed and kalsomined and the floors and woodwork require painting.

x x x

Two coats will be required both for kalsomining and painting in all three schools. Indian labor will be employed on all this work.

Form #37½ is enclosed listing the materials required and I would recommend that this authority be given if funds are available.

Yours truly,

Thos. Robertson.

Ottawa, August 11, 1938.

Dear Sir:

EX'D.

With reference to your requisition of August 6th for midday meal supplies and other articles required at the Fort a la Corne South Indian Day School, you may purchase 12 bars laundry soap and 12 bars toilet soap.

Biscuits for this school have already been ordered and should reach you shortly.

During the academic year 1938-39, you may expend an amount not exceeding $50 in the purchase of midday meal supplies to supplement the biscuits that are being forwarded to you.

The purchase of midday meal supplies to the amount mentioned should be made from firms on the approved list.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

EX'D

Dear Sir;

I beg to advise that several windows at the Fort a la Corne South Indian Day School became broken during the absence of the Teacher last August.

In order to protect the school from damage by the weather the Farming Instructor had the broken panes replaced, at a total cost of .90 cents.

The charges in this connection are included in Voucher No. 554, amounting to $1.30, which is attached.

I trust the Department will concur in the action taken in this matter, and will favorably consider this item for payment.

Your Obedient Servant,

S H Simpson

Dear Sir:

The Fort a la Corne North Indian Day School Teacher's Residence and the School House are badly in need of exterior painting, also the interior of the School Children's Dining Room. The fencing around these grounds is down in many places and requires to be rebuilt. The old covering of the school well is rotting and a new one is required.

Form No. 37 in duplicate is enclosed, listing thereon the materials required and an estimate of the cost of labor to complete this work.

I recommend that this work be done and that Indians be employed to do it.

Dear Sir:

With reference to my letter No. 1794-6-100, dated May 22nd last, pertaining to the painting of the Teacher's Residence and School, also a new covering for the well and repairs to the school fences at the Fort a la Corne North School.

These buildings and grounds are badly in need of the work mentioned being done. They are also adjacent to the main road running through this Reserve, which is travelled by tourists passing through the reserve to visit the historical site of Fort a la Corne.

I would recommend that, if possible, authority be granted to have these buildings and grounds repaired this year.

Your obedient servant,

S. H. Simpson

Dear Sir:

I am in receipt of your letter of the 8th instant in which you refer to repairs required to the fence at the Fort a la Corne North school and you also mention your letter of May 22 last.

On referring to the last-mentioned letter I find that it covered repairs required at the Fort a la Corne South Indian day school and in official letter of May 27 you were authorized to expend an amount of $36.15.

If repairs are also required at the Fort a la Corne North Indian day school you should let me have an estimate of their cost and if the expenditure involved is more than $50.00 you should forward detailed information so that purchase may be made by our Purchasing Branch.

Yours truly,

Philip Phelan,

Dear Sir:

Mr. T.E. McDonald, Teacher at the South Indian Day School, James Smiths Reserve, has requested to be supplied with a pair of hair clippers, scissors and comb for cutting the school children's hair, with the intention of having this work done by the pupils after he has trained them in this work.

A suitable set can be procured at a cost of $3.00. I recommend that Mr. McDonald's request be granted and request authority to make the purchase locally.

Yours very truly,

Dear Sir,

I beg to advise that the well used [illegible] water for the Fort a la Corne South Indian Day School and Teacher's Residence has gone dry and it is necessary to have a new well dug.

It is estimated that a sufficient supply of water can be procured at a depth of from 16 to 20 feet. The cost of Indian labour to dig the well and cribb ~~it~~ would be one dollar per foot for a four foot square hole. There is sufficient lumber on hand for the cribbing but approximately 25 lbs. of 4" spikes will be required at a cost of $2.00.

I beg to request authority to have this work done at a total cost of approximately $22.00.

Yours very truly,

S. H. Simpson

I beg to report that a section of the cement foundation of the Teacher's residence at the Fort a la Corne South Day School has cracked near the top and broken away from the main part. Also that the lean to porch on this building has broken away from the main building.

The break in the cement foundation permits cold air to penetrate into the building during the cold weather and makes it difficult to heat the building. The space between the porch and building also permits cold drafts through the door leading therefrom into the building.

2 - 98 lb. sacks of cement @ $1.35 and Indian labour amounting to approximately $8.00 will be required to make the necessary repairs.

I beg to request authority to expend the sum of $11.00 to have these repairs made.

Re: Schools, Repairs Buildings and Works
Page 76691 and 76693 Estimates 1944-45.

I beg to enclose herewith Form No. 37 with extra copy for your office, listing materials and work required in this connection as follows:

x x x

Fort a la Corne South Day School - School House - $92.00

The interior of this building is in need of re-dercorating. Indian labour is available for this work.

xx xx xx

If there are any funds available for outside repairs to school buildings provisions should be made to do all buildings at the Fort a la Corne North School which are very badly in need of re-painting. The buildings at the South School also should be done, but at present are in better condition than those at the other school. Both these items are listed in the estimates.

Regina, April 21st, 1944.

Indian Affairs Branch, Department of Mines & Resources, Ottawa.

In the 1944-45 Estimates, Duck Lake Agency, a request was made for interior decorations of the teachers' residence, at John Smith's Reserve, Moose Woods Sioux Reserve, James Smith Reserve, and Kinistino Reserve.

I would recommend that these be approved of and granted. Mr. Simpson, the Agency, states that with respect to the interior decorations at the John Smith Day School and floors in the dining room and hall way are badly worn and in the first place there is only a one-ply lumber. There is sufficient experienced Indian labour on the reserve to do the work.

The Agent also request that if funds are available outside repairs be made to the Fort a La Corne North Indian Day School. This building is in bad need of re-painting. I also notice that the South School on the same reserve could do with a re-painting but at the present time it is in better shape than the school north of it.

4978-2I.

Duck Lake Sask, Aug. 7th 1945.

J. P. B. Ostrander, Esq., Inspector of Indian Agencies,
Regina, Sask.

Enclosed herewith please find requisition listing materials and labour required for decorating various day schools in Duck Lake Agency, as requested in your letter No. 305-IIA dated August 3rd.

As finances may not be available to carry out all of the repairing and decorating asked for in this Agencies 1944-5 estimates the enclosed requisition covers the estimated costs of repairing and decorating that should be done this year, and in order of importance.

1. Moose Woods (Whitecap) Sioux, day school.

The class room is in poor condition and should be repaired and decorated as soon as possible. Decorating materials were secured last year from 1943-4 estimates and due to the Plaster on walls and ceilings being badly cracked and falling off it was decided to postpone decorating untill the plaster was removed and replaced by Wall Board. The Sum of$137.88 is required to cover the costs of materials and labour. Decorating materials are on hand and the work will be completed at the time of removal of the old plaster and replacing with Wallboard.

2. James Smith South day school & Treaahre residence.

The building and grounds are very dirty and untidy and the buildings and grounds should be cleaned up properly before the Teacher assumes her duties on September 2nd next as a change in the teaching staff is being made at this school this coming term the premises should be in fair condition in order to impress on the incoming teacher the importance of keeping the buildings and grounds in proper condition. As this school is situated approximatley 7 miles distant from the Department Farm buidlings on James Smith Reserve proper fire guard protection should be provided. In the event of a bush or grass fire originating on the reserve during the fall and early s ring months I am afraid that the buildings would become a total loss.

With reference to the remainder of the day school estimates outlined in my letter No. 4950-2I dated July 30th the work can be completed as and when finances are available and if necessary can be completed next season.

Extract from School Inspectors Report dated Nov. 15, 1940, File No. 109-9-6.

"On the morning of my visit the room was cold and very uncomfortable. The furnace is burnt out and seemed to give more smoke than heat. Some window panes are out and this made the situation all the worse. A new furnace should be installed and steps built to the "cellar" to replace the ladder-box combination that serves as a means of descending. At present the whole thing is dangerous, to say the least.

"The plaster needs patching and the whole building needs painting thoroughly, and completely. The floor has been painted recently, and is in fair condition, except the cellar doorway. The blackboards are poor and should be re-surfaced with slating. There are insufficient desks to seat the pupils; these should have been requisitioned long ago. Children can hardly be expected to attend school when they have nowhere to sit."

Mr. N.J. McLeod, Indian Agent,
DUCK LAKE, Sask.

When reporting on his inspection of the Fort a la Corne South School on Nov. 15, the Public School Inspector writes as follows:-

"On the morning of my visit the room was cold and very uncomfortable. The furnace is burnt out and seemed to give more smoke than heat. Some window panes are out and this made the situation all the worse. A new furnace should be installed and steps built to the "cellar" to replace the ladder-box combination that serves as a means of descending. At present the whole thing is dangerous, to say the least.

"The plaster needs patching and the whole building needs painting thoroughly, and completely. The floor has been painted recently, and is in fair condition, except the cellar doorway. The blackboards are poor and should be re-surfaced with slating. There are insufficient desks to seat the pupils; these should have been requisitioned long ago. Children can hardly be expected to attend school when they have nowhere to sit."

Please let me hear from you in regard to the above. In connection with the desks, I presume that the 6 new desks had not reached the school at the time of the Inspector's visit.

Chief, Training Division.

Ottawa, Ontario.

Reference is made to your letter dated December 19th, your file No. 109-9-5 (W.T.1) regarding report of the Public School Inspector in connection with the condition of the South Day School on James Smith Reserve No. 100, Fort a la Corne, Sask.

The remarks of the Inspector are noted and while I agree with his recommendations in part, arrangments are being made to move the class room and teacher's residence to a more suitable location, where good water supplies are available. Provisions for this work are included in Duck Lake Agency Estimates 1947-48.

In regard to the condition of the furnace. In view of the alterations planned for 1947, it was not deemed advisable to install a new furance and temporary repairs were made which did not prove satisfactory and we have discontinued the use of the present furnace and installed a large cast iron heater in the class room, which provides ample heating arrangements.

With reference to school class desks, these were ordered in 1946 estimates and were delivered recently and in addition, the Principal of Duck Lake Indian Residential School handed over 11 good used desk seats, these were all installed in the south day school class room.

Some difficulty was experienced in securing window glass due to short supply. However all broken window glass have now been repaired and I believe the class room is in as good a condition as possible under existing conditions and with a view to alterations planned for the coming year.

In regard to improvments planned for the 1947 year. Extensive alterations and repairs are required, including installation of a new furance and removal of the buildings a distance of approximately 1½ to 2 miles, where suitable water supplies can readily be made available.

It is anticipated this method will overcome the presnet difficulties in regard to the condition of this particular building set up and when completed should prove satisfactory and be the means of securing the services of a more compotent teacher than we now have at the south school.

Reference is made to 1947-48 Estimates, Schools, Repairs, Buildings and Works.

Allowance has been made in the above estimates for the moving of the James Smiths South Indian Day School from its present location to a new location about 2 miles distance.

The School in its present location is not at all central to the families it is serving. There is not a water supply near the school and water has to be hauled in for the use of the pupils and teacher.

It is estimated that it will cost in the neighbourhood of $3000.00 to move the school building, teacher's residence, barn and out buildings to the new location and place them on fully cement basements and foundations. New furances will also be required for the school and teacher's residence.

It would be appreciated if advice could be received whether it is the Department's intention to have the above work completed this year if labour and materials for the work is available.

We have your letter of the 9th instant with reference to moving the James Smith South School. It was not found possible to include an amount of $3,000. in the appropriation for the fiscal year 1947-48 for this purpose.

Under these circumstances no action is being taken with reference to your other two letters of April 9th regarding the sinking of a well and making repairs at the proposed new site.

The Department approves the expenditure of $50.50 for decorating the interior of the James Smith South School.

Sir,

I have to acknowledge the receipt of Mr Inspector McGibbon's Report on the Bay School on Red Pheasants Reserve which shows no improvement under Miss Price who is going with her husband to John Smith's Reserve; and in reply to your enquiry I beg to say I shall be well to communicate with the Church authorities with a view to securing the service of a married teacher for the latter place as Miss Price appears unfitted for the position.

Dear Sir,

Under date of 29th December last the Indian Commissioner wrote to the Bishop of Saskatchewan stating that he had received unsatisfactory reports of Mrs Robert Bear's work at the St John Francis Day School and urging an early change. Since then I have visited the school and am quite prepared to admit that things might be much better although the teacher cannot be held responsible for all that is unsatisfactory.

My object in addressing you direct is respectfully to enquire whether it is the intention of the Department to carry out the scheme of increased Day Schools as outlined in your letter of April 24th addressed to Rev. R. J. McKay Esq. Sec. of the Joint Committee on Indian Education

There is no Indian Reserve in Saskatchewan where the conditions for an improved Day School are more favorable than on John Smith's Reserve, and, as a change is called for, the time is opportune to introduce an improved Day School At the time of my visit there were 24 names on the Register 12 pupils at school. Seven pupils had returned from Emmanuel College when that Institution was closed, not one of whom was attending the Day School.

Very Rev. Sir,-

I have to acknowledge the receipt of your letter of the 15th ult. in reference to the school on John Smith's reserve and suggesting the introduction of an improved day school at that point, which you state is most favourably situated for such a school.

The Department has for some time been aware of the unsatisfactory condition of this and other day schools in the West and it is most anxious to remedy the present state of affairs, but in order to do so it will require the co-operation of your Church, which is so deeply interested in the welfare of the Indians.

To carry out a plan for extending the usefulness of this school the difficulty presents itself of securing the services of a teacher with the necessary qualifications to take charge of it, and the Department would like you to suggest the name of a married man for teacher whose wife would be able to assist in carrying out the scheme, which includes improvements in the domestic habits of the women on

on the reserve; the aim being to educate the Indian children amid their native surroundings and while inculcating principles of thrift and self dependence to improve at the same time the conditions of life in their homes. It need hardly be pointed out that the success of the proposed plan depends largely on the persons selected to inaugurate it; they should be capable beyond all doubt of carrying on the work in which they are to be engaged. The Department is of the opinion that only such persons as are well versed in the usages of the country and have the welfare and improvement of the Indian at heart should be employed in this work.

May I ask that you will give this matter careful consideration and report to the Department at your early convenience, for it would be advisable to have the new arrangements made at an early date so that any field or garden work may be taken up in good time. Would you also be so kind as to state what would be considered a fair salary for this service.

Dear Sir,

I beg to Thank you for your letter 8L 117084.1 of the 3rd inst. opening a proposed improved day School on Cote's Island Reserve.

In reply, I beg to assure you that the representatives of the Anglican Church in this Diocese will do all in their power to co-operate with the Department in this as in any other scheme that has for its object the benefit and improvement of the Indians.

I fully realise the importance of obtaining the services of capable persons to manage and carry on the work, and, in accordance with the Department's orders, every effort will be made to select a man and his wife with the necessary qualifications. As soon as a teacher can be found, the name will be submitted to the Department, but I should think it will take some time to provide the necessary

buildings. The school house at present in use is a very good building, and would probably be considered sufficient for present purposes, but a residence for the teacher will be necessary.

Referring to the question of salary, I notice in the scheme set out in Mr Pedley's letter of April 2nd '08 the rate of pay is stated

with free house. I hardly think that the services of a really competent man and his wife could be secured for $500.00. I think $550.00 is the least that should be agreed. I would not be disposed to pay more than the minimum salary mentioned, while the position should not be offered to any one who is actuated by no higher motive than the hope of gain, but one cannot expect people, as a rule, to engage in such work at a sacrifice of both social and pecuniary advantages.

DRAFT

Ottawa, April 1st., 1909.

Very Reverend Sir,-

In reply to your letter of the IIth ultimo I have to thank you for the promise of co-operation with the Department in endeavoring to improve the Day Schools. When the rate of remuneration was mentioned in the letter of the 24th. April to which you refer, it was supposed that the free house, two rations and a salary in cash of $300.00 a year would be sufficient pay for a married man and his wife. Where it is thought advisable to erect a new type of building on any Reserve the situation of the Teacher would have some advantages, which it is hardly possible to deal with in an Estimate of salary and perquisites. In the erection of these improved buildings, the Department desires to proceed with caution, and as the buildings cannot cost less than from $6000.00 to $8000.00, it should be clear that the proposed location is unquestionably the proper one.

On John Smiths Reserve, which has not a very large population and where a commodious Day School building is already erected, it might be thought advisable not to erect a Day School of the improved type, but to furnish a convenient house for the Teacher. Could you ascertain whether there is at present a house favorably situated which the Teacher could use? If so, the Department would be disposed to consider the payment of the rental.

It is thought that sufficient encouragement will be offered to a better [illegible] Teacher if $400.00 in cash be paid as salary, with two rations, and either an allowance for rent or the

Dear Sir

In reply to your letter of the 2nd inst. re 117084 I moved on John Smith's Reserve on that there is no house favourably situated which the teacher could use. The only suitable house is the one occupied by the farming Instructor.

I would also point out that it is utterly useless to attempt to secure the services of a competent man and his wife, to discharge the duties required by the Department for $400 a year even with the addition of two rations. This would mean a salary of about $550 or $550 for the two. Any certificated teacher in Saskatchewan can command a salary of at least $600 with more with very little duties as those required by the Department.

Department to erect buildings on John Smith's
Reserve because it "has not a very large Roman-

recently addressed to the Rev. Mr Tucker by the
Deputy Supt. General of Indian affairs, that the
Department proposes to erect an Industrial Day
school on Muskrat Reserve at a cost of $1000 &
and to assume an increased expenditure of $1175 &
per annum, for increase to salary of teacher, and
this more than counter balances such provision for a mod-
ern, meal for the Indians. Muskrat Reserve
has a population of 132 of whom five, 8 are
Presbyterians and there are only 20 children of
School age. John Smith's Reserve has a popula-
tion of 148 of whom 147 are Anglicans and there
are 34 children of School age. I beg to draw your
attention to these figures not in a carping spirit
but in a desire to have things fair all around

I may also mention that we are prepared
to recommend for the John Smith's school the

Sir,

I beg to acknowledge the receipt of your letter No. 117084 of the 30th ult. and in reply to state that I should hope the Department would not consider excessive a salary of $600 for Rev. A. J. McDougall as teacher and $300 for Mrs McDougall as nurse without rations. The school proposed on John Smith's Reserve appears to be morticipied from the proposed School on Onistawasis Reserve, which is on the plan sketched in your letter of April 24th 1903. The idea of having a nurse however does not seem to be eliminated, and that appears to most people acquainted with the conditions on an Indian Reserve, to be ~~the most important~~ one of the most important features in the plan. I would infer from your letter that Mrs McDougall would be expected to attend to the duties of nurse as well as superintend the preparation of the mid-day meal and perform the other duties required of the teacher's wife where there is a nurse besides.

how no woman can do her own household work, attend to the pupils, and also perform the duties of a nurse, without help, and Mrs McDougall will need hired help. It is of course a part of the science that the services of the elder girls should be utilized in the preparation of the mid-day meal, but that does not mean less occupation for the teacher's wife. The proposition that I have placed before you represents a saving of $225.00 as compared with the scheme providing for a nurse separately.

Mrs McDougall is at present engaged in very successful work among white settlers. She is Rector of a Parish that has become self-supporting under his ministrations, but he has accepted, with enthusiasm, the idea of taking up this work, and I know of no one who is more likely to make it a success. As the girls of the improved day schools we are especially anxious to give it every chance of success.

Very Reverend Sir,-

In reply to your letter of May 12th, I have to inform you that the Department will agree to pay for the services of the Rev. R. F. McDougall and his wife at the rate mentioned by you, namely, $600.00 for Mr. McDougall as teacher and $300.00 for Mrs. McDougall as nurse and field matron.

In your letter you do not deal with the question of accomodation to be provided for Mr. McDougall. This matter was touched upon in letter of the 30th. of April. Probably Mr. McDougall could give some practical suggestions as to the buildings to be erected, and it might be possible to so interest the Indians that they might join him in erecting the building if the Department furnishes the material and some skilled labor. It would be fortunate if a spirit of co-operation could be fostered in this Band and if their interest could be stimulated to the extent of giving some practical assistance in the work.

The Department would be prepared to pay Mr. and Mrs. McDougall's salaries as soon as they begin their new duties.

Very Rev. Sir,

I beg to acknowledge the receipt of your letter of the IIth ultimo, asking when the proposed arrangement of the appointment of the Rev. R. McDougall as teacher of the John Smith's School is to take effect.

In reply I beg to say that the Department regrets the delay in providing permanent accommodation for Mr. McDougall; a delay which is unavoidable, as the matter is one calling for the most deliberate consideration.

The Department is prepared, however, to pay the salaries offered to Mr. and Mrs. McDougall as soon as they take up the work, and it might be possible to make temporary arrangements for quarters for them. I have the honour to inform you that as far as I know, the John Smith's school is without a teacher. For some reason unknown to me, the late teacher, R. Bear, stopped (was dismissed) at the end of September. I was only made aware of this late in October by Inspector Chisholm, who advised that Bear would open school on the first of November. I wrote Farmer Campbell telling him to let the teacher have what rice, beef etc. he would require for a daily mid-day meal. I was at this reserve on the 9th. instant, but my time during the day was fully taken up with the sale of beef cattle. Just before leaving, I asked the Farmer how the school was getting along. (He told me that the school had not opened.) He did not know the reason, nor have I had any further information. I am writing Farmer Campbell today to find out if the school has been re-opened; or if not, the reason why it has not. If the school is open I will go to the reserve, and if possible, make arrangements for the mid-day meal.

No. II7084/I, I have the honour to inform you that owing to the illness of the teacher, the John Smith's school has been for some time closed. The teacher informed me that he theurht he would be able to open school at the New Year. When last at the John Smith's Reserve, I had a conversation with Mrs.P.Campbell(wife of the farmer) re- giving the school children their mid-day meal. She could not then say what she would be prepared to do it for. To-day, I have a letter from her in which she states that she thinks the work should be worth $30.00 per month. This I consider a most unreasonable sum for the work required. At the LaCorne north school we have an Indian woman doing the work for $2.50 per week, and the work is very well done. The cooking and cleaning both compare very favorably with the mid-day meal given at the Duck Lake Boarding School. There is no other person available for the work at this reserve, and in view of the worthlessness of the present teacher when in health, I do not think that much would be gained if the meal was given.

In this connection I would suggest that if the Rev. Mr.McDougall is not going to this reserve, arrangements be made to place Mrs.Godfrey in charge. This is

is a more important school than the LaCorne south school, the children on the roll numbering thirty, but there is another reason why I would like to have the change made. Mrs. Godfrey's husband happens to be a useless, indolent person who does very little work and a great deal of talking. He is continually butting in matters not only in connection with school work ,but the management of the reserve in general, which is very disagreeable to the Farmer in charge. The last Farmer in charge ,left without giving any reason, but I believe it was Mr. Godfrey's interference . The present Farmer, McCley , has sent in his resignation to take effect on March Ist. ,giving as his reason that there is not room for himself and Mr.Godfrey on the reserve. Now Mr .McCley is a most capable man, thoroughly competant in every way , and the Agency cannot afford to lose such men from any such reason. It may be said that Mr .Godfrey would cause the same trouble on the John Smith's Reserve. I do not think so; the indians are a different class, while as to the Farmer, it would be no great loss if he found there was not room enough on the reserve for himself and Mr. Godfrey. The annoyance caused by Mr. Godfrey is not new,having been going on for the past five year but in view of the very valuable services of Mrs. Godfrey , I have not before commented on it . Nor would I now , except that I wish to show that it would be to the advantage of the work if my proposal could be carried out.

Sir,

104 I have to acknowledge the receipt of your letter of the 28th ultimo advising the Department that the school on the John Smith's reserve will probably be opened this quarter and quoting the offer made by Mrs. Campbell to do the work in connection with supplying the mid-day meal.

In reply I beg to say that the price asked for this work is considered altogether too High and the matter of supplying a meal may stand over for the present.

Your suggestion with reference to the transfer of Mrs. Godfrey to this school is noted. I may say that the Department has not given up the idea of placing the Rev. Mr. and Mrs. McDougall in charge of this school. On October 9th, last, the Department wrote to Archdeacon MacKay offering to pay the salaries of Mr. and Mrs. McDougall if temporary quarters could be found for them. This, however, appears to be impossible and nothing can be done till the proposed residence is erected. Mr. Inspector Chisholm is at present having a plan for the buildings on this reserve made, and the Department hopes to undertake the erection next spring.

In your letter proposing the transfer of Mrs. Godfrey to this reserve you do not state whether you had in mind the appointment of the Rev. Mr. McDougall and his

Ottawa, March 6th, 1910.

Very Reverend Sir,

I have to acknowledge the receipt of your letter of the 1st instant in reference to the appointment of Rev. R. F. MacDougall as teacher of the John Smith's day school.

In reply I beg to say that plans and specifications for a commodious teacher's dwelling and pupils' dining-room for this reserve are now being completed at Prince Albert, and it is trusted that the erection of this building will be proceeded with early next season.

As you will recollect the Department offered in October, last, to provide the salary for Mr. and Mrs. MacDougall from that date, if temporary accommodation could be found for them, but on the 29th of that month you stated that it was impossible to make any arrangements for quarters for them. The Department is not aware of any change in the situation and presumably there is nothing to be gained by renewing this offer; however, it will be pleased to pay the salaries to Mr. and Mrs. MacDougall from any date on which they take up the work, if quarters suitable to them can be found.

I hope that this will be satisfactory to the Department as Jas McDougall is at present in charge of an important parish, and is not able to leave his connection with it on very short notice.

I am sorry to state also that Jas McDougall is in England at the present time, where she has gone for special medical treatment. The treatment however has been successful, and Jas McDougall will return as soon as she can to take up the work required by the Department.

The Department is in receipt of a communication from Rev. R.F. Macdougall, in which he states that he and Mrs. Macdougall will take up their work on the John Smith's reserve at an early date.

Mr. Macdougall has been asked to communicate with you and told that you will give him necessary instructions as to their duties. Knowing the interest that you take in school work, the Department feels disposed to leave the matter in your hands.

In reference to the mid-day meal I desire to say that it is the wish of the Department to furnish only a very simple lunch to supplement that brought from home by the children. I would ask you, therefore, to have Mrs. Macdougall report monthly, showing the cost of supplies used in the meal and the number of meals served.

It is hoped that Mr. and Mrs. Macdougall will be enabled to attain a large measure of success and, with your co-operation, which the Department is confident they will receive, good results are looked for.

As the school there is still being taught by R.Bear, Mr.Chisholm thought it would be as well for Mr.McDougald not to start teaching until 3rd. of January. Mr. McDougald inquired of Mr.Chisholm if he(Mr. McDougald) was to be supplied with light and fire - wood. I have no instructions to this effect. No. 117084/1. I have the honour to state that according to your instructions I informed Mr.McDougall regarding fire wood and coal oil, and I now enclose a copy of his reply. It seems to me a most unsatisfactory letter. I thought of going to Radisson to talk the matter over with Mr.McDougall, but on more consideration, I decided that it was hardly worth the expense, when he candidly states that he is merely moving to the John Smith's Reserve to ascertain whether the day school with the mid-day meal is a solution of the great problem of Indian Education", and again, " If there is friction of any kind, I shall immediately place my resignation in the hands of the Department". Regadding his remarks about coal oil and wood: I do not understand them, but think that he implys that they must be supplied or there will be friction. It seems to me that Mr.McDougall does not want to go, and that if he does he will be prepared to give day schools a black eye. It is all very well for Mr.McDougall to realize that we must work together, but when he lays down the law that there must be no friction, why, it means that my part of the work will be a farce. If not too late, I would suggest that an effort be

Dear Sir,-

Yours bearing No.184, dated December 3., to hand- Many thanks. What I wanted to get at was, whether you had made provision for the cooking of this mid-day meal to which you refer; that is, dishes,stoves, tables, seats, &c. Regarding the Educational part of it I fancy, with your experience and the length of years the school has been running , everything is in good shape.

As far as I am concerned I am receiving $350.00 more salary here. Good house, stables &c, and my purpose in going to John Smith's reserve is merely to ascertain whether the day School with mid-day meal is a solution of the great problem of Indian education.

I look to you for support and if there is friction of any kind, which I do not anticipate, I shall immediately place my resignation in the hands of the Department.

Re- coal oil and wood, permit me to state that while I am in charge of School, the pupils will have free access to my Study &c and will be instructed at night, consequently it seems that the matter of coal oil and wood should never have been considered.

I think it would be a good idea for me to go to Duck Lake and have an interview with you before assuming my duties. If possible I might accompany you to the Reserve. In many ways I realise that we will have to work together and your experience with the personal of the Reserve will be of benefit to me. I really want to give John Smith's a fair trial, and I am anxious to get there as soon as I can.

With kind regards,

Yours truly,

Right Reverend Sir,

Mr. Macarthur, Indian Agent, has forwarded to the Department a copy of a letter addressed to him by the Rev. Mr. McDougall, whose appointment as teacher of the John Smith's school was approved.

On September 8th Mr. McDougall wrote the Department stating that he expected to take up his duties at an early date. The letter above referred to shows that he is still at Radison and it may reasonably be inferred that the transfer to the reserve is not altogether to his liking.

Mr. McDougall's attitude towards the school and the work he will be called upon to perform as shown by his correspondence is such as to lead the Department to the conclusion that it would be undesirable to place him in charge on this reserve, and Mr. Macarthur has been advised by wire to inform him that other arrangements to fill the vacancy at John Smiths will be made.

It has been decided to offer Mr. and Mrs. Godfrey, of South Fort a la Corne, the positions of teacher and [redacted] respectively and, in view of Your Lordship's previous representations on behalf of Mrs. Godfrey, the Department has no doubt that you will concur in this action.

Mrs. Godfrey is being written to by this mail.

Madam,

The Department has decided to make new arrangements for carrying on the school work at the John Smiths reserve and wishes to offer the position of teacher and matron to Mr. Godfrey and yourself respectively.

As you are aware a new residence and pupils' dining-room has been erected on this reserve and the accommodation will, therefore, be ample and suitable.

An initial salary of $400.00 will be paid Mr. Godfrey as tacher, it to be understood that this retention in the position will be dependent upon the success with which he meets in the work and you will be paid at the rate of $300.00 per annum to prepare the mid-day meal with the assistance of the pupils and perform the usual field matron work on the reserve.

The Department feels that this transfer will be in your best interests and trusts that you will accept the position on John Smiths reserve and assume your duties there on the re-opening of the school after the holidays.

Sir,

In reply to the telegram sent you on the 15th instant in regard to the appointment of a teacher for the Jones Creek Reserve I beg to say that the proposal of the Department is to utilize the services of both Mr. and Mrs. Godfrey for a time at least in the work at this point. Mr. Godfrey with his wife's assistance will take charge of the school work and of course his retention in the position will be dependent upon the success with which he meets. Mrs. Godfrey in addition to this assistance will prepare the mid-day meal and attend to the usual duties of a field matron. The salary that has been offered for their joint services is $700.00, $400.00 to Mr. and $300.00 to Mrs. Godfrey. It was the intention of the Department to advise you as to this arrangement on the 16th when communications were sent to Mrs. Godfrey and His Lordship Bishop Newnham, but the matter was inadvertently overlooked.

Ottawa, Dec. 20th., 1910.

Right Reverend Sir,-

With further reference to the subject of my letter of Dec. 16th and telegram of even date, I have to inform you that the two paragraphs in the Rev. Mr. McDougall's letter of Dec. 7th to Mr. Macarthur which were unsatisfactory to the Department are as follows:-

"As far as I am concerned I am receiving $350.00 more salary here. Good house, stables &c. and my purpose in going to John Smith's Reserve is merely to ascertain whether the day School with mid-day meal is a solution of the great problem of Indian education.

I look to you for support and if there is friction of any kind, which I do not anticipate, I shall immediately place my resignation in the hands of the Department."

While in the close of his letter Mr. McDougall stated that he really wished to give John Smith's a fair trial, it appeared unlikely that he would face the many difficulties to be met with in the path of an Indian day school teacher if he approached them in the spirit of the paragraphs just quoted. There was nothing to show in Mr. McDougall's letter that he had broken up house, but he seemed to be as firmly fixed as ever at Radisson.

To;

The Secretary,

Department of Indian Affairs.

Ottawa.

Dear Sir;

re. Your letter of Dec. 16. and telegram of Dec. 20. 1910. Reference 117084/1.

Your letter to me (just received) re. Rev.R.Macdougall and John Smith's Reserve, and Mr. MacArthur's telegram to him, are inexplicable to me without knowing the previous correspondence to which you refer and I can not possibly let the matter rest as it is. ~~I have asked for the correspondence~~ I am writing to Agent McArthur, and also to Mrs. Godfrey telling her not to consider the offer to her till she hears from me that I consent. I am obliged to act in this manner, for your action, or Mr.MacArthur's has created a most difficult position. The I.D. has hitherto always consulted me in appointments and changes most courteously and I have always done the same by them. It is not to be accepted that the Agent shall step in between us and upset all arrangements. The appointment of Mr.MacDougall has been made for over a year, the delay until the last three months came from the I.D., not from us, there was never a hint given that you were not satisfied with his views and aims, or thought of reconsidering the appointment. Then, when he has resigned his parish and broken up his home, comes a wire from MacArthur, not from you, saying, "You can stay at Radisson; other arrangements made for John Smith's." You surely can see, Sir, that not only is this change an un-fair one, but the wording of the telegram is very nearly insolent. What has MacArthur to do with Radisson ? I can make arrangements for my parishes without the advise of an Indian Agent.

Let me recall the circumstances;-

1. The I.D. notified us that John Smith's was to have an "improved day school"

"improved day school" of the most perfect kind. This was early in 1909. The I.D. suggested, or else welcomed our suggestion, that Mr. nd Mrs. McDougall should have the appointment.

2. Then followed a disheartening delay, [redacted]. [redacted] My Indian teacher left, [redacted] and I had difficulty in securing him again. Mr.MacDougall was kept in anxiety; he did not know what to tell his parishioners; the rumour got out that he was leaving them. If Mr.MacDougall betrayed a little irritation in his letters (as you seem to say, if I understand) it was natural. Arch-Deacon MacKay and myself wrote to the I.D. at times, only to be assured that Mr.MacDougall was desired and all would be ready as soon as possible. Mr.McDougall offered to go at once and superintend the building, this was declined. I finally wrote that I must have the appointment confirmed or I must withdraw MacDougall's name. The appointment was confirmed. After some twelve or eighteen months we were told all would be ready in September 1910. Unfortunately Mrs MacDougall was in England, very ill (in hospital), and Mr.McDougall overworked and he could not face the change singlehanded. So permission was obtained for some delay. Finally it was settled that he should go just before Christmas, but Inspector Chisholm kindly advised Christmas at Radisson, and that the work should begin on January 3rd.; and he said he would so advise MacArthur and the I.D. There had never been a hint given that the I.D. was not satisfied. Then followed a short correspondence between MacDougall and MacArthur [redacted] faults, I daresay on both sides; [redacted] MacDougall [redacted] very foolishly said he would rather not accept if there was going to be friction over small matters (or some such expression). But he resigned his Church, broke up his home, sold his horse and made all preparations to go to John Smith's. Then came MacArthur's wire conveying [redacted] your decision, too hastily made, but conveying it in an un-necessarily rude manner. I think the I.D. should have at least consulted with myself or Arch-Deacon MacKay after all the correspondence and

correspondence and after the way in which we had waited on the I.D., and not acted on the Agent's side of the story;

Please note the following important points;-

1. Whether the Indian Agent or the Bishop is to have the appointment or the most influence over the appointment; if it is the agent I wash my hands of the affair. If has always been left to me, and my nominations have been courteously received, I have had to refuse to accept unworthy men nominated by the Agents from unworthy influences. I have always tried to meet the views of the I.D. headquarters. [redacted]

2. Up to just the last no doubt has been cast by the I.D. on the question of Mr.MacDougall's fitness. He and we have been told to prepare for his taking up the work at once. Then on the strength of friction between him and the Agent, he is suddenly and without any hearing or notice, thrown out.

3. He has been arranging his work for twelve months past with a view to John Smith's; he has as I say, given up home and parish. If not appointed he is at great pecuniary loss. [redacted]

4. (The appointment of Mrs.Godfrey). Without any consultation with me, any notification even that my nominee was not acceptable, simply on the suggestion of the local Agent, an appointment was made. This is contrary to the whole proceedure in the past and to courtesy. In your letter of the 16th you tell me of this appointment, refer to my past commendation of Mrs. Godfrey, and you anticipate my approval. I cannot approve. Big Head Reserve and John Smith's Improved School are very different propositions.

5. I consider that the MacDougalls are far more suitable than the Godfreys. Your reference to my previous representations is hardly fair. Mrs. Godfrey is a splendid teacher but not a nurse and Mr.Godfrey is as yet, no teacher. You propose to make her Nurse and Matron and him the teacher. MacDougall you know is a foremost

foremost teacher, Mrs. MacDougall was a trained Nurse. I recommended them as the best I could hear of for Sturgeon Lake, or Sandy Lake, where you did not them propose as great things as for John Smith's. I pointed out that Mrs. Godfrey was the teacher, but that Mr. Godfrey might learn from her and set her free as Matron, ect. Mrs. Godfrey is a splendid woman and deserves well, Together, they may do fairly well, better than some, but not equal to the MacDougalls and I must object to their being placed at John Smith's in place of the MacDougalls.

In conclusion, I regret the disagreement between us and must ask that you will reverse your decision. I blame no one - though I have my opinion - but I deprecate the hasty decision. I have always tried to work in co-operation and alliance with the I.D., especially as represented at Ottawa; but I can not consent to be at the orders of the Indian Agent.

I am sincerely desirous of the best welfare of the Indians and I have learned by experience that this is not always so with the local Indian Officials. Correspondence takes time. The School is suffering by being closed, and our plans are at a standstill. I therefore ask for a speedy decision and notification by telegram.

I have the honour to be, Sir,

Yours faithfully,

J. A. Sankatchewan

Sir,

I have to acknowledge the receipt of your letter of the 22nd instant as well as that from Mrs. Godfrey accepting the offer of the Department to undertake the work of ~~fix~~ teacher and field matron respectively on the John Smiths reserve as conveyed to you in official letter of the 16th instant.

In reply I beg to say that after making this offer the Department was informed by His Lordship the Bishop of Saskatchewan that the arrangements for Mr. Macdougall's transfer to the John Smiths reserve were so far completed that it was impossible to change them and make others. In a letter recently received from His Lordship he advises the Department that he informed you not to consider the offer pending the receipt of his consent. Under the circumstances the Department must, therefore, withdraw its offer at the present time.

Referring to your letter of

I at once wired Rev.Mr. Macdougall that other arrangements were being made for teacher at the John Smith's Reserve and that he may remain at Radisson. I had arranged to leave here for La Corne on the 19th., but in case Mr.Macdougall should reply, I waited until the 20th. On reaching Prince Albert on the 23rd.inst, I found that I had unintentionally raised a hornet's nest about my ears; that Inspector Chisholm, Rev.Dr.McKay and Mr.Macdougall had been to call upon me at the Agency. Inspector Chisholm asked Clerk Campbell to have copy of my correspondence with Mr.Macdougall sent to Prince Albert so that we could discuss the matter when I reached there. This was done.

As it may be thought that something said or done by me caused Mr.Macdougall to write his letter of 7th.instant, in justice to myself, I attach a copy of our correspondence.

On my return here on the 24th., I received a letter from the Bishop of Saskatchewan. I acknowledged receipt of same without comment other than that it should have been

In reply to yours of Nov. 24. Accept my thanks for good wishes. And I sincerely hope that I shall be able to repeat my successes elsewhere in your Agency. I have a letter from the Bishop telling me that it might be as well for me to remain here until after Xmas, and begin my duties on Jan. 3. I may say that this was after an interview he had with Inspector Chisholm, who suggested this. I shall be there as quickly as possible, in time to open school for the New Year. In the meantime I would like to hear from you and ascertain full particulars re- equipmwnt of school, &c.&c.

Dear Sir,- Referring to yours of 1st.instant-
I expect to be at the John Smith's Reserve next week andgx and again in the last week of the year or the first of the New Year.

I do not understand what you want to know about the equip - ment of school. The school is now open and has been for years. Any equipment that may be short, and that you will consider neccessary, will no doubt be supplied by the Department. For preparing and serving the mid-day meal for the children, some equipment will be required, but I thought that could be got after your arrival and after discussion with Mrs.Macdougall and yourself.

Inspector Chisholm informedme that you expect to be supplied with wmmx firewood and coal oil and I wrote the Department for instructions. The reply is as follows;-

" I have to acknowledge the receipt of your letter of the 12th instant, and in reply I beg to say that when the appointment of Mr. Macdougall and his wife as teacher and matron respectively on this reserve was under consider- ation it was finally decided to set a fixed rate of pay without rations, if a convenient residence were provided. The Department has erected the building and it is thought that the rate of pay granted to Mr. and Mrs.Macdougall is very fair. In view of this fact it is not considered advisable to allow any rations whatever, not even in the way of wood or coal oil.

You will be good enough to advise Mr.Macdougall accordingly. "

Of course, such wood as will be used in cooking the mid-day meal will be supplied by the Department.

Dear Sir,- There seems to be a misunderstanding over our correspondence. I have not a copy of my last letter here, and consequently cannot refer to it as intelligently as I would with, but permit me to state: That I really had no intention of offending anyone, particularly you.

That I had not thought of resigning and would not have done so under any circumstances as I had given up everything here to accept the position at John Smoth(s.

Regarding the word "friction" what I meant was that if the Department and myself could not work amicably I would resign, and I think you would honor me for it, but I would of course give no cause for complaint nor do I anticipate friction.

And I may add, particularly with you, as I know that you are interested in the education of the Indian and would go far to help one who has the same interest as yourself.

Re- oil and wood. I never made it an issue- I spoke to Mr.Chi Chisholm, and do not know whether he reccommended it or not. He, I think, referred it to you. Re- anything I said respecting salary. I had accepted all the the Dept's terms, and I wished to convey the idea that my motives were not entirely mercenary- And they were not- . I love the Indian work and in consequence, I threw up my position here and broke up my home to go to John Smith's.

I trust that you will do what you can to rectify matters. If not, xxx a great injury will be done one whom I know you would neverx have trouble or friction with.

Yours Sincerely,
(Sgd.) R.F.Macdougall.

P.S.- If you wish to see me, wire and I can come & explain more fully.

Dear Sir,

I beg to add the following to my letter re, Sandy Lake & Mr Hutchinson, or another matter.

I trust Rev. Mackay visited Jno. Smith's Reserve, early in Jan'y, & found the Mac[illegible] doing, as we expected, capital work. He had thrown himself into it in his old style, & all was running smoothly & well.

Unhappily, since that, his little Son developed diphtheria, (from germs in some infected clothing, I think).

Of course that has stopped everything, I suppose; for the doctor would not run any risk of its getting among the Indians. I have had no news since.

I am sorry to say Sturgeon Lake School is still closed, & I can not hear anything of that Mr Eaton whom you appointed, on my recommendation. He wrote to me from Edmonton that he would come here directly after Christmas. I have heard nothing further, & can not find him. I know of no other possible teacher as yet, but am enquiring. -

Yrs faithfully

Rev. Sir,

The Department is in receipt of the quarterly return showing the attendance at the John Smith's school for the quarter ending June 30th, last.

The large average attendance maintained is highly gratifying to the Department and it is sincerely hoped that future returns will be equally satisfactory.

Dear Sir,

I am in receipt of yours of the 14th inst. No 117084/1 in which I am pleased to note the attendance at our new Day School here.

I am deply allowed to thank you for your kind words and to state that I shall do my best to keep up the high water marks in average and also the general tone of this School.

I beg also to state that Mrs Macdougall and myself are indeed pleased at your acknowledgement & kind notice of our work.

Rev. Sir,

The Department would be very pleased to have from you at your earliest convenience and at regular intervals hereafter reports upon all the features of the work of yourself and Mrs. McDougall on the John Smiths Reserve.

The quarterly returns from your school show a decided increase in the attendance and no doubt the other features of the work also show a corresponding improvement.

Extract from Agents Report of the John Smiths Day School
fot the month of October, 1911. Original on file 117034-7

I dropped into this school on the morning of the 26th of October and found a clean, well kept school room. There were in attendance 28 children. To accommodate these the school should be enlarged: The children were comfortably dressed and clean. I spent some time in the school room, and noticed that from the youngest to the oldest, the teacher had them interested in their work. The mid-day meal for this large number of children is quite a task for Mrs Macdougall and she should have assistance. I would have brought this matter up before now, but did not feel at all sure that Mr Macdougall could keep up such a high average. Doubt regarding that has passed and she should be put on equal footing with the other teachers viz.- $10.00 a month for assistance.

There is one other matter which I refer to; that is that the cost of the mid-day meal is high in comparison with either La Corne north or south, but 28 healthy children, when they get a clean appetizing meal, eat a great deal, and from my own observation there is no waste.

Ottawa, November 29, 1911.

Sir,

I beg to refer to your report on the John Smith's day school for the month of October in which you recommend that assistance be provided Mrs. Macdougall to prepare the mid-day meal. One of the expressed reasons for asking for this assistance is that Mrs. Macdougall should be put on an equal footing with the other teachers.

It must be remembered that the other teachers to whom you refer are engaged in the class-room work and that the preparation of the mid-day meal was an additional duty assigned to them. Having this in view the appointment of some help to prepare the meal was necessary. On the other hand Mrs. Macdougall is not engaged in the ~~same~~ class-room work and her appointment was as field matron, one of her duties being the preparation of the mid-day meal. The Department, however, recognizes that there is a large attendance and in view of the satisfactory reports that have been received is disposed to make a small allowance for some help in this work. It is thought, however, that $5.00 should be sufficient to meet the expenses. I shall be glad to hear from you again before taking final action.

Dear Sir:-

Re/ Rev. Mr. McDougall.
John Smith's Reserve.

The Reverend Mr. McDougall is the School Teacher and practically the Farm Instructor at John Smith's Reserve and is only gets, I understand, $700.00 for this work.

He claims that he has raised the school from an attendance of 5 to 30 since he took hold of it.

Mr. McDougall has a wife and three children.

In view of the fact that he is School Teacher and does the work of Farm Instructor as well, I would ask that he be allowed a salary of $1000.00 per annum.

Yours truly.

MEMORANDUM -

Mr. Pedley:-

Rev. Mr. McDougall and his wife receive respectively $600.00 and $300.00 for educational work on John Smith's Reserve. This is a total of $900.00.

Since we dispensed with the services of Instructor Campbell, we have no Farm Instructor on the Reserve. It was thought at the time this action was taken that we did not require a Farm Instructor on this Reserve, and Mr. McDougall could perform any service that were necessary, and as a matter of fact he has been acting under the instructions of Agent MacArthur, or looking after any general business for the Reserve. I think we could well afford to pay him $200.00 or $300.00 from Vote 11. I think the matter should be referred to Agent MacArthur and the Inspector.

Sir, -

Referring to departmental letter of the 19th ult., relative to the application of Rev. R. F. McDougall, of John Smith's reserve, for increased remuneration for his duties, I have the honour to report as follows:

Mr. McDougall continues to discharge his duties as teacher on the whole with marked success. It is true his methods in some subjects could be improved, and he devotes a large share of attention to drills and other physical exercises intended for display in the presence of visitors; but he has also kept in view the educational value of these exercises, and the advantage to be gained from their use in drawing out timid and self-conscious Indian children and leading them to forget themselves. By these and similar means, too, the daily routine of the school is so varied as to become thoroughly enjoyable to the pupils; and as a consequence they come to school cheerfully and regularly, and with remarkable punctuality at the hour for opening, 9 o'clock.

A new school building was not by any means indispensable here, as the old one is fairly comfortable, in good repair, was provided with a new and well-constructed porch within the past few months, and affords something above the minimum floor-space and air-space. It is, of course, heated by a large box stove; and in winter, when this is in use to its full capacity it is clear that the work cannot be conducted with the same convenience and advantage that will be

afforded in the new and up-to-date building that is now in course of construction; and with such guarantee as the Department has in this instance of the improved facilities being xxxx utilized to full advantage the expenditure cannot be deemed unwarranted.

As for the work of the reserve, it is necessarily directed by the teacher mainly from home, as he has but a limited time after 4 p.m. and on Saturdays to go abroad, which is especially true during the short days of Fall and Winter. I found Mr. McDougall, however, fairly well informed regarding the work of the Indians and the state of affairs generally throughout the reserve; and his counsel to the Indians in connection with their industries has certainly been more effective thus far than that of any farmer on this reserve for many years past. In the matter of grain growing there is this season a considerable increase in acreage; and during the summer more plowing has been done than in any other season for some years. Mr. McDougall does not attempt to direct the farming and live stock industries in detail; but he keeps a general supervision, and for the most part the Indians listen to his advice and encouragement and follow it cheerfully.

In his capacity as farmer, teacher and missionary Mr. McDougall has exercised a noticeable influence over the younger and middle-aged Indians in regard to temperance, which it is to be hoped may be lasting.

I may mention, though not directly connected with the present question, that as matron and nurse Mrs. McDougall is constant in her attention to duty, and a great help to Mr. McDougall in his management of the school and the reserve. Both Mr. and Mrs. McDougall are now well tried in Indian work, and there is little room to fear any decrease in their efficiency; and I accordingly consider the conditions would justify some allowance to Mr. McDougall for his duties in the supervision of the reserve.

Mr. Pedley:-

In connection with Inspector's Chisholm's letter of the 21st October in which he recommends the payment of some allowance to Rev. R. F. McDougall, who is stationed on John Smith's Reserve as School Teacher, I would refer you to my memorandum of August 15th, last. There I stated that we could afford to pay him $200.00 or $300.00. The Inspector has given a favourable report, and it is my opinion that we should grant Mr. McDougall something for his services in the general management of the Reserve. We have him alone to depend on to make returns and to give the Indians needed advice. We do not require a farm instructor at this reserve but some one who will represent the Department. As Mr. McDougall has performed this duty satisfactorily, I think we should recognize it by paying $200.00 a year from the 1st of September, 1912.

You will notice that James McKay, M. P. recommended this increase in his letter of the 9th August last.

Sir,—

When at John Smith's Reserve last week, Rev. R.F.Macdougall brought the matter of conveying the children to school during the winter months, to my attention.

I have the honour to state that Geo.Crane (Treaty) agrees to drive the children, with his own team for $2.00, but Mr Macdougall who has only one horse, suggest that another be given him, which I beleive I can find on the Agency, which would make himm a team, and that Gilbert Bear to use this team for driving the children, which he agrees to do for $1.50 a day, or 50¢ less than the first offer,which allowing 120 days as the average number of school days the children have to be driven would mean $60.00 gain. This amount saved would be more than sufficient to pay for feeding the second horse.

Mr Macdougall also says that he could have the freighting for this reserve,done with this team & ploughing etc, which amounts to a large sum in the year.

I think this suggestion of Mr Macdougalls is quite good and would recommend it to you, through I must say while dealing with the question that we will have to purchase Mr Macdougall a set of double harness, the cost of which will be about $45.00 or $50.00, should you decide to give him another horse.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd ultimo in reference to the transport of children on the John Smith's Reserve to school.

In reply I beg to say that this is the first intimation the Department has had that it will be necessary to make provision of this kind on the John Smiths Reserve and, before taking any action, full details will be necessary. I am enclosing herewith a plan of the reserve, on which you will be good enough to locate the position of the school and also of the homes of the Indians from which children are attending, showing the number of children and the approximate distance in each case. You should also state whether there is any reason why the Indians living at a considerable distance from the school should not be expected to convey their own children during the bad weather in the winter months, bearing in mind that the Department provides a warm mid-day meal for them. I may say in conclusion that the Department is not disposed to incur the comparatively large expenditure necessary to carry a plan like this into execution unless there are good and sufficient reasons for adopting it.

I have to acknowledge the receipt of your letter No 117084/1, dated December, 3rd, respecting the conveying the children to school at the John Smiths reserve.

In reply, I have the honour to state, that when in conversation with the Rev, Mr Macdougall on this matter I understood, & have been informed that this was a practise of the Department which has been in force during the past two winters. See page 6 Feb. 1912, #48, & May 1910. And as it seems to be considered by all, a sucess, it became a foregone conclusion that the Department would continue this work, both at John Smith's & James Smiths.

In the case of James Smith's, I have already received an account for drawing the children to the north school, although this is a matter which I have not issued any instructions upon, it would seem as if it is necessary.

I am unable to give, at the present moment, the distance & details of the plan, as I understood that it had been well worked out last winter, & of course considered that Mr Macdougall would direct the work to be done, in what has already been found the most suitable way, I am however communicating with Mr Macdougall obtaining the information that is required.

Right Reverend Sir,-

I have the honour to inform Your Lordship that arrangements have been made for the appointment of Mr. Campbell, formerly clerk as the Duck Lake Agency, to succeed Mr. Gentleman.

The first suggestion was to send Mr. Gentleman to the South Fort a la Corne School, but in view of the resignation of Rev. Mr. McDougall and Mrs. McDougall at John Smith's, which the Department regrets he insists in adhering to, it is considered that it would be well for Mr. and Mrs. Gentleman to go to John Smith's, where the accommodation is much more suitable. I would ask Your Lordship to communicate at once with the Agent and if this is satisfactory to so advise him. My Dear Sirs,

Your letter of the 12th, inst. reached me this afternoon, and I must explain the reason of my wire. Mr Schmidt desired us to leave as soon as possible, and in the absence of instructions proposed to wire for same; as the Department were not aware of the circumstances I thought it best to explain.

I will remain in the office this week, Mr Campbell will arrive on Tuesday, and we will move next week. As John Smiths is half way to La Corne, by the time we reach the former place Mr Macdougalls arrangements will be completed.

I must thank you for the detailed instructions forwarded to the Agent. I regret the circumstances that have made this change necessary, and desire to express appreciation in the manner the officers have dealt with the different matters in connection with the Agency during the past winter. At times it has been exceedingly difficult, but I have endevoured to keep matters running correctly to the best of my ability, and I believe the Dept have been anxious to assist.

Either at La Corne, or John Smiths, being more on my own, I will have interest in my work, and I trust results satisfactory to the Departme will result.

Yours very truly,

J. B. Gentleman

Prince Albert, Saskatchewan.
June 5, 1913.

Sir,

I have to inform the Department, that according to the recent instructions, I left the Duck Lake Agency on the 27th, putting Head rended John Smith's two days later. Mr Schmidt gave me the use of two teams, and hired an ox team for the transfer.

Mr Hedley will tells me that he would like to remain until the end of the present quarter, he came into Prince Albert with me, and we talked the matter over with Mr Thiholm in the latters office and it was decided that it would be best for us to remain in the old schoolhouse until Mr Woodrugalls arrangements could be completed. This will give me a months holiday and I desire to know if the Department could consider the matter of salary during this period. I have been working since February 1913, and as the John Smith's school children have had a couple of months enforced holiday during the recent small-pox, I would like to start work about a week after Mr Woodrugall leaves. Of course I understand that it is not correct to work the school during the hot summer, but under the present circumstances I think it might be allowed. If the Department could make me an allowance of salary for June I would be willing thus to pay the transfer expenses, also remain at John Smith's during the end during which Mr Woodrugall would I hope be able to give me a good idea of the different matters in connection with the reserve. I would have stayed longer at Duck Lake, but Mr Campbell required the house, also rather be on the Agent did not consider it necessary. I will not send in account of the transfer expenses until I have heard from the Department. The letter should be addressed to Duck Lake, P.O,

I have consulted Mr Thiholm respecting the Overseer work on the reserve, and he will communicate with you regards this matter. I would be glad if you could forward Irvine's letter to him on this matter, He could communicate to them to me Schmidt, and it be a matter which I would like handled on through his office as he understands the situation better.

Yours truly,

Sir,-

I have to acknowledge the receipt of your letter of the 6th instant, and in reply I beg to say that the Department considers that it would be advisable for Mr. Macdougall to remain at the John Smith's School till the end of the current quarter and will grant you a months leave. The Department will arrange to pay your salary for the month of June and your duties as teacher and overseer on the reserve will then commence on the first of July. Owing to the fact that this school was closed so long during the epidemic of smallpox the Department wishes that you would arrange to open school at least on the first of August. This would be allowing you June and July as holidays, the usual two months granted teachers.

The Department also will pay your removal expenses upon presentation of accounts through the office of the Indian Agent.

Your obedient servant,

Asst. Deputy and Secretary.

Sir,—

I have the honour to inform you that I am in receipt of a letter from Mr. P.H.Gentleman, late clerk at this office and now of John Smith's Reserve, informing me that he has received a letter from the Department, dated June 14th., No.118088-1, which states that the Department is allowing his salary for the month of June; also that his transfer expenses will be paid, and that his work as overseer and teacher will be as from July 1st.1913, and that school will be opened on August 1st.

I am awaiting the Department's instructions with regard to his salary before sending in a voucher for same, as I do not know in what capacity or the amount he is to be paid. If Mr. Gentleman acts as Overseer, is he to receive $200.00 per annum, as was paid Mr. Macdougall, besides his $600.00 per annum for teaching school.

117084½

I am enclosing herewith his transfer account with receipts attached. Three teams were needed; two of which were Agency teams, one driven by F.Bruce, Interpreter, and the other by Charlie, a man engaged for that purpose. The other, Walter Littlepine, is an Indian of Beardy's Reserve.

Sir,— With reference to that part of your letter of May 12th., No.118088/5 whichm reads " If Mr. Gentleman goes to John Smith's Reserve he will be paid the same salary as Mr.Macdougall,viz.-$600.00 per annum and his wife will be allowed $300.00 per annx annum provided she continues the field matron work as at present being performed by Mrs.Macdougall". I have the honour to inform you that when at John Smith's reserve last Monday, while conversing with Mrs.Gentleman she informed me that she was willing to to assist the doctor and issue cough medicines , castor oil, salts and other ordinary medicines,but did not wish to dispense drugs or fill doctor's prescriptions, as has been done in the past by Mrs. Macdougall who is a graduate nurse and,I believe, a druggist.

I would be greatly obliged if the Department would inform me what the duties of a field matron are.

With reference to your letter No 118088/5 of May 12th to Agent Schmidt, a copy of which was forwarded to me, and the paragraph at the end "My wife will be allowed $300.00 per year provided she continues the field matron work as at present performed by Mrs Macdougall, I wish to call the Departments attention to the fact that Mrs Macdougall is an qualified nurse with considerable hospital experience, and since she has been here appears to have carried on a very considerable amount of hospital work that only a person of considerable experience could undertake.

When I made an application for a transfer to a reserve I was aware of this condition of my wifes duties, and am prepared that she should undertake a general oversight of the sickness on the reserve the same as that done while we were at La Corne, and I think that this must be the intention of the Department, the fact Mrs Macdougall, being fond of work of this nature and has given it more time than the Department are aware of, should not require us to continue same as being performed by her. I mention doing more work than the Department are aware of because the allowance of $300.00 is the same as that allowed at La Corne.Of course I am allowing for the larger number of people here than at La Corne, but even so Mrs Macdougall seems to have attended to all kinds of cases such as Typhoid etc, not only giving out medicine but going to their houses and staying with them nursing, providing eggs and milk, also one one or two occasions washing the feet of those infected with

with consumption. Mrs Macdougall has also made up the Doctors prescriptions. My wife is not able to do this, and I fancy that this is more than the Department require. Both my wife and I are able to attend to ordinary ailments, simple accidents, in order to keep good health on the reserve, and know when the Doctor is necessary , and I gathered in the past that such, with good common sense came up to the requirements of the Department.

Agent Schmidt visited the reserve yesterday and this matter was mentioned, the Departments paragraph in the letter quoted, was called to my attention by him; and he will be asking the Department to give a ruling to what extent the matrons duties go.

While on this subject I would like to refer to the recent circular sent to the Agent respecting the Indians paying for their own Doctors visits, also the large number of drugs, with heavy accounts supplied for this band by Mr J. Stewart the druggist of Prince Albert, and say that it appears to me that some of this expense could be cut out, if the Indians were given to understand that it is necessary. The more it is encouraged the worse it will be and the band should not need it, they are better off than most bands and are close to town, and if instructions are given to the Agent to such effect I think I can, at least lower the drug bill.

We will, of course, see that there is no suffering of any kind, and the Doctor sent for when required, etc, and such, with the management of the childrens midday meal should will cover the matrons duties at the rate of salary named. Mrs Macdougall appears to be under the impression that her salary for this work would have been $500.00, and if I might say so, the amount of work she has done along this line, would call for that amount.

Sir,-

I have to acknowledge the receipt of your letter of the 30th ultimo in reference to the duties of Mrs. Gentleman as field matron on the John Smith's Reserve.

In reply I beg to say that, in view of the circumstances, the Department will not expect Mrs. Gentleman to perform all the duties that were given attention to by the late field matron, Mrs. Macdougall. She should, however, attend to the preparation of the mid-day meal and should do a certain amount of work among the homes of the Indians, giving where possible practical instruction in plain cooking, washing, sewing, mending and making over of garments, ventilation, cleanliness, home treatment of common diseases and rules for the treatment of emergency cases, as well as other granches of knowledge essential to the proper management of the home. Mrs. Gentleman should make short monthly reports on her work.

Sirs :-

I beg to submit herewith a copy duplicate of my diary of work done at this reserve during the past month showing all that both my wife & I have been busy from daylight until dark.

I must refer to the Supts. letter No 118088/1 of June 14 in which it was stated that arrangements would be made in connection with my Summer salary. I regret to say that this has not yet reached me and as my expenses during the past two months have been heavy. Expenses that we cannot very well charge up to the Dept. such as spoiled clothes & damaged furniture in taking trips into town, etc that I have an overdraft at the bank, & a cheque has not been already mailed I would be glad if it could be forwarded.

The Inspector Graham arrived Yesterday a few minutes before noon. As he did not wish, nor have time to go into details I informed him that "the Dept. had already some of my correspondence with regards my views on the Suitability of the Agent. To which I had nothing to add or withdraw". I beg to crave to make a correction. One of my letters addressed to the Privy Council on the subject brought an answer from that Gentlemans Office, and another brought an answer from the Rocher's Office. These letters no doubt the Dept can obtain if necessary.

I may add that I was not with any disrespect to the Officials of the Dept that I addressed the Prime Minister, but an effort to draw the Government attention to a clearly Political appointment of an undesirable man, in face of the recently published Report of Sir George Murray on the affairs Civil Service. The Dept will understand and take into consideration the circumstances at such Lake between October & March last.

I am afraid that Mr Graham was not very well satisfied that he had to go away without other information. The thing would take two or three days to look into properly, but it is foolish to expect things like this can be done in an hour, with lunch & a seven mile drive thrown in - Even in a motor I do not think a more awkward time could have been chosen. I have been up since five daily for a month working till 10. Recently been just to a big expense in connection with the mare, Salary cheques behind time, & when the Inspector arrived was cleaning out the old stable, in old clothes having already been inconvenienced by three Sundays, & my wife endeavouring to get some washing done I having been enjoined to do many of the past Commandments.

Mr Christian will communicate with the Dept with reference to Labour

September, 19. 1918.

Sir,

445615

I am in receipt of your [illegible] No. 17084/1 of the 9th, inst. respecting the opening [illegible] School here on August 11, and in reply I must state that I regret that the Department should have gathered from my report that the Class room work is dependent on the mid-day meal,as this is not so.

At the same time, in reporting the matter I may not have made the circumstances quite clear, and I beg to submit a further note on the matter. As the Department are aware, at the beginning of July also on the first of August I issued a much reduced ration to the widows and destitute which in itself caused much discussion on the reserve, at the same time I refused entirely to ration the working Indians that were putting up hay which was the cause of more difficulty and I had quite a hard job to convince these people that they must not expect the Department to provide for them, so much in this way.

Now, the childrens dinner was not expected to be reduced, and it did not seem to me to be wise to cause further disfaction among the people by not providing the usual meal, and as I could not do this I thought the matter best overcome by allowing them another weeks holiday, as the only provisions on hand was flour. Now,we could not have made a satisfactory meal out of flour alone, and in taking the course I did, I did not lay myself open to more disputes on reduced rations. The children would have noticed the better meal the following week which would have given the impression that a point had been gained, and this was not necessary.

I would add that Mr Macdougall would have purchased fresh beef in Prince Albert under similar conditions, but I had no

thority to do such, and if I had done so, the Duck Lake office would have returned the account to me asking why such a thing had been done, and the extra weeks holiday did not appear to me to be of sufficient importance to give cause for this. It was not as if I did not put in an appearance at the reserve until that date, Our time was more or less occupied all June and July here, and as Mr Macdougall did not leave this house until the latter part of July we were in somewhat of a muddled position, still on Aug, 1st.

I would also like to add, if I may be permitted, that I had several talks with Mr Macdougall on this subject, the non arrivial of supplies, He considered that the school work was quite important enough to warrent him purchasing on his own account without authority. The subject interested me as on several occasions while at the Duck Lake office it fell to me to write a reasonable letter of explanation in an effort to get an account of this kind passed. Mr Macdougall also remarked that if the Agent could not, or would not see that supplies were on hand when required, and after having good notice, it was up to the man in charge to go ahead on his own account.

On the other hand, Mr Inspector Graham when here, informed me that if the Government saw fit to appoint a man who was not onto the job, I was not in any way to exceed his authority or instructions no matter what they might be, otherwise if this was not satisfactory to myself, I was quite at liberty to leave the service.

However on matters of this kind, I must assure the Department I will use very careful judgement, giving full consideration to the circumstances at the time, I have no desire to act against Mr Schmidt's wishes in anything, but I think if the Department more fully understood the conditions they would see that sometimes it is not wise to carry out instructions exactly to the letter, when such are given from so great a distance.

I desire to bring to your notice a remark made by Mr Chisholm on his recent visit, in which it was stated that the children did not seem to come to school so punctually as when Mr Macdougall was here. I do not think there is any difference myself, as I observed them very carefully during June while living in the old schoolhouse.

They are not however as punctual as I would like, & I think if we had a clock in the schoolhouse so that they could see the time it would help to overcome this difficulty. A suitable wall Clock could be purchased for $6. or $7, or a "Big Ben" for half that amount, either of which would be in keeping with the rest of the building, and I would be glad to know if one might be purchased.

Sir,

I beg leave to submit herewith a report on the affairs of this reserve in general, and more particulary in connection with the school, also the work of ex-pupils.

As the Department is aware the reserve is about eighteen miles from the city of Prince Albert on the South Saskatchewan and is splendéd farming land. Most of the men who are farming are ex-pupils of the Battleford school, or the recent Emmanuel College in Prince Albert, also the half-breed element being very strong make the people here, in my opinion, somewhat in advance of those of James Smiths or Beardys band, but while they have cultivated a good deal of the white mans ways for their good, they have also learned much in the wrong direction which makes them a difficult people to deal with.

In the school, most of the childrens parents are ex-pupils of the Battleford school, or have had some connection with the Boarding schools and the result is very encouraging. The children come to school clean and tidy, nor do they have the odour of skins & for that is general among the Indian. I find however that they are not so advanced as I expected, but they readily respond to direct teaching with the blackboard and large pictures. I have a large class of young children between six and eight years of age whom I am successfully teaching to read with the aid of very large beautifully coloured posters : the third and fourth grades also making headway with the aid of the London Daily Mirror, the illustrations therein being much looked for each week.

In Arithmetic I have strictly confined myself to Addition, subtraction, multiplication and division for the whole school, but the elder childre will advance in this from now on. I find them all backward in Arithmetic

With regards the attendance, the girls are very regular, but the boys have often been kept at home to assist with the haying. This is a difficult matter to deal with, no doubt the elder boys are a help but I am endevouring to impress upon the parenst that this is not approved of. I would suggest that with a reserve of this kind that some form of Application for admission, also discharge be put in force and let the parents well understand that no assistance in the way of a grant would be given to a pupil of the reserve school unless the attendance is satisfactory, also such grants should be made as soon after the pupil leaves school, as possible. At present the boys casually drop out at about thirteen or fourteen, then hang around doing very little for four or five years, whereas if it was possible to keep them for a proper discharge at sixteen, they could have a year or so at home, and then settle them down a little.

The question of ex-pupils assistance and advancement is a very difficult one, and I would mention two instances of what has been done here this summer. One man George Crain who must be twenty-six or seven this year spring received sufficient seed wheat for five or six acres. This was sown, but never fenced, and no thought seems to have been given to this. The man put up a little hay for the loan oxen he has, also has the Department waggon on loan, most of the summer, but his whole seasons work does not amount to a row of beans. Certainly his wife has been slowly going blind, I sent the man to Dr Strong with her but he went several time to an Eye Doctor in town paying from $2. to $3. a visit, but afterwards coming to me for rations being quite destitute for the time being, and appealing to Mr Chisholm for cash in town. I might also add that a local harness man approached me for information as regards Georges crop as he had a note of $30.00 against him of some years standing. The Bank of Ottawa, I am told by their accountant advanced Crain an amount, on his note, also some years back

but I was not informed of the amount. The man now says that it will be necessary for him to go out and hunt this winter, and is going to Cumberland. Who is to take care of the loan oxen, it is difficult to say, also there are two bright little children that should be at school, and who will quite likely not surive a hards winters hunt.

Another case of an ex-pupils work is Harry Badger. This man put in a small crop, and left it to go to the Pas. One of the old widows hedged it with brush, and rails tied with string. The man returned a month ago. The oxen provided for him where very old and slow, and the excuse was that they were too slow. The Agent sold them at the sale, and bought a fine pair of steers from Robert Bear H.M. raising three, for him, which he now claims he cannot break. This might throw another yoke on our hands to see throwgh the winter, as Badger also finds it necessary to go hunting.

There are six or eight young men around between the age of sixteen and twenty whom applications for grants will come from within the next few years, whom, if the Departrent approves, I would like to help as follows. If a couple of $50.00 grants are to be made next spring, might Could I get these young men to attend a night school twice a week during the winter, and let them understand that the grants would be made to the man making the best showing. I would give them some carefull talking, and advance their Arithmetic etc, and talk plans for the summers work. Perhaps the Department might be able to offer a bridle, or tools as a prize outright, I feel sure that there is good material to work on, and that one of the mistakes is that an assistance grant is made without showing the Indian that some interest is taken in the manner he makes use of it, other than getting the repayments made. I fancy I could reach these young men in the way mentioned if allowed, and the grants made in spring in this way.

Respecting the work of the other men, they have had a very fair summer. The grain has ripened good, and the hay has been fairly plentiful on the high land, but this year is the first that the working Indians have not received rations and they have sold a large amount of same in Prince Albert. It is possible that some of them have not provided sufficient for their cattle for the coming winter, but I have got hem to understand that the Department will not ration able-bodied men. The recent visit of Mr Chisholm was very sucessfull in this matter as the younger men reminded the Chief of the treaty, who informed them that rations were promised for three years which had long since past.

Up till now there has been no case of serious illness among the people. The Doctor has been out two or three times, and my wife has visited most of the houses, and endevoured to impress upon them the importance of keeping things clean and tidy etc,etc.

I think we should assist Jeutleman a little more we can be more at liberty a little while

Sir,-

I have to acknowledge the receipt of your letter of the 4th instant, and in reply I beg to say that the Agent is being written to and authorized to purchase a "Big Ben" clock for use at the John Smith's School.

Your other communication of the 1st instant in reference to ex-pupils has also been received and the contents noted.

With regard to Crane's oxen you should report the circumstances to the Agent so that arrangements can be made for the care of these and also of the yoke of steers provided for Mary Badger.

I may say that the Department is not prepared to adopt your suggestion to issue applications for admission to and discharge from the day school, as is done at boarding schools.

With regard to the young men for whom application will probably be made for advances for assistance next year, I beg to say that the Department approves of your suggestion in regard to the night school, but is not prepared to say that only those making the best showing should receive assistance, as this alone could not be considered

Sir,—

In connection with the quarterly return of the John Smith's day-school , enclosed herewith, I h have the honour to inform you that the teacher, Mr. Gentleman, states that his reason for not opening school until 11th. of August was that "he had no bacon on hand for the mid-day meal. On July 23rd. I shipped a case of bacon for this reserve , part to be used for the mid-day meal. This was stolen from the case while in transit. I was advised of this by the C.N.Ry.Agent here , when I immediately shipped another case on the 29th.of July. It is evident that the second case did not reach the reserve until the 9th. of August.

In speaking with Mr.Gentleman re-the delay in opening school , he said that he expected that the Department would take exception to the fact, that having only flour, and being a new teacher, he did not wish to commence by giving a poor meal.

....

Under these circumstances I would be glad if the Department would take up with the Agent the question of conveying the children to school during the winter months, as it is possible that the Agent will not think of this until quite late, and it is a matter that very much depends upon the weather. I gather from the Rev. Archdeacon McKay who was here last week with the Bishops of Montreal & Saskatchewan that the Department would continue to undertake this as far as the "improved" Day School was concerned.

In writing the Agent, it would be well to instruct him to arrange with an Indian willing to bring all the children, there is only one family that live up on the hill 3½ miles from the school, that in the past have not been driven as it means a third trip, but there are three children from this house and they deserve to be driven as much as the others. Their father is old, on the ration list, and is anxious for them to attend during the winter.

Sir:

I beg to call your attention to official letter of the 5th of March, last, in which you were asked to take into consideration the question of transporting the children on the John Smith's Reserve during the coming winter to school. In that letter you were informed that the Department considerd that the Indians themselves, in view of what had been done for the children of this school by the Department, should undertake to see that they are driven to the school. The Department would like to have a report from you as to what arrangements, if any, are being made for having this work done. Sir,— In reply to your letter of 29th.ultimo, No. 117084-1, relative to the conveying of the children of John Smith's Reserve to school during the winter, I have the honour to inform you that while at this reserve the other day the matter was taken up and looked into by Mr.Inspector Chisholm,Mr.Gentleman the teacher and myself.

Mr.Gentleman is very anxious that the children be conveyed to school in order to keep up the attendance. However, in discussing the matter it was proven that only three families lived at any great distance from the school, one ,Robert Bear H.M. about two miles east, another, Gilbert Bear, about one and a half miles south, and the other,Francis Dreaver,about two miles north-west. This means that it would keep a team very busy in the morning getting the children to school by nine o'clock on account of the distance between the houses.

It appears that in the past when the children were conveyed, those of Robert Bear H.M. and Francis Dreaver were not driven; the driver claiming ,it is said, that he was not paid sufficient for the work, which was $1.50 a day.

The children attending this school are mostly young, and it is certain that they will be absent in cold weather and progress will be slow. if not encouraged of the families living far from the school only

only Robert Bear H.M. could drive his children. The others have no horses.

One thing to be considered is that they have been driven in the past, this the parents and children expect will be repeated.

A good, reliable man, with team, can be got for $2.00 per day.

Another thing to be considered is that both the north and south schools are to be opened on James Smith's Reserve, which makes three day schools among the same class of people. Itmwould be unfair to both teacher and children, to convey the children of the one school and not those of t the others, and to convey them at the three places would mean rather heavy expense. Therefore, unless the Department is prepared to grant conveyance at all three schools, I would suggest that none be granted at all.

Diary note for October from John Smiths Reserve.

I regret to say that I have not kept my diary up to date. On receiving Instructions from Mr Chsiholm to the effect that my duties only went as far as attending to the old people etc, I did not know if a diary was required to be sent in or not. My time has been fully occupied with the school, and other matters in connection with the reserve during the month & I have not been to town, or away except for the mail & to Fenton for school supplies and coal oil.

It may be of interest to the Department to have a detailed account of to days doings,(November 3rd)

Rose at 6.20 a.m. Lit two fires & finished breakfast by 7.5, when I went to the stable. Milked, watered & fed horse & cows, and in the middle of cleaning stable about 7.35, Chief arrived for rations. Same having arrivd late on Saturday night, had to open case of bacon & tea, to ration Chief which took about 20 minutes, also open dry goods to get him a blanket. At 8.15 I lit the schoolhouse furnace, carried in wood and water for my own use & childrens midday meal. At 8.50 Mrs Dreaver arrived for rations which I issued. At 9.10 I went into school with seven children, the rest (20) arriving between that & 9.25. At 10.45 I rationed Mrs Joyful Mr Assistant & Mid . School 11 til 12. With the children while they had dinner 12 til 12.30. Had my own lunch 12.30 til 12.50 at which time I blew up a football for the boys, and played with them until 1.5. I then hitched up the horse first having to catch him in the field, as it was necessary for my wife to visit two sick people. At 1.15. I went into school. At 1.40 I advised an Indian respecting a hay matter, at 2.5 another Indian respecting the the threshing machine. At 2.30 the Agent called in for a couple of minutes & at 2.45. I rationed. Mrs E.Smith.Mrs Batt issueing blankets also.)) School from 3 till 4.5, when I had tea. My wife having returned from the north end & we went at 4.20 to the south end, taking Mrs Badgers rations, and visiting another sick person. We reached home at 5.20, when I watered & fed the animals, and finished cleaning out the stable, which

kept me busy until 6.15, talking to an Indian part of the time whom I got rid of about 6.30. At 6.55 I got into my office, checked over three accounts, receipts etc, also wrote five letters on the Departments business, filed some vouchers, & copies, and looked through the matters that had been left by the Inspector requiring attention.

It is now 9.5.p.M. and another Indian is waiting to see me about something. I have yet to make up the following,
Farmers report, Ration sheet, earnings report, part of which cannot be done until I enter up the amount of provisions received during the month in the warehouse book. To catch to_morrows mail I should do these to night, but I am afraid they will really have to go till Saturday. As soon as I have finished with the man waiting I purpose Dinner & retireing.

the new threshing machine , I met an Indian, Gilbert Bear, going to town with a load of hay; and there are Indians going to town every day. When we arrived at the reserve I went to Mr. Gentleman's and stayed with him. He complained of being out of provisions , saying that those I had shipped were still in Prince Albert. Asked why he had not had these freighted out, he complained that the Indians were unwilling to freight.

Now, this is a very poor excuse. The first Indian I met that evening, Gilbert Bear whom I had met on the road, said that he would have brought them out if he had known the were there, that $7 per cwt. was good pay. Asked when he would go next to town , he said "Saturday", and agreed with pleasure to bring the provisions out. Freighting to this reserve happens once a month, and I am satisfied that Mr. Gentleman could find someone to freight if he cared to.

Mr. Gentleman writes of having to go in the field to catch his horse. This is not necessary as he has tons of feed at his stable door. Why does he not keep his horse in the stable?. If he accompanies Mrs.Gentleman on her visits, he does so at his own good will.

Regarding the checking of three accounts: One was for freighting the above mentioned provisions and dry goods, one for oils supplied the band and the other was an account of $10.00 from the Union Trading Co. of Prince Albert, for sheets , stockings, wrapperette,etc. which I returned to him for explanations,viz., was the goods were for and the authority to purchase, as I had never heard of, nor authorized the expenditure.

What the five letters on Department business were I do not know now. They have not been received at this office.

Sir,—

I have the honour to enclose herewith Mr. P.H.Gentleman's " Diary Note " as he calls it, for the month of October.

With reference to the statement ",On receiving instructions from Mr. Chisholm that my duties only went as far as attending to the old people,etc.". I have yet to learn what the word "etcetra " covers in this case.

Mr. Gentleman then writes " It may be of interest to the Department to have a detailed statement of to-day's doings, Nov. 3rd."

I must remark that he takes exception to that one day, Monday,November 3rd. the day on which, it appears, he issued rations to the destitute. This could as easily be done on a Saturday when the school is closed, seeing that he is paid extra for this work. He complains of having had to open a box of bacon, chest of tea, and dry goods, these having arrived late Saturday night, November 1st. Now, these goods were shipped from here on October 16th. and Mr.Gentleman was notified of the shipment, by mail, on the same day. This letter should have reached him on the evening of October 21st. at Duckhahn P.O.

On Wednesday, the 29th. while driving out to the reserve with Mr.Wood and two experts to start the new threshing

Sir,

I would be glad if you could let me know if it would be possible for the Department to allow me the sum of $25.00 to secure an organ that is at present in use in the schoolhouse under the following circumstances.

The organ in question belonged to the Church. It is a small one,& last year the people here decided to obtain a larger organ for the church and dispose of the old one, the money from which was to be placed towards the new one. Meanwhile until they found a customer they placed the old organ in the schoolhouse were it has remained. A few weeks after they obtained the new organ a wandering musician who understood organs, happene to come along,and Mr Macdougall at his own expense had him overhaul the old organ, so that it is now in good condition, in fact quite good enough to go back in the church if necessary.

The new church organ cost somewhere about $90.00 of which $35.00 still remains to be paid. I hope to raise $10.00 from the childrens Christmas Tree Concert, & the old organ can be kept for the school if the Department could manage the balance. The people are anxious to pay off their debt and I have no doubt they will raise the $10.00 if this could be done.

I, of course, must say that having same in the school I am using it to teach them singing, as well as musical drill,marching,etc. I play myself, it is a great help to the school especially with the musical exercises,and as the instrument is well worth double, I trust the matter may be considered.

John Smith's Reserve. Puckahn.
Saskatchewan.
December. 30. 1915

Sir,

I beg to submit herewith a report on the work of the school children attending the Day school here, also the reserve in general during the quarter ending this week. The detailed information respecting the school is also enclosed.

With the exception of the very small children, I consider they have all made advancement in the different branches of study. I have given considerable time to Arithmetic, the elder girls having mastered Long Division & just beginning multiplication etc of weights & measures, while the three eldest girls have got as far as fractions. The boys all of them, are working at Long Division at the present time, while the small children are still at addition.

Reading exercises etc are carried out daily, the elder girls using the fourth reader & Geography books, which I sometimes use to combine a reading & Geography lesson together. The boys are using the second & third readers, while the younger children are reading from the black-board. The whole school read one or two verses each every morning from the bible.

All the children write well, and every lesson at which the exercise books are used is made a writing lesson.

The girls alsp have regular Grammar & Composition lessons twice a week, also Geography which is studied with the boys with the aid of the large wall maps. I give the boys composition lesson in connections with spelling on the blackboard. The elder girls have during the quarter learnt how to draw maps, and the boys have studied house and stable plans each one drawing his idea of the best house, and writing down his reasons for same. All the children have received Nature Study lessons, which

I am able to make very attractive. The children look forward to a weekly Nature Study Drawing lesson. Twenty minutes drill with music has been given each day, also some eight or ten songs were learnt during the quarter, the latter mainly on account of the Christmas tree concert.

In connection with the younger children of whom there are eight or ten who are almost unable to do anything I found that this class caused me considerably difficulty while teaching the elder children, insomuch that ti was difficult to keep them busy for any lenghh of time. To overcome this I obtained from London at my own expense an entire outfit of Kindergarten materials, of which I have had experience, & instead of getting them lessons while teaching the elder children, I am using the Kindergarten things; with I think a fair amount of success. They have only been in use a short while, & it is something that has never been done here before. This, with the reading from the board with the big posters will be the work of the little ones for some time to come.

The school tearm was closed by a Christmas tree Concert last Tuesday at which the entire programme was made up of the childrens songs & recitations, some eighteen items in all. A collection taken up during the evening amounted to $9.40, and one or two parents expressed their satisfaction, in Cree & English, of the childrens work. All my lessons are marked, and at my own expense I gave prizes to the six highest: the marks being totalled weekly, and at the end of the year.

In connection with the attendance I find that the average works out at 20. which I consider fair. The decision of the Department not to drive the children to school has something to do with this & I cannot refrain from making one or two comments on this subject. I must say however that this winter has been most exceptionaly warm with very little snow, a condition of affairs I beleive prevailing throughout the westa at present. Had the weather been cold the average attendance would have been very much lower, and it is a great pity, that having provided an execllent

School building etc, that nothing is done to see or enable the children to make a regular attendance. There is execllent material here to work on, & I would call attention to the late Agent Macarthurs report of a year or so ago in which he stated that the John Smiths school hardly justified its existance at that time, and compare it with now. From my experience with other Indian Day schools which I have taught & visited I can say that the Department have something here that is considerably above the average in everyway. The children are neat and tidy, and come to school clean, and I beleive I am getting as full attendance as is possible. I would point out that the John Smiths people are considerably advanced in their ways being very much like the white settlers off the reserve, and as it is general in the west the boys are often kept at home during the summer months to help with the work, whereas this could be overcome a good deal if they could be driven during the winter. I would also say that there is only one family attending whom might be called hunters, the others all being Farmers, and the children helping with the chores morning and evening, with short days, makes it very difficult for the children to get to school on time. This should receive consideration.

I must also report that during two weeks of December, in order to ascertain the distance & time etc, I drove the children myself in the morning, on which days I picked up every child of school age on the reserve The experiment was not made without difficulty, I had to use the buggy and of course a single horse, I found that by leaving the house at eight o-clock I could get every child by 9.30 in three journeys, but of course it ment a great deal of extor work for myself. This could however be worked with the school as a starting center.

In concluding the matter of attendance I would remark that at three white schools within ten miles or so, I am informed that the average attendance is 4,7 & 8 respectivally, with an enrollment of 9,11, & 12.

I must say that it is with no small amount of difficulty that I can give the school the attention that it should have. There is a great deal of difference between "putting in time" and actural teaching, & while I endevour to teach the whole of schoolhours I often find that I get very tired towards the end of the week. It should be considered that the daily "chores" here mean no small amount of work. The morning work of cleaning the horse & stable, watering, feeding & milking, & four fires to light, with wood to carry to each of them anf water to get into the house for the childrens midday meal etc, means something. There is an hour and a half of this daily before I can get into school, and similar in the evening. Had the winter been a hard one, it would be impossible to do all this alone, and at the same time do justice to the school.

I would point out the granting of authority to the Agent to hire a man here when required is really of little assistance, as there are often times that a man is needed when it would be impossible to obtain permissic from Duck Lake, & this throws a lot of work on myself. Also, I am quite alone, while Mr Macdougall had two boys of his own, who did a great deal of stable cleaning etc, also who could take a message to one of the Indian while if I need anyone it is necessary for me to leave school, or go after schoolhours and find someone.

I cannot understand the Department refusing some kind of assistance, I notice from the Bluebook reports that some of the Boarding school staffs seem to be extensive, notably the Sarcee Boarding School that appears to have an enrollment of sixteen, that needs a staff of four.

Here it is impossible to do much reading on ones own account, and unlike various other teachers, Agents & Inspectors, I have nothing in the shape of a cattle ranch as a sideline, $6[illegible]. or $8[illegible], is not an extensive salary when there is no promotion to look forward to, and absoulty no time for study. Of course it has been pointed out that the epartment .

are allowing $15.00 per quarter for help in the house, but I would ask what kind of help can one get from an Indian at $5.00 per month. I have to pay Mrs Badger another $15.00 per quarter out of my own salary for doing a considerable amount of the Departments work. The statement made by Mr Chisholm that the fire for the childrens midday meal does not need to be started until eleven o-clock is quite a mistake, & if my wife & I finish breakfast later than eight, the whole day is thrown late. Mrs Badger arrives at the house about 8.30, and starts work at once

It is also necessary for me to see that beef,flour etc is placed in a handy place in the kitchen, and I bring this from the old schoolhouse which is now used as a warehouse,myself.

In making this report I would like to request that the reason for the Departments desire for a monthly diary from me, could be sent. It seems as if someone is endevouring to find as many reports, forms etc, to fill up at the end of the month as is possible to get. I have no less than six reports to write out at the end of each month, and the Diary I think is one that I might be releived of. I am in school daily except Saturdays, so what can I put in it. I will submit a diary of the Saturday work with an expense account, as Saturdays are the only day on which I can get into town to make any purchase that is necessary. This would make a little less work at the end of the month. It could be observed that Farmer Lepine of One Arrows whose diary I have often had to read over while at Duck Lake take the first, or last day of the month to write his monthly report, while in my case I have various accounts and correspondence to attend to besides a day in school.

In order to obtain the Tuesday mail without being out after dark my wife has been teaching the girls sewing and knitting during the

ternoon, while the boys work arithmetic.

The health of the people has been good, & my wife & I generally manage to get around to visit each house about once a month, while more frequent visits have been made when necessary to those sick.

An accident occured to a young girl, Nina Smith by name, some six weeks ago hurting her knee by falling out of a rig. Dr Strong visited her, and at first could not locate the difficulty, some three weeks later his partner Dr MacMillian came out, and said at once it would be necessary for the girl to go to the hospital for an operation. At first I would not allow this until authority had been obtained, and it was only on the strict understanding that the Doctor should go at once to Mr Chisholm and wire for authority that I allowed him to take the girl in, I am informed by the Agent that this was not done, but what could I do at the time. The Doctor said it was necessary that the girl should go at once, and by promising to take the matter up with Mr Chisholm I thought that this would be the most satisfactory way out of the difficulty. I may add that the girl has since undergone a serious operation on the knee joint. I called at the Hospital last time I was in town, & found her making fair progress.

The threshing outfit recently purchased worked very well, and completed threshing operations in good time. The people are now using the engine with the circular saw loaned them from the Agency Headquarters up that the gasoline engine and circular saw are in competition against the old Hudson Bay axe.

I also enclose some photographs of the school etc, taken by myself, that may be of interest.

Yours truly,

Sir,

With reference to my recent report on the school in which I stated that in was with no small amount of difficulty that I am able to give same the attention it should have on account of the morning chores I think I have found a way to overcome this, which I would ask for the Departments approval.

My statement may be misunderstood. I like to be fresh when going into school in the morning, I am sure I could do better work, but this at present is impossible on account to the chores. Milking, feeding & watering, carrying in wood & water besides cleaning the stable take a little over an hour, and I cannot teach in stables clothes.

To get over this, I am desirious of giving half my rations to an Indian, Francis Dreaver, by name who is willing to do an hours work here in the mornings, if the Department can do something in connection with the old Farmers house. Dreaver is an old man at present on the monthly ration list ,I think just about able to do what I need. He has three children attending school, this family being the longest distance away, quite four miles. Now if Dreaver could be permitted to occupy the old Farm house he could assist me, and at the same time have his children quite close to school which would be a very exellent arrangement.

Unfortunate y the farmhouse is occupied by another man, by name Alfred Smith, who moved in there this fall with the permission of the Agent and who promptly left the big gate always open causing myself & the Agent a whole lot of work in connection with the cattle getting into our stacks.

This man is married, but has no family, and I notice is often away for several days at the time. He had a house of his own, but I am

informed that when he was allowed to move into the Farmhouse, he sold his own building to a half-breed, Willie Umpherville, who has lived for some time on the reserve.

If the Department could see fit to instruct the Agent to move out Smith, and allow Dreaver to live there, it would be of a very great assistance to myself, & I am sure benifit the school, also help Dreaver, besides being at no cost th the Head office.

There are plenty of empty houses in fair condition that Smith could use, also it might be used as a means of getting rid of the halfbreed Umpherville. Of course I know that this man has no right to live on the reserve, but the fact remains, that having done so for a good many years now, to turn him out is liable to cause unpleasnatness for myself & Agent with Chief John Smith & his family to whom the man is related. I cannot say that Umpherville causes trouble by bringing whiskey onto the reserve, but he farms a field, sells hay & wood, used the Threshing oufit, all of which are resented by the Phillip Bear & Crain families.

Under these circumstances I trust that my suggestion may have consideration and some instructions may be forwarded to the Agent. I would add that it is only during the winter, the dark mornings I feel the rush, also Dreaver complains of the distance & cold for his children to attend school during the short days.

Sir:-

I beg to say that the Department has been informed that you have allowed Alfred Smith to occupy the farm house on John Smith's Reserve. If the fact is as stated an explanation is required from you as you should not have granted the permission to the man to reside in the house without authority from the Department. This house should be available for Francis Dreaver's use in order that he may be near at hand to assist Mr. Gentleman when required. You should give Alfred Smith notice to vacate the house at once. I may add that you have not, at any time, authority to allow any man other than an Indian to reside on a reserve without permission from Head-Quarters.

Dear Mr Scott.

I regret that it appears necessary to appeal to you personally to do something,which will assure us getting more satisfactory attention from the Agent.

By Saturdays mail I received a mass of foolish letters from Duck Lake which I have a mind to forward,but would be far to long to comment on in detail. Also I received the third copy of the September school report,which is in response to a request made in November & December. Kindly observe the date,January 18, this is a week longer than it takes to get replies from your own office. A request for potatoes made in November & again in December has not yet brought a reply. I must also say that the School has not been closed on Tuesday afternoons. My wife has been teaching sewing from 2.30 till 3.45 while I go for the mail, which I have done in order to send off replies to Saturdays correspondence. It is more a desire to attend to business quickly,than my own mail. I will however discontinue the sewing class and let the mail go.

Could this reserve be made like "White Caps" under Mr Chisholms inspection ? It is most trying to work under Mr Schmidt. If some different arrangement cannot be made,I suppose we will have to give up the position.

Yours very truly,

J. A. Gentleman

Sir,— In reply to your letter of 19th. ultimo, No. 117084-1, with reference to Alfred Smith occupying the old farmhouse on John Smith's reserve, I have the honour to inform you that the said Alfred Smith is an Indian, and a son of Chief John Smith of that reserve.

When visiting the reserve last fall with Mr. Inspector Chisholm, Chief John Smith asked me permission to allow his son, Alfred, who has no house of his own, to spend the winter in the old farmhouse which was unoccuppied . The same evening we saw Alfred, who made the request personally. I asked Mr. Inspector Chisholm what his opinion was . He replied that he saw no reason why the young man could not spend the winter in the house, seeing that it was unoccupied. I remarked at the time that the house had already been occupied by Indians, namely, Gilbert Bear, carpenter, who was living in the house when I took office, and spent the winter 1912-13 there. I then told Alfred Smith that he could winter there, but that he was to give it up at any time should we need it for someone else, or for other purposes . I have written Smith telling him to

to vacate the house at once in order that it may be available for Francis Dreaver's use.

Regarding the last paragraph of your letter I beg to say that I have never allowed anyone who is not an Indian to live on any of the reserves. On the contrary, I have strictly forbidden half-breeds from living on the reserves, and have sent some away, and told others who have lived on reserves for years to move off.

I trust this explanation will be satisfactory.

Dear Sir,

Will you allow me to write you again personally, as in so doing, I feel more assured that my letter will have proper consideration.

I regret to state that I have been laid up in bed for the past two weeks with a sharp attack of Peritonitis, & have only this morning got up for the first time. On account of this I had to close the school on the 9th instant, & hire a man to go to Birch Hills for Dr Giles whom I had to send for again last Sunday. I have also had to hire a man to do the outside chores, feeding the animals, etc, or rather I had to get the eldest schoolboy as most or the men are away hunting. When I hired the lad on the 9th I promised him $1.00 per day with dinner, as I did not think I would need him more than three days at the very most, otherwise it would have been cheaper and more satisfactory to have got a man for a couple of weeks. I am very sorry that it was quite impossible to ask permission from Duck Lake to hire anyone, and I am now at a loss to know if I might be permitted to put this expense in my monthly expenses account, or not. It will come to $16. or $13. that is if I can get out by next Monday which I hope to do.

I would like to inform you the direct cause of this attack. For the past six weeks I have been plagued with a dozen pigs from the nearest Indians house, who have lived on the [illegible] apartments Cat stacks they have been here all time, I have chased & chased, and fixed gated and fixed gates, I have spoken to the Indian when he has been at home, which is not often, and I have shown the damage to the Indian Agent, I have repaired the gate the Indian Agent made me at

the time the cattle got into the stacks several times, & it has been impossible to keep them out. Altogether I consider the cattle ~~[illegible]~~ destroyed one stack, and the pigs another.

Now, on the 6th inst, I had to go to Prince Albert and while ~~[illegible]~~ there called on Mr Chisholm to see what could be done in the matter of fencing the whole of the buildings with proper fencing this spring and this matter of the pigs in the stacks came up. He showed me a way which I might fix to keep them out for the present. On my return I found my wife had been chasing these pigs again, and on Saturday I worked all day at the job. It was a bitter cold day some where round about 30 below with a keen wind, and I caught cold, I am certain of this, I felt at the time I would feel the effects of that days work. I was not, either successfull, in keeping the pigs out, and on Sunday I asked the Carpenter to come a fix a proper gate which he did at a cost of $2.50. This could have been done a last fall, and ~~[illegible]~~ the oats as well as a lot of work to myself saved.

Under these circumstances I feel I am justified in asking the Department to pay the expense of having a man, also for the one who went for Dr Giles. The Doctor will, I expect send me in an account of $15.00 or $20.00 at least which I suppose I will have to stand although I feel this also is something that the epartment have let me in for.

I must also say that if the Department expect one man to do & all the work here it is absoulty necessary to have everything arranged as conveiently as possible. If the Department cannot fence the buildings with proper suitable fencing to keep out the animals this spring, then I must decline to be responsible for the stacks e

I cannot refrain from remarking that it seems to be most foolish to grow anything here under the present circumstances. Last year I called attention to this matter of fencing both to Mr hisholm

and Mr Schmidt. The Department went to a large expense putting in and harvesting the oat crop, and also a big expense was in turned in growing potatoes for the school. The cattle of the reserve are allowed all over the field, and the stacks built in a place where the cattle can feed at. The potatoes are planted were the cattle and pigs can tramp them and eat off the young plants, and in consuensence the Department have to buy potatoes now, and will shortly have to buy oats.

I trust you will be able to grant authority for the expenditure incurred during the past ten days, and I do hope that the Department will see that it would save a great deal of work and worry, and be more satisfactory in every way to have proper fencings made.

March 7, 191[illegible].

Sir,

I am in receipt of your favour of the 28th ultimo No 117284-1 with reference to the employment of a man here during my recent illness. In reply,I cannot refrain from stating that your letter more than astonishes me, more especially as I understood from the Agent that he had authority to employ a man here whenever it was necessary.

It would appear from your letter that I am desirious of getting the Department to pay for a man who has been doing some work for myself personally,such as keeping my own furnace fired, and it may have been considered that if the school was closed there would have been no need of a labourer. If this is the case I beg to point out that the Departments conclusions are wrong, and to say that the man was employed feeding the Departments horse, watering, twice a day, cleaning the stable & drawing out to the field, and the same respecting my own cow. I own the cow I must say, but the Department own a "Farmers' cow here which with the Agents permission has been loaned to one of the best Indians,as I do not need two.

I also wish to say, that I was taken ill on Monday Feb,9th, but thinking that same would only be a passing cold which would only last a couple of days, I did not employ a man until Thursday the 12th. I fed,watered & cleaned the stable myself on the Tuesday morning while feeling very sick. On the Wednesday my wife, & the girl employed to help with the childrens meal attended to the stock as I could not get up. On the Thursday I sent the girl out to find

man as my wife had been up all night, and I might add from that day till the following Sunday she did not sleep at all, and could hardly leave my room.

As the Department is aware, or should be aware, I have the horse here in connection with the Farmers work, & I would like to ask, under such circumstances as these, who was expected to look after the animal. Do you think that my wife should have done the chores morning and evening, and nurse myself at the same time because if this is so I beg to state that under no circumstances will I have my wife feeding animals & cleaning stables. Would it have been satisfactory if no attention had been paid to the stable at all. What attitude would the Department have taken if the animals had been left tied in the stable for ten days ? also if the matter of obtaining authority from the Agent before hand is held to, I must point out that from Tuesday until the following Saturday there is no way of communicating with Duck Lake, and then the reply would take four days to come back. What would the Department have me do in the meantime? .

I also wish to again draw attention to the fact that my illness was caused by attending to the Departments work & not my own. I have several times commented on the fact that the present arrangements respecting the fencing here is most unsatisfactory, I have shown Mr Chisholm how the Indians cattle get into the stacks, & Mr Schmidt has seen a dozen pigs feeding on the Departments oats. All the winter I have had all my spare time occupied in trying to save the feed provided, last summer it was impossible to have a garden. Both the Agent and Inspector have been here and seen how difficult the arrangements are for a man alone, & surely I have written the Head Office enough on the subject.

I may also point out that the Department have never spent a cent in ~~exhibiting~~ making proper outdoor arrangements for one

man to do the work of the Farmer, and the school at the same time.

Mr Agent Macarthur just before he left, had the stable moved over here from the Farmhouse for which the Department paid for, but but this is all. The fencing and stackyard & garden have only been of a makeshift nature made by Mr Macdougalls boys, as both the Agent & Inspector can see. I also wish to say that one of the difficulties that arose between the Agent & Mr Macdougall was the fact that the latter employed an Indian on every possible occasion with,or without authority, when rough work had to be done, and to point out that I have not yet employed a man without permission, doing a great deal of the labour myself. I have daily drawn the manure from the stable into the field, while last year it was ~~pi~~ piled outside, and a man & team employed a couple of days in the spring to take it away. I have broken up bacon boxes to fix the stable walls,while in the past a man has been employed plastering. I have fixed fences & gates till I am tired, and in every way,when I have been able to make a repair myself, I have done so.

I must also add that the man employed recently was not kept one day longer than necessary. I was able to get up on Thursday the 19th, and was out on Sunday the 22nd, and I require the matter to have further consideration, also while I am able to teach and get around I do not yet feel fully recovered, and in event of my falling sick again I would be glad if the Department would inform me,by returning mail, how to proceed.

JOHN SMITH'S RESERVE

This reserve has no Farm Instructor, Mr. P. H. Gentleman, School Teacher, acts as overseer but is useless as such, he has no knowledge of farming or stock raising and is not practical at all.

Apart from the issuing of rations to the old and destitute he is no assistance whatever to me; on the contrary he has ,through ignorance or want of common sense, made the running of the reserve for the 9 months he has been in charge, rather difficult for me, by mixing matters up through his trying to deal direct with the Department, and overlooking this office, of which the Indians have knowledge. He is continually grumbling at the Department, the Inspector and, I dare say, at myself; and is certainly unreserved and sarcastic in his language and remarks.

The man is lazy and simply will not work, and until such time as he takes a tumble and realizes that he is on an Indian reserve in Western Canada and not in a confectionery store in England will he be able to succeed as an overseer or advisor to Indians.

If an energetic, practical good willing man were in charge there he could teach school and have an oversight of the reserve without being overworked,and thereby earn the liberal salary paid by the Department.

ACCOUNTANCY NOV 23 1914

Dear Sir,

On January 20th last you forwarded me a communication numbered 117084 with reference to the old Farm house close by, the result of which I was able to hire an old Indian to help me during the winter months. I regret to say that this man recently left me claiming that the farm house was impossible to keep warm during the cold weather, which is probably correct.

With the short days I find that it is necessary to have someone, and I beg to submit a brief account of an arragnement made to overcome this difficulty which I hope the Department will approve of, also if possible allow something towards the expense.

I have hired a young Indian, one of the hunters, about 22 years of age who would have hunted this winter if the fur market had been satisfactory, for the sum of $16.00 per month, half my rations, one room with a big stove in the farmhouse & dinners five days a week, for which, I am having the stable attended too night & morning, wood drawn up & placed in position for four stoves, schoolroom swept, fire lighted, furnaces cleaned & kept full with water, and various other jobs of such a nature, which I count as being my own chores, that would occupy me upward of a couple of hours night & morning.

In addition to these things I am also having the man convey the children to and from school, the expense, of which is included in the above mentioned sum, I will undertake myself for the time being.

I would like to point out, however that my chores alone are hardly enough to warrent me keeping a man on my own account the whole day , while on the other hand if the man drived the children morning & evening, the middle part of the day would be well occupied. At

present his day is occupied in the following manner.

He feeds and waters the horse & my cow at 8 o'clock, lights the schoolhouse fire & sweeps, then goes for the children about 20 minutes past eight, arriving with the first lot about ten past nine, then he goes to the north end of the reserve getting back about a quarter to ten. He then splits wood, and draws same up to my own house & schoolhouse, cleans the stable which occupies him till noon.

This afternoon he put part of a hay stack that had tumbled over into the loft, and one afternoon a week I can send him for the mail which will releive me of two hours, I have also a quanty of beef to cut up & I can keep him well occupied during the next month from 1 till 5.20 at which time he takes the first lot of children home.

He finishes his day about 5.30, and I would like the Department to consider the matter of the expense. I think the mans time could be fairly divided evenly between driving the children to school and chores, and I am anxious to pay my share, half, if the Department will pay the other half, or the sum of $32.00 for drawing the children to school from the present date till March 18th of next year.

Such an arrangement, is in every way most satisfactory. I am able to give better attention to the school, and the other business of the reserve. The school attendance will be more satisfactory, and there will be times that instead of hiring outside labour I can use this man without additional expense. The horse will have to be kept here in any case, and he may as well do this as not, also it is in a manner providing for one of the Indians who would have a hard living during the winter. If I am not clearly understood I would be glad to send more details if necessary. I trust you will be able to give the matter favourable consideration.

Yours truly,

Sir,

With reference to my letter of the 19th ulto. regarding the school children I regret to find that I omitted to draw attention to the very satisfactory attendance that has been made during the year, more particulary by three of them, which I would like the Department to take some note of.

Lawrence Bear and Gldays Bear have not been absent for any cause whatever since the first of January. These children are two miles and a half away.

Albert Badger has only missed eight days during the year, and several others have been less than 14 days away. The ages of the above mentioned are 10, 12 & 14.

I will reward the two who have not missed, at Christmas time, but perhaps the Department could send me a communication of approval which I could read to the children & their parents at the Christmas concert, as I find a little encouragement from those in authority, very satisfactory.

The Bishop of Saskatchewan recently visited the school and by chance picked out a boy who has not attended regular. The Bishop gave the boy a message for his Father, in Cree, & I have since heard that the boy will not be out of school again until he can mark read, and the boy has not been absent since.

I would add that during the past two weeks I have had every child of school age in school, the youngest attending, while being driven, & I also find, by having a man for my chores, I can do better work in school as well as having more time to get out among the Indians

Yours truly,

Sir,-

I have to acknowledge the receipt of your letter of the 3rd instant calling attention to the very satisfactory attendance of some of the pupils at the John Smith's School.

In reply I beg to say that the Department is pleased to note that two of your pupils, Florence and Gladys Bear, have not missed a day during the year and that several of the other pupils have been most regular in their attendance. I should be glad if you would tell these pupils that the Department appreciates the interest they take in their school work and, as a slight reward for their exemplary conduct, you are hereby authorized to expend the sum of $10.00 in the purchase of suitable prizes for these children, which should be given them at the Christmas entertainment you propose holding. You should see that the most deserving pupils receive the best prizes. The accounts for this expnditure should be forwarded to the Department through the office of the Indian Agent, who has been asked to certify them. I may add for your information that the prizes given at this time of the year will take the place of the summer rewards.

Sir,

I have to submit herewith a report on the work of the children attending the Day School here, also the reserve in general, during the past year.

With a smaller number of children of schoolage I find that the average attendance has been well maintained during the year in fact it is slightly higher than last year, and seeing that all the children are small, I think this can be considered satisfactory.

I consider the younger children have made the most marked progress during the year. They are able to read from the Primer also write, and do addition. I find that I have put in considerable time on this younger class, using a supply of Kindergarten materials but, in comparision with the elder children, I think their advancement will be more rapid in the future espically in Arithmetic and Reading.

I find now that I have still a younger class, some eight little boys between the age of six and eight, whom it is difficult to keep busy, but I hope to do something with these during the coming year.

Respecting the elder children, these have been by no means neclected. Advancement has been made by the boys in Arithmetic, & Reading, they write well, and have regular lessons in Geography Composition, & Canadian History, as also do the girls. One of the boys Leonard Bear is considerably in advance of the others, and there would be no difficulty for this boy to pass the Matriculation if I could give him the time. Unfortunately with such a number of small children, it is almost impossible to give elder time to any profit to any great extent. The Department could make a splendid

out of this little fellow if he could be sent away from his home which I regret to say cannot be considered satisfactory.

A sample of the childrens work is being forwarded, in which Leonard Deares work will be noted. The samples are part of an exhibit shown during the summer in the school.

On November 4th Mr Chisholm and Mr Schmidt inspected the school,but as they were only in the room from 3.10 till 3.50 in the afternoon, an extensive inspection was not made. These gentlemen caused me considerable annoyance at the time. They arrived on a mail day, when I have a standing arrangement with the Clergyman to give a Scripture lesson during the last 30 minutes and although I explained this the evening before, this was upset, and in the end,the children had to be dismissed as it was to dark to see. However,both seemed satisfied with what was being done.

Before dealing with my Overseers report, and the strons report,I must preface these with a note on the Whiskey traffic, as the whole of the work, also ex-pupils is effected by ~~the above~~ this.

I cannot express myself strongly enough, over the seemingly indifference on the part of the Department to this business, & the only excuse I can find must be in the fact that the harm and expense caused by this cannot be fully grasped,except by the man in direct contact with the Indians. I know the matter is a difficult one, but that should not allow these people to go on year after year, pulling down everything done for them by the Department and Church in other directions, as the whiskey does.

The land is excellent, their health good, and this reserve would be entirely selfsurporting in a few years if the ~~xxx~~ whiskey business in the City of Prince Albert could be controlled as regards Indians, which it is not. During the year I have had brought before me different cases,in detail, which for various reasons I have been directed to drop. The Hotels, Wholesale stores The Hudson Bay Co all sell, almost openly according to the Ind

[illegible]m I have reason to believe speak truthfully. Recently the north part of Saskatchewan was placed under prohibition, the line being drawn three miles north of Prince Albert. One of my older Indians stated recently that considering that Prince Albert is a ~~great~~ noted gathering place for Indians, it was a pity that the City was not included in the prohibition district.

Respecting the farming operations of the people during the year, I must state that the crop was not so good as last year, a bad hail storm in July flattened the grain over one half of the reserve and the whole potatoe crop was badly frozen. I have been able several times to visit the fields, and as stated, if the money did not go in drinking these people would have all the machinery they needed. Hay has been plentiful and commands a good price, while the cattles sold during the first week of the war brought them record prices. This annual cattle sale is not considered by some them very satisfactory.

Two days before the cattle sale Mr J.Russell, a cattle buyer of Prince Albert, visited some of the houses telling the people that he had received permission from the Agent to buy all he could, as no other buyers would be coming, and in consequence of this several of them sold to Mr Russell, which resulted in a great deal of confusion and trouble one of the results being a dispute between one of the Indians and an outside settler as regards the ownership of an animal, which is being looked into at the present time. Mr Schmidt maintains that no permission was given to Mr Russell, who on the other hand maintains that he was in the right. However, the whole affairs was most unsatisfactory, & it is to be hoped, will not occure again.

The breakdown of the threshing outfit was caused by some of the Indians refusing to pay the men who can ~~xxxxxxx~~ run the ~~xxxx~~ outfit, and getting all the young men of the reserve around the outfit with wrenches trying to make it go. As I have no authority to prevent this, or settle the dispute that had arisen over wages, the outfit had to be laid up until the Agent could visit the reserve.

During the latter part of the year, an offer of seed grain for the coming season was made, but owing to a misunderstanding the Indians did not hear of same until after freeze up. I hope some seed grain can be issued. (On the other hand there is money for Whiskey to-morrow but seed grain will be wanted) .

In common with other reserves the fur market is low, but I do not see any suffering on account of this.

In connection with the Farm work I must call attention to a unsatisfactory ~~xxx~~ state of affairs that occures with the ex-pupils between the ages of 16 and 22 . We have several young men of this age well able to read & write etc,etc, anxious to make a start, but who seem to have no location. I have heard of cases when some of these young fellows wanted to plow the dispute of land has arisen so strong that they have given up the idea. A large amount of land is being held idle in this way, by the older men, and something should be done to decide on locations for these young men. At present I cannot urge them to do ~~xxxx~~ much, as they say at once that dont know where they can make a start. They work out, or drop into idle ways, & start drinking, and on this account a good deal of money spent on education is wasted. . Some ~~kind~~ of controle over these ex-pupils for five year after they leave school is very desirable.

In dealing with the Matrons work, regarding which a complaint was received last week I must point out that the monthly reports submitted have been the same as those sent in by Mrs Macdougall, and also by ourselves while at La Corne in 1912 . Reports of this nature also passed through my hands while at Duck Lake, and it is somewhat out of the way to request detailed information on this subject monthly before the actural requirements of the Department have been made known. The Circular ~~xxxxxx~~ forwarded for our guidance shows a lack of experience on the part of the writer, and it must be remembered I cannot <u>compel</u> the Indians to do everything the Department desires, also many of the Instructions contained therein are not carried out

in many homes of the surrounding settlers whom the Indians meet and it cannot be expected that the Indians will go more along these lines, than their neighbours. I would ~~instance~~ refer for instance to the use of the river water for drinking. Halfbreed & white settlers up and down the river have always used river water without boiling often drawing same from the same place at which the cattle drink, and it would be exceeding difficult to get them to do otherwise. The rule respecting the placing a **cleen** sheet on the floor for the baby to play on would not be done except I remained in the houses. They would scrub their floors more often rather than do this. The matter of ventilation is always a difficult subject, not only with Indians but with Canadians, during the winter. Double windows on without being made to open is a general rule throughout Western Canada, ~~is~~ also ~~natic~~ noticed by the Indians, who, when building fix their windows ~~a~~ solid.

There can be no ventilation through the schoolhouse windows for instance, with the double windows on. To overcome this I have kept off the centre double window, so that it is possible to get fresh air.

On the other hand these people are much more advanced than other reserves. They are clean, and have proper outhouses, and most of them can get me a decent meal if I call, with a table ~~cathex~~ cloth and clean knives etc, The work of the women on the farms is creditable they make good butter, etc, etc, and many of them can pluck and clean a chicken much better than one sees displayed for sale in the Prince Albert stores to day. Poultry keeping is made to pay by several.

The manner in which the midday meal for the children is served is in itself a lesson for them, everything being kept clean and in proper order as it should be, while this house is always spotless, and an example which does not fail to impress them. The influence of the school also reflects in their homes, the difference being easily noted between those families whom have children attending, and those in which the children are to young. I find that all the children change their ~~xxxxx~~ clothes after school, and they are always clean and tidy.

Regarding the note re uiring instruction to be given in cooking and sewing I must say it would be almost impossible for my wife to undertake the former during the morning, but fre uent instruction is given when visiting the sick, along these lines. With regarding the sewing it will be interesting to note that on Wednesday afternoons since August a number of the women have met in the dinning room sewing or rather knitting socks for the Red Cross Society, several of them providing their own meterials. ~~Previous~~ to this they met under my wife 's guidence for the purpose of making childrens clothes which they sold among themselves for the Church funds. The womens weekly sewing meetings ~~xxxxxxxx~~ has been a long established thing, and a small controle over the young women & girls who have left school is thus retained.

There seems to have been a misunderstanding with the Agent over the supply of drugs, but I would point out that the accounts submitted are much smaller than in former years. There is however a case of expenditure which I would like to draw attention to, in

which I can show might have been saved, had I been consulted.

Mina Smith, a schoolgirl between fifteen & sixteen years of age in October of 1913 had an accident which resulted in her being in the hospital all last winter. The result of being in company with an elder sister mixed up in a drunken brawl north of the river at Prince Albert this spring she had to go again to the hospital and have a leg taken off. The Department then provided her with a cork leg, which she did not want, and does not use. The Agent tells me he knows nothing of this case, and I have no correspondence upon the subject beyond reporting the accident in the first place to Duck Lake. Whoever authorised this expenditure did not give the matter much thought, which seems strange to us, when such a fuss is made over the smallest unauthorised accounts.

In the future, however the Matrons report will be more detailed.

I find that I have gone to considerable expense during the year in connection with different things that should not have been a call on my pocket. School materials, Kindergarten, reading books & music have cost upward of ten Dollars: the clay from the cellar of this house was still in the yard making the place a regular mudhole between the house and stable, I have had removed at a cost of eight dollars, hay & oats provided in small amounts, & different small payments made to Indians which I have had to make ~~without authority~~ being without authority at the time. These however with the exception of the school material, have enabled me to considerably improve the appearance

I must add, however, these small items are not much so extensive as to request repayment, but some might have been carried out by the Agent had they been noticed.

John Smiths Reserve. Puckahn,
January, 5, 1915.

Dear Sir,

I have to thank you for your letter No 117084/1 of the 16th ultimo, respecting the attendance of the school children.

In reply, I must say that your letter arrived after I had already provided prizes, and school attendance medals,as attached, and I do not think further rewards are necessary at present.

I am,however, asking Messrs Eatons of Winniped for a detailed account, or failing this a statement of some kind, of the goods obtained from them for the above purpose, and when this is received if the Department will forward me a cheque for $10. oo, I will use same to purchase a Silver attendance Shield, which will form an attendance competion for a few years, the same to be held for a year by the pupil making the highest attendance. I promised the small shields, that have been given, last Christmas, and I think that a large shield which they can hang on the walls will still further improve the attendance during the coming year.

At the Christmas Tree Concert held on the 23rd, the children collected from their parents the sum of $7.35, which they desire to give you with a request that same should be sent to the Red Cross Societies Fund for wounded Canadian Soldiers, etc,etc, and postal notes for this amount is enclosed herewith.

I trust both these matters will be satisfactory,

Yours truly,

The Secretary.

Nov.11th, 1915.

DEPARTMENT OF IN... NOV 16 1915

IN YOUR REPLY REFER TO
No. 115
AND
TO DATE OF THIS LETTER.

484923

Sir,—

I have the honour to inform you that Mr. P.H. Gentleman, teacher at John Smith's reserve is again asking for a man to assist him during the coming winter, on arrangemtnts similar to these of the winter 1914-15.

The man does Mr.Gentleman's chores, which consist of attending to one horse and cow, splitting and carrying in wood which is already cut in steve lengths, and drives the children living along the River road to and from the school with the Department horse and rig.

I do not recommend this expenditure, as I do not consider it necessary.

Regarding the conveying of the children, I do not see that the average attendance is any larger when driven. The children who are driven are well able to walk as the road along the river is always good, and the farthest away are only about one and a half miles, with houses every quarter mile along the road where they can warm, if cold.

The Department horse, which is on the reserve for the use of the Overseer, is an old one, and will not stand the driving all winter; he is very quiet and suitable for Mr.Gentleman, who does very little driving other than going for the mail four miles away, and making a few calls with Mrs.Gentleman when she goes out as Field Matron.

If the children have to be driven with the Department horse and--

horse and rig a new outfit will have to be provided.

When visiting the reserve during the fall of 1913 with Inspector Chisholm, this matter was discussed thoroughly by the Inspector, Mr. Gentleman and myself, and reported upon by me on Nov. 5th. 1913, file No. 115, which brought me in reply letter No. 117084/1 dated Nov. 17th. of the same year.

Last fall when visiting the reserve with the Inspector the question again came up, Mr. Gentleman asking for a man to do his chores, go for the mail and drive the children with the Department outfit. This was not approved of by the Inspector nor myself as we did not see the necessity for conveying the children any more that winter than the previous winters, and the engaging of a labourer to do Mr. Gentleman's chores was not considered at all necessary.

Mr. Gentleman, according to his own statement to me, then took the matter up with the Bishop of Saskatchewan, telling his Lordship that he must get him a man or get some one else on the job; the result being, he claims, Department letter No. 117084-1, dated Nov. 30th. 1914, informing me that $32.00 would be paid to an Indian for driving the children to and from school until the 18th. of March, 1915.

In my opinion, and I feel certain that I am right, it is not the conveying of the children that interests Mr. Gentleman, but the doing of his chores; and when it comes to that point I cannot recommend the engaging of a man to do same.

I am informing Mr. Gentleman that I am not recommending the employment of a man to help him, and would ask the Department to consider the whole matter should he correspond direct to headquarters.

I have the honour to be,

Sir,

Your obedient servant,

David Laird

DEPARTMENT OF INDIAN AFFAIRS
NOV 23 1915

Extract from Agent's Report on the John Smith Day School for the month of November, 1915. Original on file 117084-7

Non-treaty pupils, two boys one girl. One of these boys Julius Crain and one girl Bloomfield are living with relatives on the reserve and attend school. The other boy, C. Price, lives with his grandfather or Uncle near the reserve. The John Smith Day School is the nearest school for him to attend. There is a public school in that district but it is rather far away for him as his grandfathers house is on the north east corner of the school district. Should these children be allowed to attend our school? If not, they will probably never see the inside of a school again. The teacher does not complain of these children attending but finds his work heavy. With these pupils attending he has found his average as high as 30 for one week. Of these 30, twelve are very young beginners who will not attend regularly this winter. Next spring they will be able to do so but on the other hand I expect 7 of the older pupils will stop going to school as they will be 16 years or over. I would like to know the Department's regulations in regard to these non-treaty children. If granted the privilege of attending our day schools, it will also mean allowing them to live and grow up on the reserve where they will expect to make a home in future. It may also cause numbers of others to do so as the Butler, Coxby and Glen Mary settlements, situated between John and James Smith Reserves are mostly settled by half-breeds who are relatives of the Indians of the said reserves. If it is going to make a precedent, which will be followed immediately on the James Smith reserve, I would not recommend that they be allowed to attend.

Sir,—

I am in receipt of your letter of Nov.4th., and other envelopes enclosing receipts,accounts,and reports.

As regards the employing of a man to help you during the winter,I am not recommending same,as to equip a proper outfit to convey the children will necessitate some considerable expense,and I think it is up to the Indians to see that their children attend school.

Inspector Chisholm and I were to have started on Monday last,8th.on his inspection tour,but that morning he 'phoned me saying he could not get away for a week and perhaps longer.

I have not yet received Adam Charle's cheque for $5.00, which I left with you to be endorsed by him,and returned here to be applied on his account;kindly forward same by return mail.

John Smith's Reserve. Puckaha. Saskatchewan.
December,1st, 1915.

Dear Sir,-

I very much regret to find that I must ask the Department to give me some consideration with regards the question of having a man to help me during the winter months.

I assure you that if I could possibly manage without one, or even unable to pay a man out of my salary, I would do so, as I have no desire to make expense, but I think if the Department knew the many things one has to do between daylight & dark in the short days, there would be no objection to an allowance of a small amount.

May I be allowed to submit the following for consideration, but beforehand I may add that if an allowance for this purpose has not been granted, etc, etc, I will do the best I can during the winter. The Department seem to manage as much as they are able, & with the very extensive lines, one must be prepared to work harder.

From the attached letter from Duck Lake, you will notice that I have already had some correspondence with the Assistant Agent, who has not been fit to receive mail. Early in October I asked the Agent to take up this matter with you, and give him the details of the children attending school etc, and I was under the impression that he intended to do so. My reason for asking

with the object of having the children conveyed to school and a man to help me under the new leading is that by having the one man for both purposes seems to be the most satisfactory, and certainly cheaper. The Department will remember that last year a man was employed for this, and that he was paid $16.oo a month, of which I paid half, and I bore part of my own return. I hoped that this arrangement might have been continued this winter, although I must say that it would have been somewhat of a difficulty for me to pay half, and I trusted a good deal upon an increased attendance of young children, hoping on account of this that you could undertake the whole amount. On the 16th of November the Agent was here, and on that day he told me that you had not replied to his request for a man, to split with this letter being written on the 11th, which I did not receive until the 20th. I had in mind some previous instructions from the Department to the effect that I should take up these matters with the Agent, which I did, allowing plenty of time for consideration, but which you will see has not settled the matter today, making things very different for me just at the time a man is needed.

In October I was able to point out to the Agent that there are five or six young children who have been coming to school during the summer, and a number of them attended a few days each winter, while others, which could not be expected to attend during the winter if they had to walk in the deep snow.

I find that the total attendance during November has been 462 compared with 555 during October. I may be partly accounted for by [illegible] children have (he has ordered them back [illegible] but on looking over the register I notice that many of the young children are away, and I account for this owing to the fact that now we had in the middle of the week, those which the younger children have not attended. The statement of the Agent to the effect that it is up to the Indians to see that their children attend school can hardly be said to apply to the little ones, also they do see that the older ones attend, and they want to send the little ones, but the way they are going on the road, under the present arrangement, and some of them have already asked me to take up this matter with you, one can going as far as to say that he could have no difficulty in getting a partition signed by the parents for the Department's consideration in this respect.

It seems to me, that **xxxx** while the Indians are anxious to send the younger children, it is a very hard to do something on them. They state that parents in the **xxx** children were not so young they were drawn, also they compare to this time of the year to the Carlton Agency. Of course I do not know if they are right or wrong in this respect. I would however that the drawing of the **xxxx** children has a very good effect on the remove in general, in the way that [illegible] to school. I may that when the new [illegible] I found. Then people would not care for their neighbours to say that such and such a child could not go to school because they did not have [illegible], and that, in a way, the latter may have other points of advantage which we have not considered.

As regards the outfit for this work, as the Agent says it may necessitate some expense. It is too much for the single boys I have in mind but it could be managed or denied. I have in mind that the Agency some of the Farm Instructors could have two boys, if not more. Mr McCoy recently of La Crosse, told me that [illegible] where he had two boys, there were six or seven boys there, but he says he is sure he possible that all these boys are working during the winter, and I don't think it would be a matter of great difficulty to transfer to a boy, after a couple years from another reserve, or the winter months. Only would be employment the boys could get by [illegible] by Instructors [illegible] over in two months, and I am sure one of the boys would have in enough to feed the others, and relieve a team if necessary to do so be employed.

In this manner I think the matter could be dealt with without creating any, and by having a man employed the [illegible] I can have the confidence of the Indian I write about. He would be

Sir,-

In reply to your letter of the 1st instant, I beg to say that after careful consideration the Department has decided that it will not be possible to arrange for you to have the services of a man to assist you during the Winter, and drive the children to school. It is considered that you should be able to do the necessary work about the premises, and as the children live along the river road, at no great distance from the school, the Department considers that they should be able to walk there. In many country districts, White children have to walk much further than the Indian children referred to in order to attend school, and they do not consider it a hardship to be obliged to walk.

June, 25th. 1916.

Dear Sir,-

Will you kindly write at once to Ottawa, and ask them if they will allow my wife and I to be away from the reserve from July, 12th. until July, 26th. or 28th, and if during that time Rev' J. Rance of East Prince Albert can occupy this house and look after things?

Mr. Rance is wishing for a couple of weeks out of the City and as he knows all the people here, I think he would look after everything well. Mrs. Rance will take care of the drugs, she having been a nurse, and as it will be during the first part of the haying season, there will be little to be done. If this can be allowed, ask the Department to let me know direct, because it will take another week at least before I can get your answer from them, and the above dates have been arrived at after some difficulty.

Dear Sir;

I would be glad if you would ask the Department without delay,if they will allow the school to be closed for the first two weeks in January next;reopening of the 15th of that month and going on until July,13th. This will give us two weeks of the summer holidays during the winter.

I gather from the Indians that they would rather have a longer holiday for the children just after Christmas,and shorter in the summer,on account of the very cold weather that we usually have at that time. The little boys cannot,or do not come well in the cold weather,and with two months holiday in the summer they miss a good many days.The days also are short, and two weeks in January will give me some time to draw up the rest of the wood,and cut up the beef,and besides this there would be a small saving on wood.

I also wish to be allowed to arrange the Easter holidays according to the weather.Easter comes just about the time the snow is going and I notice that school has to continue while the road is almost impossible to travel for about a week,for water.Several of the children miss these days,then perhaps during the Easter holiday, the road will be dry.It would be better if their Easter holiday could be given them just while the snow is going.They get wet feet causing colds,etc,and I think we should arrange this better.Of course this Easter Holiday would depend upon the weather entirely,but the children would not miss so many days if I could be allowed to arrange it as desired.

Neither of these requests would make any difference to the total number of school days in the year.

Regarding the supplies purchased for the Day schools in this Agency, viz,-those used for the preparation of the pupil's Mid-day meal, such as, Sugar, Beans, Peas, Baking Powder, etc. I have the honour to ask for authority to be allowed to purchase these in future in 100 lb. lots, instead of a few pounds monthly, usually requisitioned for. A quantity, sufficient to tide each school over four or six months could be purchased at a time, the supplies, when purchased, being held by the farmersin their ration house, and issued to the schools on their reserves when required. By following this course, the usual monthly requisition for such supplies, by the teachers would be dispensed with, and much more convenience experienced all round.

The three schools in this Agency use approximately the following amount of such supplies annually,- Sugar 500 lbs., Beans 300 lbs., Salt, 150, and Baking Powder 50.

Authority to purchase these amounts, for the current fiscal year, is therefore asked.

Ref. your letter No. 117084/1 of the 27th July, 1917.

Sir,

With reference to the letter quoted above regarding a communication received from a number of Indians on John Smith's Reserve stating that they wish to have a change of teacher for their school and in reply beg to report as follows: -

Amongst some of the better educated Indians on this reserve there is a feeling that their children are not making the progress they consider they have a right to expect and ~~from~~ my report of inspection on this school just submitted I trust will enable you to judge for yourself in this regard.

My opinion, however, of the reasons for the request made by the Indians of this reserve is that there is more objection to Mr. Gentleman as Overseer of the Reserve than as a teacher. There appears to be several factions amongst the Indians of this reserve part of whom are loyal to the Overseer while those who consider they have a grievance against him have, no doubt, signed the petition mentioned.

In so far as Mr. Gentleman is concerned I believe he is a conscientious and trying to do what he considers is the proper thing for the Indians on this reserve. He is, however, most unfortunate is that he appears to have the faculty of "getting in wrong." From correspondence on file at Duck Lake Agency office it is evident

that Mr. Agent Schmidt has had considerable trouble with Mr. Gentleman over matters pertaining to the reserve. Mr. Gentleman is very positive in his views and at times makes unreasonable criticism of his Agent, the Agency and Department methods. I may say, however, that of late there does not appear to have been the same trouble in this respect. Taking everything into consideration I would consider that it would be in the interests of the Department if Mr. Gentleman could be transferred to some other school where he can devote his whole time to school work. I may say that Mrs. Gentleman appears to be rendering good service as matron on this reserve and her work appears to be appreciated by the members of the Band.

I have the honour to be, Sir,

John Smith's Reserve, Puckahn.
Saskatchewan. September,29th,1917.

Dear Sir;

In making out my school report for the September quarter I have to report that two children have not attended since the holidays, and as their absence has arisen out of certain circumstances I wish the Department to have the full details of the matter, and also to ask that some instructions be given, dealing with matters that have arisen regarding these absences.

The two children are Sophia Crain,14½, daughter of Geo. Crain, and Kate Crain,12½/ daughter of James Crain.

As you know, some of the people recently asked for a change of teacher, a request that they also made of the Bishop of Saskatchewan, while I was away in B.C. On my return the Bishop and I went into the matter, and I found that the list of names sent to him was mainly, not, those of parents of children attending school.

The Bishop suggested that I see the parents, and that if they wished for a change, or if there was any decided opinion that a change was desired on the parents part, then some arrangements might be made, otherwise it would be better for us to remain.

This I did. I saw all the parents, and asked them to meet me in the schoolhouse, and I told them that if they wished for a change I had no particular desire to remain, as the children would make no progress whatever under such condutions. I found that the objections to my work came from James and George Crain. Three other parents who had signed the request to the Bishop said that they Had done so, after being requested several times by James Crain. The majority of the parents objected to a change, and gave their opinions freely upon the matter, and it was clear that the difficulties had

been brought about by James Crain. The same day, I received in the mail the Departments letter on the same subject addressed to the Chief, who was present that evening at my request, with the other councellor. I gave the Chief his letter, of course not knowing its contents, and on its being interpusted, there arose considerable discussion in Cree. To quiten matters down, I suggested that if the Chief would give me the letter I might be able to explain it, for which he thanked me, as he could not understand same,himself.

I saw at once that a request for a change had been made, but the discussion had arose over the fact that the Chief, and James Crain, and apparently the north end of the reserve had written you without consulting the other Councellor, or the rest of the band. I then exlained to them,that,as the Chief, and some of them had made this request to the Department, that as stated,enquiries would now most certainly be made, and that probably the Agent,or Inspector or both,would shortly pay us a visit, at which time they would have an opportunity to go fully into the subject. Of course, this might have been a mistake on my part, but at the time, I could see no other way out of the difficulty, and I certainly expected this to happen. However,everyone was satisfied to let it remain at this.

Somewhat to my surprise, no further notice has been taken, althrough the Department tell the Chief, that he would be informed later upon the subject. During the last week in August, I visited all the houses, and told the people to return the children to school on the third of September, which they have dome with the two exceptions mentioned. After two weeks of school, I heard that James and Geo Crain had sent their children to one of the public schools in Prince Albert, and not know what attitude would be taken on the matter, or if the attendance of these children at school in Prince Albert was a fact or not, I reported the above details to Mr Crombie

with a request that he should pay us a visit, or ask Mr Schmidt to do so in order that the people might, at least, have the satisfaction of knowing that the matter had, or would be enquired into. Mr Crombie writes me that he has already given his views upon the subject, but whatever these might be, it is hardly satisfactory to the parents, as from their point of view nothing has been done, either one way or the other.

A few days after this Mr Schmidt arrived, and on going into these matters with him, I found that he had hadno correspondence upon the Carlisel and regarding the Crain children going to school in town ,we decided that I should see the Crains and tell them that this could not be allowed, and that the children must return to school as soon as possible . The next day I saw the mother of Kate Crain, a halfbreed woman, who told me that her daughter Kate was attending one of the town schools, but she would not tell me which, and also refused to to get the girl back from town.

As it is impossible to beleive them, the following Saturday, I met Mr G.A.Brown, the Superintendent of the Prince Albert schools, who told me that he would enquire if Kate Crain was attending any of the town schools, and he now writes that he cannot trace her . I gathered from him that the town schools would not be anxious for her, but as she might be working in the town, it would be difficult to refuse her admition unless requested to do so by the Department.

On the other hand, James Crain has told everyone that his daughter is attending a town school, and he tells Gilbert Bear H.M. that he intends to keep her there. I reported my interview with Mr Brown to Mr Crombie, with a request that some steps be taken, but at the time of writing I have not had his reply.

During the past two weeks James Crain has endevoured to have the parents of three other girls, aged between ten and twelve, send their children into town, and in this way seems to be anxious to create disfaction among the parents, but so far he has not met with

success. At the same time, such proceddings do not tend to help the school in anyway. James Crain has also a boy of nine who attends, but whom I think does so with the express intention of making as much trouble as possible:, and as all the people are aware of these circumstances, it causes an entirely unsatisfactory tone to our work.

I hope you will see fit to back me up in some shape or form; either insist that James Crain returns his children, or dismiss them entirely. I beleive you are aware that this band have in the past given various troubles and difficulties to whoever has been in charge. Former Agent MacArther told me in 1913 that I would stay with them six months, and he knew them well, but with tact I have managed them since that time, and I trust the Crains can be informed that such things as these cannot be allowed. If no notice is taken, it reflects upon a whole host of other things, such as killing of cattle, and selling without a permit, thus making other rukes and regulations most difficult to enforce.

I might also take this opportunity to thank you for your letter No 117084-1 dated August 18th, and,while these people have little, if any cause to complain and most of them would be satisfied if a firm stand is taken upon the matter, my interest in the school is not what it was, a change into a Boarding school when a vacancy occures, is something to look forward to.

Yours very truly

Sir,-

I have to acknowledge the receipt of your telegram of the 21st instant, which reads as follows,- "I respectfully request your department to my sending my girl age thirteen years to public school Prince Albert P.H. Gentleman is trying to prevent this it is the wish of my wife and myself to give our girl a good education".

In reply I beg to say that section 1 of the Regulations relating to the Education of Indian Children provides that, "All Indian children between the ages of six and fifteen shall attend a day school on the reserve on which they reside for the full term during which the school is open each year, unless excused for the reasons hereinafter mentioned".

Sub-section A of section 3 of the Regulations exempts the parents or guardians of a child from the penalties of the Regulations if the child is under efficient instruction and, if you are prepared to send your daughter to the public school at Prince Albert at your own expense, the Department will not object to your doing so. She must, however, be a regular attendant at this school or she will come under the provisions of section 1 above quoted.

Previous to the receipt of your telegram it was the intention of the Department to write you in regard to the petition signed by yourself and other Indians of the John Smiths Reserve, asking for another teacher to replace Mr.

Ottawa, October 23, 1917.

Sir,-

I have to acknowledge the receipt of your letter of the 29th ultimo in reference to certain trouble which you state you are having with the Crains, who are not sending their children to your school.

In reply I beg to say that a telegram has just been received from James Crain asking for permission to send his daughter to the public school in Prince Albert. To which the Department has replied that, if he is able and willing to send his daughter there, without any expense to the Department, no objection would be raised to his doing so, but it is to be distinctly understood that she is to attend there regularly, or she will come under the provisions of section 1 of the Regulations relating to the Education of Indian Children and have to attend your school.

Crain is also being informed in regard to the petition sent in by him and some other Indians for a change of teacher that the Department is not prepared to grant their request and that it disapproves of the constant bickering.

While the Department recognises that you and your wife are working in the interests of the Indians, it would be well if you would use a little more diplomacy in dealing with them.

Mr. Inspector Crombie and Mr. Agent Schmidt will also be written to.

Sir,-

I beg to inform you that James Grain, a member of the John Smiths Band, wired the Department for permission to send his daughter to the public school at Prince Albert. In reply he was informed that, if he is prepared to do this at his own expense, the Department would not object, but that she must attend regularly at the public school, or she will come under the provisions of Section 1 of the Regulations relating to the Education of Indian Children.

Previous to the receipt of this telegram, a petition signed by Grain and several other Indians was received asking for another teacher to replace Mr. Gentleman. Dear Sir.

I find, with considerable regret, that you do not appear to have issued any instructions with respect to my letter of September 29th, in which I called attention to some school difficulties that have arisen recently.

However I find, that my report of the 29th ultimo did not cover circumstances that was unknown to me on that date, and I wish to supply same without further delay.

James Crain sent his girl into Prince Albert after the summer holidays, and was said to be attending one of the town schools. I reported this fact to Mr G.A.Brown, also Mr Crombie, but both these gentlemen informed me that this was not so, also that no attempt had been made to enter an Indian girl. As Crain made known that his girl was in attendance at a town school, I visted the schools and found that hh was correct; the girl being in attendance for the past six weeks, full particulars being found on the card index of the Central school, regarding name, age,home, and boarding place. The girl is working in town for her board.

I placed this information before Mr Crombie, and this week week Mr Schmidt, has visited us, and will submit a full report upon the subject.

I must say that I want the Department to back me up, and have this girl sent back. I do not object to the child attending a town school, and an willing to work through the whole eight grades of the provinical course with the girl, but I do strongly object to the manner that Crain has taken the matter in his own hands, for if he allowed to do so, others will want to follow his example, and I do not feel that it is correct that I should do the elementary work

in this manner. Crain has another boy attending here, but just as soon as I have got him on a little, he is liable to take him away. Crains girl has made a regular attendance during the past four years, and the man is in a position to keep her at home. At the Central school the Class teacher gave me a good account of the girls work, which has given an opportunity of showing that she is not so backward as her parenst wish to make out.

I am sorry that the matter has not been settled before this. I do not like the influence she will bring back with her, but in order that the rest of theband may know that they cannot take matters entirely in their own hands, her return is necessary.

Gilbert Bear H.M. also Robert Bear H.M/ tell me that that it would be satisfcatory if a firm hand is shown; the Chief is ~~indifferent~~ indifferent. Crain sent his two elder girls, here,some years ago , removed them to Battleford , removed them from Battleford in less than a year, and kept them at home, until I came here when they made an attendance for about a year, and the man is known as a kicker among the other people.

I therfore wish to know what attitude the Department will take upon the matter, without delay. I might add that the Central School Prince Albert is weal known to be overcrowded. I do not think the the town schoolboard would approve, particulary if they know that other parents might follow Crains example.

Dear Sir;

In reply to your letter of the 23rd ultimo, No 117084/1 regarding James Crains daughter, I must say that I did not know until last week that the Departments regulations allowed the attendance of Indian children at any school, otherwise I would have only reported this matter in the usual way.

I am sorry that Crain has been replied to, as it is possible that his telegram may have given the impression that I have been attempting to use some force to have him return his girl here. All I have done, is simply to give Crains the Agents message in September i.e. "that the Agent wished to have these chidrein back at school." Crains answer was "we will see about that" given in a most insolent manner, and I have not spoken to the man on the subject since. I certainly reported this to the Agent, also informed Mr Crombie that the girl was in attendance at Prince Albert, but the delay on the subject has been caused by Mr G.A.Brown of the City schools saying that the girl was not in attendance, which was not correct. Crain entered his girl on the 3rd of September, and the Central school have all details card indexed from that date.

The main objection to the arrangement is that Crain is not likely to keep his girl in town for any length of time. I have noticed that most of the people will not leave home for more than a month, and I am informed that already the girl wishes to return home. Crains are visiting the other people with the object of getting other children into town, but I am sure that this is only for company for his own girl, and it was to prevent this situation from arising that I asked Mr Crombie to come out, or to send Mr Schmidt to deal with

the matter in September. I would also add that I had no idea that Crain was disatisfied until last July. He took the opportunity of the annual gathering for treaty money to circulate his petition for a change of teacher, and at the same time assisted with the school sports which was held that day. About a year ago he told me that he objected to the use of the blackboard in school, and since then his brother George has objected to Nature Study. This man took his family to Cumberland House three months after I came here in 1913 and kept them there until eighteen months ago, without sending them to school, and they are in conqequence behind the others. This mans action has given me a great deal of work, I have tried to get them up, but they are still a grade behind

James Crains girl has has made as much progress as any in the school. She was one of the best pupils, and has read through four readers, and his man has no cause whatever to find complaint. She was one of the girls whom Bishop Gray of Edmonton considered the brightest pupil the Bishop visiting us in January last; and the enclosed letter written by the girl to myself of her own accord after school closed for the holidays, seems satisfactory. She makes no less than seven references to lessons given in the geographies and readers. In 1913 she was reading in the first reader and is the only pupil who has written me a letter from her home.

I think in justice to myself these things should be brought to your attention. I have been careful with the people, but I do not like the manner in which Crain seems to have taken the matter entirely in his own hands. Nothing would have given me greater pleasure than to prepare his girl for a provinical High school had he made his desire known, either to the Agent or myself.

Yours truly

P. H. Gentleman

Sir,-

I have to acknowledge the receipt of your letter of the 30th ultimo in reference to the attendance of the daughter of James Crain at the public school at Prince Albert.

In reply I beg to refer you to official letter of the same date, in which you were advised that Crain had been informed that, if he is prepared to send his daughter to the public school at his own expense, the Department would not object to his doing so, but that she must attend the school regularly, or she will come under the provisions of Section 1 of the Regulations relating to the Education of Indian Children.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd ultimo stating that, as the John Smiths Day School potato crop was poor, ten sacks more will be required to complete the requirements of this school until the spring.

In reply I beg to say that you may purchase ten sacks of potatoes for this school and the cost should not exceed the price you quote, viz.- seventy-five cents a bushel.

Sir,-

I have to acknowledge the receipt of your letter of the 10th instant enclosing meal report from the John Smith's Day school for the month of July, last.

It is noted that 184 meals were served and that 100 poun s of bacon were used for these meals. This is over half a pound for each meal and it is considered that this is too much. You will be good enough to inform the teacher of this school that in future the children should not be allowed so much bacon for a meal.

Dear Sir;

For upward of a year or so, I have been thinking of writing to ask the Department if any consideration could be given to an application for an advance in salary.

My salary is the same as we received in 1913, while our work in one way or another seems to have increased. In addition to this prices on almost everything have greatly advanced within the past six months. Looking over lists of school material recently I find that these also have gone up. I make use of many little helps in the school at my own expense; footballs, baseballs etc all of which have taken an advance.

I also find that whan I have occasion to employ an Indian that I have to pay them double that of two years ago. They are getting very high wages for outside farmers, which makes help both difficult and expensive to obtain. I have to get a man at times, more often during the winter months. In the past, I have often issued my own rations for help during the short days, but with the much higher price of flour and bacon, we are not able to afford to do this.

I also have to send part of my salary to England & I am told things are very high at home. In nearby schools salaries have almost doubled in the past two years, and in some cases houses for teachers have been built . Trusting the application will receive consideration.

Yours truly S. H. Gentleman

John Smith's Reserve. No. 99.

Overseer in Charge, P.H.Gentleman.

Mr. Gentleman is also teacher at the day school on the reserve. As overseer he is of very little assistance to me apart from the issuing of rations once a month to the destitute, seven in number and occasionally to some sick person. He is not handy with machinery and knows very little about cattle or horses. To the work of the Indians he gives very little attention, and none whatever to their cattle.

BUILDINGS.- The teacher's residence, schoolhouse and other buildings are convenient, and are kept in good repair.

YARDS and GARDENS,- The yards are kept clean and tidy, and the small garden in the school yard is growing nicely, and is kept clean.

MACHINERY,- There being no home farm on this reserve, we have no machinery. The Indians purchase their own implements and care for same at their homes. The band threshing machine is kept at the Teacher's home. This is a 12 horse Gasoline Engine and an Eclipse Separator. The engine is kept in an open shed and the separator is left outside, there being no room for same.

DEPARTMENT STOCK,- A driving horse for the use of the Overseer and two Hereford bulls are the only Department stock kept on this reserve; the bulls are wintered by the Indians. The overseer has a cow which is his personal property.

John Smith's Reserve,

I visited this reserve on Friday, 4th, October, I was no more fortunate herethan I was at Jas. Smith's Reserve. I found the school closed and the teacher away in Prince Albert. Mr. J.H.Gentlemen is the teacher. He also acts in the capacity of Overseer of the reserve, which I think is a great mistake, as he is not qualified to fill such a position. If there ever was a reserve that required competent and constant oversight, it seems to me this is one. The Indians here are capable of doing good work, judging from the class of men I saw, but what they need is advice and someone to lead them and this they have not got. To me it looked as if the Indians were living under better conditions years ago, as I saw quite a number of commodious houses that were not kept up and what appeared to be good fields which were allowed to go back. There is no doubt in my mind that if we are to get results from the present day Indians, we must be prepared to furnish competent oversight, men who will lead them and take the same interest in them and their farms, that they would if they were managing their own personal property. I know it is hard to get the right kind of men for the inducements we have to offer. Foremen looking after one section farms situated in white communities, with all the advantages in the way of shcools, etc., are getting from $1200.00 to $1500.00 per year, in addition to house, fuel, light, and other perquisites such as food, etc. This being the case you can readily understand that good men will isolate themselves and their families for the wages we are offering. It is true that the class of men we have on many of the Reserves, are not worth more than we are giving them, but it is just this class of man that is holding up the work. All success depends on their leadership.

Extract from Teacher's Report on the John Smith Indian Day School for the year ended December 31, 1918. Original on 160370-25F. SASKATCHEWAN

REMARKS.-

ATTENDANCE is not nearly as good as it used to be. Since the Dept. allowed one man to take his girl away the parents have the idea that they can do more or less as they please in the matter. When enquiry is made for absent children the stock answer seems to be that the child is sick or has to work. But sick children are taken to funerals and dances and there is no means of having attendance enforced. As they now kill and sell their cattle just as they like, as well as hay and grain, these things react on the school. The attendance could be improved by having Saskatchewan police visit all houses once a quarter, same as is done in white and halfbreed schools, on request of trustees and in this case Dept. stand as trustees. Apparently the Department wants me to be truant officer. Having called attention to attendance, would consider that it is up to someone higher than I to deal with Indians on the matter. As it is at present they merely think it is an idea of mine when I tell them they should attend better and it does not matter anyway. The people do just as they please and laugh at the Department for being so simple.

Sir,—

I have the honor to enclose, herewith, "provisions used at Day Schools..." Reports, from the John Smith's Reserve for the months of September, October and November 1918, with these of January and February 1919, also similar Reports from the Fort-a-la-Corne South School, for the months of September and October 1918 with January and February of this year.

There is not a Report for December/18 from either School nor one for November /18 from the Fort-a-la-Corne School on account of the Schools being then closed, during the Influenza epidemic.

John Smith's Reserve March 11/19.

Dear Sir:

With reference to my letter of the 4th inst regarding school attendance, I have had some additional details given me with respect to Frances Jane Mary Bear, which I would like you to place before the Department .

Her father Robbie Bear #97, tells me that this girl was sent to work at the Empress Hotel in Prince Albert, without his knowledge, and very much against his wishes. I asked him by whom " and he supposed "the Crains." I wanted to find out if it had been the action of Mrs. Colin Bear (Shophia Crain) but I do not think he knew. He then told me that he wanted her back at school, but did not know how to act, as the girl had likely hired for a month at the hotel. So I told him that I would write you on the subject as soon as possible.

In the past I have often told this man that he should have his girl to live with him for short periods during the year, but she has always been at the Chas. Crains. I now understand that the girl was "given" to Sophia by her sister Mrs. Robbie Bear (nee Laura Crain) but her Father has never consented to this entirely, that is he has allowed the child to live at the Crains, but would have liked her at home, and I know he always supported the child with cbothes. The man, as you know, is somewhat of a quiet disposition, and the Crain family seemed to have taken an advantage of this.

I am of the opinion that James Crain is at the bottom of the whole matter, and perhaps the Department will see how that this man defies all order, event to the extent of taking no notice of the Father of this girl.

I would like to see the Department look into the arrangement of Frances always living at the Chas Crain, and if necessary issue instructions that she should live at her Fathers six months of the year.

At present Robbie Bear is somewhat concerned over his girl, owing to Henry Bears girl Rose, who also worked at the Empress Hotel having married a man three times her age, after an acquaintanceship of a very few days.

Yours truly,

Sgd. P.H. Gentlemen.

John Smith's Reserve, Puckahn, March 4/19.

Dear Sir:-

In making up the annual school report for 1918, that the Dept. ask for direct mail and mailed today, I find it is again necessary to call attention to indifferent attendance, and I would be glad if you would reopen at once the question of a truant officer.

This poor attendance continues, and I am convinced that there is a certain amount of "dont have to" idea among parents, and there is a lack of authority to show otherwise. I spent a recent Saturday looking for children, and met with various excuses, cold, lack of shoes, waiting on sick people, as in the case of Mrs. Albert Smith, whom the Doctor says there is nothing the matter with, but who has to keep a child home to wait upon her.

It is difficult to deal with these matters alone. Doubtless at times such reasons are good, but I am afraid, some of the parents make little effort to overcome them, and are satisfied to dig up some passable excuse, and just let it go at that, as they see that little can be done on our part.

Instances of this nature have recently come to my notice. Most of the children have had bad coughs lately, the Alfred Smiths girl began coughing badly in school. We gave the child several doses of cough mixture and also a large bottle to take home. Absent the following day, but the next day, I had to bury the child of Gilbert Crain, and Mrs. Alfred Smith took her girl along to the churchyard and spent most of the afternoon in and out of the church. Colds or coughs wont prevent parents taking children to funerals or dances, and it is just a loss of cough syrup. On the other hand, if they "had to attend, they might make an effort to get them better.

Blacksmith's wife called last week early in the morning saying both her boys were sick, one of school age. Provided with cough syrup and mustard, and pills that seemed necessary, and told to go home and put the Children to bed. Appears to have spent most of the day visiting, and the boy of school age who certainly had a very bad cold, had to be sent to look for his mother, by Blacksmith who was nursing the youngest child. Samuel,-t the child in this case who should be at school has got very little attention from his mother.

George Crains Alex, boy of 12 or 13; attendance very bad indeed. Father being sick, boy is made to work, not only doing their own chores, but draws hay from across the river for other people. No reason whatever why this boy should not do all the chores around their own home, and get to school by ten o'clock. Since Jan. 1st 8 days out of 40 in this case.

Frances Jane Mary Bear, sent by her Aunt, or Chas. Brains people to work at Empress Hotel in Prince Albert. Girl of about 14, just in the middle of 6th reader, and taken away in the midle of the quarter, which I very much object to. I had told this people that Francis should finish the reader, and leave at the end of the quarter, and they seem to be willing enough to recognize this at the time, but without saying a word the child is sent to work, and there is no reason; they are not hard up, the girl is too young to work, and hotels are not suitable places.

Henry Bears Terrance, boy of 13. In this case I surmise that Henry has to let the boy have his own way. Henry does not admit this, and speaks of having hay from across the river to draw, but Master Terrance is inclined to want his own way, and having found out that there is nothing to compel attendance, does as he likes.

All these cases might suddenly take a notice to attend again and in any case, it makes broken classes, and repeated work in school, and repeated work is not fair to those who do attend.

From these instances perhaps the Dept. can gather some of the difficulties that I have to condend with, and I maintain that it is difficult for myself to compel a satisfactory attendance without an independant authority coming from the Dept. as law. A member of the band as truant officer would not be satisfactory, and an arrangement should be arrived at with the Saskatchewan Police to handle the subject in the same manner as is done with white rural schools which our Indians are fully aware of. A standing request with the O.C. Prince Albert for a constable to go through the Reserve twice a year to take the naes of children not at school, visiting every house, is all that is necessary. Reports of non-attendance could be asked for, but I am convinced that a warning of this kind would have a very desirable effect; in fact I doubt if it would have to be repeated twice. If this could be arranged I feel sure that sick children would have a little more attention, and the "dont have to idea" towards leaving age, would not be so manifest.

At the present time I can do little myself to overcome this difficulty, as the parents take the stand that it is just an idea of mine, and as long as they can find a reasonable excuse, they make little effort. By showing them in this manner that a better attendance is required it would save me a great deal of unplesant and unsatisfactory work, and be of vast benefit to the Dept. in the future.

Yours truly,

Sgd. P.M. Gentlemen.

INDIAN AGENT'S OFFICE

DUCK LAKE SASK.

3121-115

19th April, 1919.

Sir,

I have the honor to forward you, attached hereto, copies of two letters received from P.H. Gentlemen, Teacher of John Smith's Reserve Day School, regarding attendance of the children.

Regarding the appointment of a truant officer I have Departmental letter No. 117,084-1 of July 29th, last which says:- "...That the Department considers that it would be well to appoint a truant officer " and asking that I state the name of an Indian who would be suitable for the position etc. I took the matter up with Mr. Gentlemen last summer, but he would not hear of having a truant officer on the Reserve. As regards the appointing of one now I do not consider same is necessary.

The attendance was small during theMarch quarter it is true, but this was on account of the children being unwell, as it is stated in Mr. Gentlemen's remarks on his Quarterly Return. A number of them were suffering from after effects of the Influenza.

If Mr. and Mrs. Gentlemen exerted themselves more, I am satisfied the attendance would improve.

Re Frances Bear referred to in Mr. Gentlemen's letters, this girl was quite young when her mother died and she was given to, or taken by her grandparents to Charles Crain, where she has been living ever since; she was well cared for and and has a good home. Her father Robbie Bear, No. 97, married a second time to Widow Ed. Smith but Frances was never taken back to her father's home, and he, Robert, has never mentioned to me his desire or intention to take her from her Grandparents. When I visited

Reserve on March 28th last, Frances had returnedhome from Prince Albert to stay.

There are three factions on this Reserve, the Bears, Crains, and Smiths. Mr. Gentlement gets along well with some of the Bears, but his relations with the others are strained, and in some cases badly so; there are somehomes he will not enter at times.

I consider Mr. Gentlemen's usefulness, which never was great, finished on this Reserve, and I recommend that a change be made of teacher and Overseer, and that a practical and competent person be appointed.

Sir,-

I am enclosing herewith a letter received from Mr. Agent Schmidt, of the Duck Lake Agency, with regard to the appointment of a Truant Officer on the John Smith's Reserve.

The question of Schools on this Reserve is a farce, and I have already reported fully on this matter. I do not think having an Indian Truant Officer would be to any advantage at all. My recommendation is that the School be closed and that an industrial school be built, by the Anglican Church in the City of Prince Albert. Mr. Gentleman, so far as I can see, is not the man to be working with Indians.

MEMORANDUM for Scott.-

With reference to Mr. Commissioner Graham's letter of the 26th ultimo enclosing a letter received from Mr. Agent Schmidt with regard to the appointment of a truant officer on the John Smith's Reserve I beg to say that the irregular attendance at this school was brought to the Department's attention by Mr. Gentleman, the teacher, in July, last, and the Agent was asked, on the 27th of that month, to be good enough to state the name of an Indian who would be suitable for the position of truant officer and also what remuneration he would expect for the work, his duties to commence on the re-opening of the school after the summer holidays. No reply was received from Mr. Schmidt until the receipt of his letter of the 19th ultimo, forwarded under cover of the Commissioner's letter. The Department had no intimation as to what had been done in regard to carrying out these instructions.

Mr. Schmidt states that he took the matter up with Mr. Gentleman last summer, but that he would not hear of having a truant officer on the reserve and, with the regard to the appointment of one now, the Agent does not consider that the same is necessary. Mr. Schmidt also states that if Mr. and Mrs. Gentleman exerted themselves more he is satisfied that the attendance would improve. The Regulations provide for the appointment of a truant officer, and the teacher is not expected to act in that capacity.

Mr. Schmidt, in the concluding paragraph of his letter, says "I consider Mr. Gentleman's usefulness, which never was great, finished on this reserve, and I recommend that a change be made of teacher and overseer, and that a practical and competent person be appointed".

The Commissioner, in his letter, states that the question of schools on this reserve is a farce and that he has already reported fully on this matter. If he has done so I fail to find his reports on the school file.

Mr. Graham agrees with Mr. Schmidt that a truant officer would not be of any advantage, and his recommendation is that the school be closed and that an industrial school be built by the Anglican Church in the city of Prince Albert. He also concurs in Mr. Schmidt's estimate of Mr. Gentleman, and is not the man to be working with the Indians, as far as he can see.

We have only had one report on this school from Mr. Inspector Crombie, which was made in June, 1917, nearly two years ago. While he considered that the progress of the pupils was not as good as might be expected under a teacher who had been in charge as long as Mr. Gentleman, he stated

stated that the pupils in the higher grades were doing well. A lack of progress was noted in the lower grades. I would be loathe to condemn Mr. Gentleman on any of the reports received on his work.

The trouble with Mr. Gentleman seems to be that he and the Agent have failed to get on together.

Mr. Inspector Crombie, who was asked for a special report in regard to a change of teacher, states that in his opinion the reason for the request made by the Indians is that there is more objection to Mr. Gentleman as overseer on the reserve than as teacher. He says that there are several factions amongst the Indians, part of whom are loyal to the overseer, while those who consider they have a grievance against him no doubt signed the petition. The Inspector states that he considers Mr. Gentleman conscientious and trying to do his best for the Indians. He is, however, most unfortunate in that he appears to have the faculty of "getting in wrong" and the Agent has had considerable trouble with him over matters pertaining to the reserve. Mr. Gentleman is positive in his views, and at times makes unreasonable criticisms of the Agent, the Agency and Departmental methods. Mr. Crombie in his letter by saying that of late there does not appear to have been the same trouble in this respect, but, taking everything into consideration, he considers that it would be in the interests of the Department if Mr. Gentleman could be transferred to some other school, where he could devote his whole time to the school work.

The Inspector also states that Mrs. Gentleman appears to be rendering good service as matron on this reserve, and her work appears to be appreciated by the members of the Band.

An Indian named James Crain, one of the chief movers for the dismissal of Mr. Gentleman, was written to and told that from information received the Department is of the opinion that some of the Indians on the reserve have failed to give Mr. Gentleman any encouragement or assistance in his work and that it is hoped that this constant fault finding with the teacher would cease, and that the Department is not prepared to accede to their request.

My experience is that that few, if any, teachers, can remain for any length of time on an Indian reserve and avoid trouble, as they are uncertain, coy and hard to please.

In my opinion there are not sufficient grounds to call for Mr. Gentleman's dismissal, but, if he could be given another field, it might be in the best interests of all concerned.

The Commissioner recommends that the school be closed and an industrial school built by the Anglican church in the city of Prince Albert. This is hardly feasible, as the Anglican Church have no funds available for this purpose and the Department has gone to considerable expense in providing suitable day school accommodation. Judging by the photographs of the buildings Mr. Gentleman has kept them in good condition, and there is no reason why a day school there should not be a success.

Dear Mr. Graham -

I have given consideration to your letter of the 26th ultimo, enclosing a communication addressed to you by Mr. Agent Schmidt, regarding conditions on the John Smith's Reserve, having special reference to Mr. Gentleman.

I am inclined to believe that there is more objection to Mr. Gentleman as overseer than as teacher of the school. As you are aware he is granted an allowance of $200.00 as overseer, and if we are not getting value for this, I would propose that we withdraw the grant and have him devote all his time to the school.

It is out of the question to consider the erection of an industrial school at Prince Albert by the Church of England or even by the Government at the present time. You may recollect that the Church of England conducted a school there, Emmanuel College, which had to be closed some years ago. If Mr. Gentleman were relieved of his duties as overseer he could continue as teacher of the day school until such time as we could make other arrangements for him.

I know of no position at the present time to which he might be transferred, and I would hesitate to discharge him without more evidence. I would like you to take the first opportunity to personally make enquiry regarding his methods and work on the reserve.

Dear Mr. Scott:

Your letter of the 20th ultimo regarding conditions upon John Smiths Reserve and relative to Mr. Gentleman as Overseer and Teacher was duly received. I enclose herewith copy of a letter received from Agent Schmidt in reference to Mr. Gentleman as Overseer.

In my report to you of October 17th last, I mentioned that Mr. Gentleman was not qualified to fill the position of Overseer and I agree with everything Mr. Schmidt now says in this regard. A reference to correspondence on the Department files from Mr. Gentleman will I think disclose the fact that he does not get along very well with the Indians and that in the capacity of Overseer he has displayed lack of ability to handle even minor matters on the Reserve. One interview with this man is sufficient to convince anyone that he is not competent to carry on the affairs of such an important agricultural and Stock Reserve as the John Smiths Reserve undoubtedly is. I would strongly recommend that he be relieved at once of his duties as Overseer, and until such time as other arrangements are made the Agent can handle this work. I am still of the opinion that Mr. Gentleman is not and never will be a success as a teacher and as for using him in any other capacity it is altogether out of the question.

Dear Sir,

I have to inform you that conditions have rendered it unnecessary that you should be longer employed as overseer at the John Smith's Reserve. Your tenure of that office will be terminated from August 1, next.

I may also inform you that your services as teacher are not considered satisfactory and it is doubtful that the Department can continue to employ you in that capacity. I would suggest that it might be advantageous for you to seek other employment.

Yours very truly,

Duncan C. Scott

Dear Sir;

Your letter of June 23rd No 117084-14 14-99 regarding the Overseership of the reserve, and the suggestion that I should seek other employment respecting the school is before me.

In reply I would say that for the past two years and upward I have been made fully aware that Messrs Graham, Crombie and Schmidt have not agreed with my position here, and have placed every possible difficulty in my carrying out my work, and it appears clear that they have at last prevailed upon the Department to endevour to have a change made.

I will not enter into the merits of my work among these people, for unless the Department could get in an unbiased report by a competent authority, nothing would be gained.

Regarding the school work, it is of course within some means of the Department to decide if same has been a success, but I cannot refrain from pointing out that the school has not been inspected by a proper school Inspector since Mr W.J. Chisholm left.

However, I may also say that I have just returned from a visit to Archdeacon Tims at the Sarcee, who very much wishes me to take charge of the Old Sun school at the Blackfoot, and I left him on Friday on the understanding that as soon I could decide upon giving up this position he would communicate with Canon Gould of the M.S.C.C. asking for my appointment to be made to the M.S.C.C. staff. Archdeacon Tims has been in correspondence with me for about seven months regarding the Old Sun, and it has been dropped, out of respect for the Bishop of Saskatchewan that I have carried on my present school so long as this.

I do not feel however that the Department have any reasonable grounds in seeking my dismissal from the school work, and under the circumstances I feel that I can ask for a transfer

to the Old Sun school. I would ask the Department to continue my salary here as schoolteacher at $50.00 monthly for the holidays which I am entitled to, July and August, and also an additional allowance of $50.00 towards a car from Prince Albert to Gleichen, which I may say is in the neighbourhood of $95.00.

I visited Old Sun with Archdeacon Tims, also his own school. I went carefully into the details of the management and carrying on of these schools in every possible way. The children at these schools are far behind in their school work compared with the pupils here, and I feel that I could fully come up to the Departments needs as well as the M.S.C.C.

I also had the pleasure of meeting Mr Gordon, and I was given to understand by Canon Stocken that Mr Gooderham, the Blackfoot Agent gives every assistance towards the successful carrying on the schools of his Agency, which are points that make a vast difference to their work.

I would ask for a communication by return, for after seven years among the Indians, outside of the Hudson Bay Co, the field is limited somewhat, in which I could seek employment, in which I could reap the benifits of my experience among the Indian people.

Trusting the Department may be able to give me this consideration.

Yours very truly,

P. D. Gentleman.

Dear Sir,

I have your letter of July 6th. If you are accepted as principal of the Old Suns school I think I could allow you transportation and expenses for yourself and family from Prince Albert to Gleichen, as it might be considered as a transfer within the Department. Under those circumstances I could not allow the pay for July and August. I think you might find the work congenial in the Old Suns school. There is certainly scope for administrative ability at that point and it should not take you long to prove whether you have it or not.

I wish you every success.

I am not a
returned soldier. My work here has more than doubled, but my three unmarried brothers, are still in service, two since 1914, and one from Canada since 1915, while my salary has supported my sister in England all through the war coast raids, and I have relnit the from of my old home, without asking the Government one cent, and while dozens have been made to cover the labor cost, of things other than the bonus which was brought about by the Post office strike last year, and not by requests from us. We have carried on, and carried on well, and got it in the neck.

I would earnestly ask you Sir, to interview the Department on our behalf; and ask them to withdraw their letter of the 23rd of June, and instead of this to give me a transfer to the Old Sun School at Glechien Alberta. The salary at this school is $600 yearly paid by the Missionary Society of the Church of England in Canada. The Government are paying less than one half towards the expenses of this Old Sun school, and as I can see no reason for my dismissal on school grounds, I do not think it out of the way to ask them to make me a special grant of $100 yearly to make that salary up to half my present one, and also to allow me $50.00 towards the cost of a car from Prince Albert to Glechien which I may say would cost about $93.00 I would add that the Old Sun School is badly in need of someone to take charge, and I have given every satisfaction

to the Church authorities as to my ability to undertake the work, who for the past eighteen months have had a standing request for workers from the returned soldiers organisations, without success.

After seven years work [illegible] the Indians the field is somewhat limited for other work, and as there has been nothing in my conduct that would warrent my dismissal, if the Department do not see fit to grant me a transfer and its cost, I would ask if the fullest investigation into the whole affair could not be made possible. I shall of course go into the subject with the Bishop of Saskatchewan, but I must say I fail entirely to see why such an action should be taken on the part of a commissioner said to be after greater production, after I have got these people producing more than any other farm instructor has ever done.

Dear Sir,

I have to thank you for your letter of the 14th inst. and in reply may state that I am assured that at the next meeting of the M.S.S.C. Committee it will be decided to close the Old Sun school.

Meanwhile, while I was with Archdeacon Tims, the man in charge of the Pelican School wrote resigning on account of sickness, due to the effect on August first, and as the Archdeacon is anxious at once to get a man in charge, I have agreed to go to the Pelican school temporarily for a week or two, until the appointment can be made, to the Old Sun. This arrangement will give me employment for the month of August; and we will therefore leave here as soon as possible after the first.

I will submit receipted accounts of the transfer from Prince Albert to Gleichen in due course, but they will not reach the Department until some time in September. I shall send our tickets to Gleichen, but the temporary work at Pelican will make a break in our journey at Calgary, but the expenses over 3 days to Calgary I will undertake myself.

Dear Mr. Scott,

I thank you for your kind replies to my letter. I note what you say, am sorry that conditions do not allow you to give me more hope, & shall hope for better things in the near future. Meanwhile I write to ask if you will consent to the transfer of Mr.Low, Teacher at Big Head's Reserve School, La Corne, to John Smith's Reserve, vice Mr Gentleman, leaving. I have no one ~~else~~ in sight to propose, & Mr.Low would much like to transfer. Mr.Low is not a certified teacher, but he is painstaking, & I believe he & his wife have done fairly well, & have the progress of the Indian children at heart. While speaking of that I may add that I much doubt if I can get any teacher worth while for Big Head's unless the teacher's house is attended to & put in repair. Mr.Low says he could not stay in it another winter. He has done what he could for it, but it needs overhauling & making weather-proof; & he complains also that there is a great difficulty in getting drinking water. There is no well near. He can not get Mr.Schmidt to do anything for his house. We shall never have peace or progress till Mr.Schmidt is removed.

I beg to remain yours faithfully,

Dear Mr. Graham -

I have approved of the appointment of Mr. P. W. Gentleman temporarily as principal of the Old Sun's Boarding School for which position he was nominated by the Church of England authorities. In this connection I have just received a letter from His Lordship the Bishop of Saskatchewan in which he suggests that Mr. and Mrs. Lowe[illegible] and matron at the Fort a la Corne South School, be transferred to John Smith's. I would like to have your views in regard to this. Personally I would have no objection, if you think it would be in the interests of our work.

Dear Mr. Scott,-

I have your letter of the 6th instant advising me that you have approved of the appointment of Mr. P. W. Gentleman temporarily, as Principal of the Old Sun's Boarding School, and I regret very much that you have consented to this move, as Mr. Gentleman is not competent to take charge of this School, as his record will show. As Mr. Gentleman was not capable of conducting the School on John Smith's Reserve, he is the less fit to take charge of a larger and more important institution. When he failed at the one point it is difficult to believe that he can make a success at another.

In regard to transferring Mr. and Mrs. Low from Fort a la Corne South School to the School at John Smith's, I have no objections to offer to this transfer.

Dear Sir

I must apologize for the non receipt of my accounts for the month just ended. I may say that on the 29th July I received a communication from the M.S.C.C. saying that they were not prepared to appoint a man to Gleichen, but that this place was without a man in charge and it was desired that I proceed here.

I consulted with C.N.R freight agent in Pincher Creek and found that a direct shipment of goods here was cheaper than making a shipment from Pincher Creek to Calgary, and then on again either to this place or Gleichen.

If the M.S.C.C. require me to go to Gleichen, I will of course do so at my own expense.

On the 22nd of July I spoke to Agent Selwood over the Telephone, and in response to his enquiry as to when I would be leaving; he took it for granted that I was leaving. I told him that I wanted to get away by the afternoon 31st and he informed me that he would come down on the 29th and check over the Department properties, but

Sirs:

For a period of six years from July 1913 - 1919 I was employed by the Indian Dept. at John Smith's Reserve, Prince Albert, Sask., as Overseer and Teacher with my wife as matron of the reserve, under the direction of Mr. C. P. Schmidt, Indian Agent at Duck Lake.

In July last the Indian Dept. informed me that conditions had rendered it unnecessary for me to continue in that position, also that my school was not considered satisfactory and that I had better seek other employment.

I wish to know upon whose recommendation my dismissal was made. I have correspondence from the Indian Dept. not six months old that they were well satisfied with the children under my direction on the occasion of their gaining several prizes at the Prince Albert Fair judged by Provincial School Inspectors in competition with white schools, and the Indian Dept. cannot form any charge against my work in any shape or form which cannt be accounted for, a statement which will be supported on my behalf by W. Know, M. P. for Prince Albert, also the Bishop of Saskatchewan.

For some time past I have been made fully aware by Agent C. P. Schimdt, Inspector Crombie, as well as Commissioner

Graham that they have personally objected to my work and have placed every difficulty in my way. Agent C. P. Schimdt, a German half-breed has made himself particularly objectionable, and I can place direct charges of many occasions of neglect of his duties that has been the cases of a great deal of trouble among the Indians, also considerable expense to the Indian Department.

The Indian Dept. have agreed to pay the expenses of our move to this school, an Indian Boarding School, bat I would like to point out that the salary in my last position came altogether to $1700.00 including that of my wife. This position while carrying with it greater responsibility holds a salary of $600.00 under the arrangements with the Church for the Indian Dept. to pay the grant for the children.

I therefore wish to know, how it is that a man who has put in six years faithful work, who unlike the higher officials of the Indian Dept. has not occupied his time with farms of their own, is liable to treatment of this kind, and in support of my statement of faithful work I can refer to Mr. Knox, the Bishop of Saskatchewan, Professor Bate, any business man in Prince Albert, or any farmer within a radium of ten miles of John Smith's Reserve.

Yours truly,

(SGD) P. W. Gentleman.

Victoria Home . Brocket. Alta.
August, 27th. 1919.

Sirs;

Regarding my recent letter respecting my removal by the Indian Department from the John Smith's School in Saskatchewan to this establishment, I may inform you that I have now been able to look over the work of these children, and I find that the statement of the Indian Department in their letter No 117064-1a of June 23rd last that my services as a teacher are not satisfactory simply has no grounds whatever to stand upon, when it comes to compare the work of these children with those since I have just left.

The state of this schoolroom is simply a disgrace to the Government of Canada. I find that big boys sixteen and seventeen years of age who have been in the school for upward of ten years or more, are only reading out of the second reader, and cannot do a simple multiplication sum. Pen and Ink appears never to have been used. They can copy a piece of writing out of a readingbook onto a slate, but they cannot take a piece of Dictation of any kind. These children have been neglected, and if any Inspector had come into this place and found fault, there might have been grounds, and I would just like to have Mr Inspector Crombie come down here and compare the two places, for as that party inspected the John Smith's School, it would give me the greatest pleasure to ask him his grounds for fault finding and have him note the two school compared. The schoolroom is small, and twelve seats out of thirty broken.

In addition to this neglected state of the schoolroom work, as I intimated in my letter, the whole building, and outfit is dirt

the most difficult to adopt oneself to school work that I have ever seen in the course of fifteen years of school work. An open drain runs down the middle of the yard into which is placed the contents of three outside closets, not 12 yards from the back door, and this under the nose of the Indian Departments Commissioner, Inspector and Agent.

I am well aware of the fact that ~~this is~~ this is a Church Mission school, for which the Church is responsible, and that a good deal of the neglect will doubtless be laid upon the church, but there is no getting away from the fact that the Government of Canada are breaking their treaty obligations with the Indians by not giving a grant large enough to carry on the church schools as they should be carried on. If this establishment, and the Roman Catholic School on the Pelican reserve closed up, the Indian Dept/ would have to open up one of their own, a start. Dayschool which would cost them a great deal more than the Educational work among these people is now doing.

However to refer again to our removal from the John Smiths School. Indian Department letters No 117084/ 1 Aug 29th.1918 also No 261922 Oct 15th, 1918 both lead me to believe that they are well satisfied with the progress of those children, when their work gained prizes judged by the Provincial Inspectors, who at least are school teachers and know their work, and not Political wire pullers, and I fail entirely to see how the Indian Department could change their attitude within so short a time, unless it is that Messrs Graham, Crombie and Schmidt have taken a great dislike to myself for the simple reason that I endevoured to get them to carry out the Indian Act, and regulations which the Department speak of in their letter§

It seems clear to my mind that I have been made a victim of some kind of humbug, and it is my intention to get to the bottom of it.

I have given nearly seven years satisfactio. in my old work, and if the Government will employ rascals like Schmidt, who when appointed Indian Agent had to ask me what the Indian Department meant by the word "Syrname" at the top of his bond, there is no reason why they should have the power to dismiss a man on personal grounds alone.

I have had a nice home; certainly Indian Department buildings, but I kept them well in repair at my own expense. My total salary was $1700, and I gave my whole attention to my work.

Without any grounds whatever, Messrs Graham. Crombie & Schmidt, all three of them Political appointees, and only Graham with more experience with Indians than I have had, have handed me a dirty shabby deal, so that I have had to take $600 a year, move into a dirty unsuitable home in a disgraceful condition , diatroy my two pet animals, and have my household goods smashed up in the transfer. Such is the treatment the Government of Canada can hand out to a man who has given them seven years straight honest endevour.

IS THIS CANADA IN WHICH WE CAN LOOK FOR JUSTICE, or HAS THE GOVERNMENT TURNED BOLSHE ? for I can say that the treatment my wife and I have received along way to turn decent citizens into Bolshies.

The statements I have made will be backed up by the Bishop of Saskatchewan. The Bishop of Edmonton. Archdeacon McKay. Mr W.Knocks Member for Prince Albert. Any business man or clergyman in Prince Albert. Inspector Tomlinson, or Professor Bate in connection with that part of my letter regarding the work of the John Smith School, and Archdeacon Time of Calgary. Agent Graham . Rev Haynes of this

this place, regarding the condition of this establishment.

It is greatly to my regret that I cannot take Mr D.C.Scott to the John Smith's Reserve, in company with Messrs Graham, Crombie & Schmidt, and then bring them to this place, and have them pl ce on recod their reasons for the change.

I will thank you for the fullest investigation. also for a special grant to bring up our salary to the $1700.oo I am not in Indian Missicn work for what I can make out of it, like other officials I can name, but I need it to put this place into some kind of decent repair.

Dear Sir
I have taken up duties of teaching here having been transferred to this reserve from James Smiths. I wrote you asking for a transfer, but did not get a reply direct, but was notified through Duck Lake Agency.

The reason I am writing is this. In connection with the duties of teaching, previous teachers have had other duties, which was, or is to overseer, and to attend to the issuing of rations to the destitute, and school, and directing affairs on the reserve.

The Indian Agent, Mr Schmidt asked me to-day, if I had received word from you as to my position on the reserve, had I heard whether I had the overseeing of the reserve, as he had not heard.

What made him put the question was, that I asked him what my duties were, he said he did not know himself.

If it is the Departments wish that I do the overseeing of the reserve, I will do it to my best ability. I have had nearly six years on James Smiths reserve, and I think I could combine the two duties. I would like to know if I am to hold the position of overseer. I remain

I have your letter of the 7th instant stating that you have received a letter from Mr. J. L. Lowe, Teacher on the John Smith's Reserve, in which he asks whether he is to act as overseer as well as teacher, as did his predecessor, Mr. Gentleman.

I might observe at the outset that Mr. Lowe is adopting a line of procedure for which Mr. Gentleman was frequently blamed and cautioned, that is, writing to the Department in Ottawa over the head of his Agent.

I am satisfied that Mr. Lowe would not make a capable overseer, and the two appointments of teacher and overseer should be kept entirely separate.

Dear Mr. Scott,-

I have been quite unable until now to write the suggested letters to you as to some of the matters we discussed. I beg now to lay the following requests and comments before you. I shall repeat some points discussed and dropped as impossible at present, because I want to have them on your files, as a reminder of what is desired and what I fully believe is due to your Indian work:

No-7. As to Mr. Graham's suggestion for John Smith's Reserve, to remove the Lows and appoint a married farm instructor and a woman teacher, I am writing to him that I greatly deprecate it, at least for the present. It would not be fair to the Lows who have only lately removed there, and are doing good work. I have no other reserve with a decent house for the teacher. A woman teacher would not do so well there, these children require a man. Mrs. Low can look after mid-day meals, and if necessary the dispensing, far better than could a farm instructor and wife. There is a good house for the farm instructor but not near the school. I should strongly suspect any such move as long as Mr. Schmidt remains Indian Agent. It would be contrary to the expressed intention of the I.D. to stop the old scandals of corrupt Indian Agents and farmers and to give us a better class. I hope you will not sanction it.

John Smiths Reserve.
Feb. 14th 1880

Jas. Scott, Esq.
Superintendent of
Dept of Indian Affairs
Ottawa

532943

Sir
I am writing you of affairs concerning
John Smiths School.
When I was transferred from James Smiths
reserve to here I was led to understand by the
Bishop, that I was to be in the same position as the
previous teacher, that was Barbarum overset.
Perhaps I was not told exactly but I inferred so.
I had been here about six weeks when I received
your letter which says that the Dept. did not consider
the combined position to be advisable
I am quite satisfied that it is not advisable,
and from my own opinion it is advisable to have
a farm instructor here too.
The reason I am writing to you is to
ask if you would transfer me back to my old
position at South Flora Lake Co.
The reason is this. During the time of
The Rev. Mr Lengal and Mr Gentleman, the Dept
furnished hay, oats, for the stock, and ration
for the employees, which would suppose I could get
and field ration and sewing utensils for the
overseeing.
The rations have been dropped off & I have to
buy my own hay and oats and $140 has been
disallowed. The Dept paying me $5.00 per month.

for issuing the destitute rations.

I have had to pay fifteen dollars per load for hay, all to-day, and I have got to pay from twenty five to thirty dollars a load for hay to winter that is, if it is possible to get it, I do not expect to get any at all.

Now it is not possible for a man to do this and live reasonable, on the money the Dept. pay for Teacher and Field Matron. It is necessary for any one who lives so far away from town to keep horses and one cow.

The indians have been spoiled by previous Teachers who have given them quite a lot of goods, and have spent a good sum of money on them in way of presents until these indians have become greedy and unreasonable. I do not believe in this, as it does not tend to make the Indian the best he can be. I can give an example.

This winter the minister, who makes a journey from Punnichy every sunday was being paid by the Indians fifteen dollars per month towards his support, and when they charge him fifteen dollars per day.

I have tried to make them see that it is only fair that they should let me have the hay at a reasonable price, but when I refused to pay fifteen dollars for a four load of hay, they took it away.

I could do better at James Smiths even if I do have to put up with poor condition of house and water, but how can a man live reasonable and pay this price for hay.

I would like to go back to the James Smiths
Reserve as I always had a good attendance
and feel that they appreciate the teacher
and school more than here. I hoped not-
withstanding me to go from here, and asked me
to do what I could to get the school open
again, but you know the reason I wanted
to leave and that was because of the
poor conditions. If you think it desirable
I would like to go back for the spring.

I remain

Your obedient servant

John Leonard Lowe.

Abstract for the Quarter ending March 31st 1920

John Smiths Day School.

Reg:	Name	Age.	Band No
0 18	Myrtle Bear	6	98.
6	Allen Smith	13	64
17	Alec Crain	13	101

Myrtle Bear is too small to walk through the deep snow. Alec Crain has attended school a little this quarter but is helping his father, who claims he cannot do without him. Allen Smith. This boy was insolent so I told him not to come again. I took him back again on trial. He behaved himself for a time. Then I had complaints from one of the eldest girls. He had acted in a indecent manner. I also had complaints from parents of two other girls, who said Allen had acted indecently. (other girls) to them, and ran away home, and tried to entice them into the bush. I thrashed the boy, and expelled him from school.
